Re: Resolution Regarding Reseeding and Cleanup of Various Sites Within the Fox Creek Neighborhood.

Pursuant to the request of the Planning and Economic Development Standing Committee to City Council Research and Analysis Division (RAD) to prepare a resolution regarding reseeding and cleanup of various sites within the Fox Creek neighborhood, RAD has prepared the attached resolution for your consideration.

Respectfully submitted,  
DAVID D. WHITAKER

Director

By Council Member Collins:

Whereas, The residents of the Fox Creek area appeared before the Planning and Economic Development Standing Committee, on November 5, 2008 and subsequent meetings regarding their request that various sites within the Fox Creek area be cleaned up and reseeded with grass seeds; and

Whereas, The Fox Creek neighborhood boundaries encompassing approximately 140 acres, of which the Citizen's District

Council (CDC) refers to, are Vernor Highway, the City limits, the alley south of East Jefferson Avenue, Eastlawn Avenue, the alley north of Kercheval Avenue, and the alley east of Philip Avenue; and

Whereas, The CDC would like various sites within their neighborhood to be cleaned up and reseeded, especially in view of the alleged deplorable conditions left behind from water contractors and street repavers in the course of preparing the streets for repaving under the Fox Creek Infrastructure Project; Now Therefore Be It

Resolved, That the Detroit City Council strongly urges the Department of Public Works and the General Services Department to begin re-seeding and cleaning up the various sites within the Fox Creek neighborhood; and Be It Finally

Resolved, That a copy of this resolution be sent to the Mayor's Office, the Department of Public Works and the General Services Department.

Adopted as follows:

Yeas — Council Members S. Cockrel, Collins, Jones, Kenyatta, Reeves, Tinsley-Talabi, Watson, and President Conyers — 8.

Honorable City Council:

Re: Resolution Regarding Monitoring and Inspecting the Work Going on the Fox Creek Project Area.

Pursuant to the request of the Planning and Economic Development Standing Committee to City Council Research and Analysis Division (RAD) to prepare a resolution regarding monitoring and inspecting the work going on the Fox Creek Project Area, RAD has prepared the attached resolution for your consideration.

Respectfully submitted,  
DAVID D. WHITAKER

Director

By Council Member Collins:

Whereas, The residents of the Fox Creek area appeared before the Planning and Economic Development Standing Committee, on November 5, 2008 and subsequent meetings regarding the alleged failure of the Department of Public Works (DPW) and the Buildings and Safety Engineering Department (BSED) to inspect and enforce City ordinances pertaining to the Fox Creek Infrastructure Project (Fox Creek Area); and

Whereas, The Economic Development Corporation's (EDC) project district boundaries, in the which infrastructure project work took place, are Vernor Highway, the City limits, the alley south of East Jefferson Avenue, and Eastlawn Avenue; and

Whereas, The EDC administered the infrastructure project work through the

use of secured water contractors and street repavers; and

Whereas, Upon the staff of the City Planning Commission's (CPC) visit to the Fox Creek Area, they took pictures and observed that the roads were in truly deplorable and sometimes barely passable condition, leaving the roads that were milled in preparation of repaving the streets in a worse condition than before, such as:

1. Very few to none of the traffic barrels (where present) that were placed in the roads around hazards had working flashers, which means that the night residents may be unable to see the hazards when driving down the road at night.

2. The temporary gravel driveways have been in place for approximately two years, which seemed like an extremely long time.

3. There were no erosion control fences evident in the areas, which lead to the runoff of dirt and debris onto the streets and alleys.

4. The debris from the water runoff clogged the storm drains, which were either completely open, or had inadequate coverings such as scrap lumber, causing another potential hazard.

5. Several of the vacant lots used for construction staging by the water contractors and street repavers, needed to be restored by returning the grade to the original condition, including laying grass seeding; and

Whereas, The conditions described above persisted, as recently as March 2, 2009, when the CPC took pictures, despite the ongoing complaints of the Fox Creek residents for about two (2) years;

Now Therefore Be It

Resolved, That the City Council strongly urges the Department of Public Works and the Buildings and Safety Engineering Department closely monitor the Fox Creek Project work through regular inspections and oversight, and Be It Further

Resolved, That the above mentioned departments provide a monthly status report to the City Council of their inspections and monitoring of the Fox Creek Project; and Be It Further

Re: Request for Public Hearing for Conner-Chene Properties, LLC; Application for an Obsolete Property Rehabilitation Certificate, in the area of 4729 and 4733 Conner Street, Detroit, MI 48215, in accordance with Public Act 146.

The Planning & Development Department and the Finance Department have reviewed the application of "Conner-Chene Properties, LLC", and find that it satisfies the criteria set forth by P.A. 146 of 1992 and would be consistent with development and economic goals of the Master Plan.

Public Act 146 of 1992 states, "the legislative body of the qualified local governmental unit, not more than 60 days after receipt of the application by the clerk, shall by resolution either approve or disapprove the application for an obsolete property rehabilitation exemption certificate in accordance with section 8 and other provisions of this act." Prior to acting upon the resolution, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the eligible district, said notice to be made not less than 60 days prior to your Honorable Body's adoption of said resolution.

We request that a Public Hearing be scheduled on the issue of approving the application for the Obsolete Property Rehabilitation Certificate. Attached for your consideration, please find a resolution establishing a date and time for the public hearing.

Respectfully submitted,

MARJA M. WINTERS

Honorable City Council:

Re: Request for permission for the Detroit Police Department to pay its share for construction of a helicopter hangar to be located at the Coleman A. Young Municipal Airport.

The Michigan Department of State Police (MSP) and the Detroit Police Department (DPD) have agreed to operate a joint aviation task force to provide aviation support to the citizens of the City of Detroit. It was decided that partnering is in the best interest of public safety, most cost effective, and will increase the efficiency of aviation support in the City of Detroit.

The MSP will incur the cost of buying and maintaining the helicopter(s) and the cost associated with pilots (wage and salary), including pilot training. The DPD will be responsible for providing and maintaining the hangar located at the Coleman A. Young Municipal Airport and the aircraft fuel costs. This facility is intended to serve as the base of operations.

The Coleman A. Young Municipal Airport has received a grant from the Michigan Department of Transportation in the amount of \$250,000.00 for construction of the helicopter hangar. The grant requires a 10% local cash match. Accordingly, the DPD requests permission to transfer \$27,778.00 to Airport Appropriation Number 04185, cost center #100050; this amount represents the DPD's share for the build out for the helicopter hangar, which includes the \$25,000.00 local cash match.

I am requesting approval from your Honorable Body to adopt the resolution.

If you have any questions or concerns regarding this matter, please feel free to contact me at 596-1800, Monday through Friday, 9:00 a.m. to 5:00 p.m.

Honorable City Council:

Re: Request to Apply for a COPS Hiring Recovery Program (CHRP) Grant from the United States Department of Justice's Office of Community Oriented Policing Services.

The United States Department of Justice's Office of Community Oriented Policing Services (COPS) has announced that applications are being accepted for the COPS Hiring Recovery Program (CHRP). This program provides funding directly to law enforcement agencies to hire and/or rehire career law enforcement officers in an effort to create and preserve jobs, and to increase their community policing capacity and crime prevention efforts.

This CHRP grant provides funding of three years (36 months) for each position awarded. At the conclusion of the federal funding, CHRP grantees are required to retain all officer positions awarded for at least 12 months from the time that the 36 months of grant funding for each CHRP position expires. There is no local match or cap on the amount of funding that can be requested. The number of officers to be hired and federal funding to be requested is still being determined at this time.

Recruiting, of the Detroit Police Department, has been provided with the application instructions and is currently developing a program in compliance with the guidelines

of the grant. In the event that approval is granted to apply and the award is received, Lieutenant Johnny Thomas, of Recruiting, would serve as the project director. The deadline for this application is April 14, 2009.

The Board of Police Commissioners has already approved this request. Therefore, I now request approval from your Honorable Body to apply for the grant and adopt the enclosed resolution.

If you have any questions or concerns regarding this matter, please feel free to contact me at 596-1800, Monday through Friday, 9:00 a.m. to 5:00 p.m.

### Planning & Development Department

April 7, 2009

Honorable City Council:

Re: Property For Sale By Development.

Development: The Southwest Section of 5401 Woodward (Formerly 100 W. Kirby).

On February 24, 2009, your Honorable Body approved the transfer of the above-captioned property from the Detroit Historical Society to the Planning and Development Department. We are now in receipt of an offer from Kirby of Detroit, LLC, a Michigan Limited Liability Company, to purchase the above-captioned property for the amount of \$75,000 and to develop such property. This property consists of a vacant two-story brick structure in need of much repair, located on an area of land containing approximately 17,700 square feet and currently zoned PC (Public Center District).

The Offeror proposes to rehabilitate the existing structure into an office complex to facilitate the relocation of Computech Corporation's corporate offices from Bingham Farms, Michigan. Computech Corporation specializes in technological design and software implementation. The remaining area will be developed into paved surface parking for the storage of licensed operable vehicles. This use is permitted subject to an amendment to the City's zoning ordinance designating the Property PCA (Restricted Central Business District). To facilitate this requirement, Kirby of Detroit, LLC, has submitted an application to the City Planning Commission requesting to change the zoning of the site from PC (Public Center District) to PCA (Restricted Central Business District).

Upon closing of the land sale, the Planning and Development Department will remit \$50,000 to the Detroit Historical Society and retain the balance of \$25,000 for its consideration.

We, therefore, request that your Honorable Body adopt the sale and authorize the Planning & Development

Department's Deputy Director, or her authorized designee, to execute an agreement to purchase and develop this property with Kirby of Detroit, LLC, a Michigan Limited Liability Company, together with a deed to the property and such other documents as may be necessary to effect the sale.

Respectfully submitted,  
MARJA M. WINTERS  
Deputy Director

By Council Member Collins:

Resolved, That in accordance with the Offer to Purchase and the foregoing communication, the Planning & Development Department's Deputy Director, or her authorized designee, be and is hereby authorized to execute an agreement to purchase and develop the property more particularly described in the attached Exhibit A, together with a deed to the property and such other documents as may be necessary to effect the sale, with Kirby of Detroit, LLC, a Michigan Limited Liability Company for the amount of \$75,000.

**Exhibit A**

And be it further

Resolved, That upon closing of this land sale, the Planning and Development Department will remit \$75,000 to the Detroit Historical Society,

Resolved, that this agreement be considered confirmed when executed by the Planning and Development Department's Deputy Director, or her authorized designee, and approved by the Corporation Counsel as to form.

(Public Works Department indicates that along with the "No Right Turn" signs that are currently posted in that area, an additional "No Right Turn" sign will be installed at the southwest corner of Hessel and Southfield Freeway South Service Drive, additionally, recommends enforcement of the "No Right Turn" signs by forwarding a copy of this request to the Northwestern Police Precinct. However, request to close west side Hessel at Southfield Freeway South Service Drive cannot be approved since such closure would affect the accessibility of fire trucks and cause a dead end situation, therefore Traffic Engineering Division recommends Michigan Department of Transportation extend the raised island at the end of Circle Drive so that it ends beyond Hessel (south), also recommends MDOT considers posting "stop" signs instead of "yield" signs at Southfield Freeway South Service Drive north of Hessel. The Police Department recommends DENIAL. Investigation revealed heavy traffic flow and no traffic violations; yield signs were up and visible to traffic in all directions; relative to permanent street closure, the issue should be addressed to the Traffic Engineering Division.)

36. Submitting report in response to Council Member JoAnn Watson's request for information relative to Oil Refinery in the City of Detroit. (Department indicates, in response to items that appear to relate to Detroit Water and Sewerage Department (DWSD) Wastewater Treatment Plant (WWTP), that City departments specifications require that where components are not of acceptable quality or fail to perform as anticipated, are or unacceptable quality, they are rejected; where components fail to perform, DWSD engineering and maintenance staff evaluate the causes, and if they conclude that changes are required to the parts specifications, these are made; for 1st quarter 2009 the Purchasing Division received 2,168 requisitions and has converted 996 into purchase orders, in the amount of \$481,432.00; to date Purchasing has processed 1,739 purchase orders totaling \$8,787,764.00; DWSD has a preventative maintenance program in effect at WWTP that usually involves inspection and lubrication activities, developed by consideration of manufacturer recommendations, staff experience with equipment, and operating conditions to match division needs, in the past 12 months, 29,764 preventative maintenance work orders were completed; also, WWTP has experienced

a higher than normal rate of retirements in the past five years, however, staff replacements are being made to fill critical positions; since 2001, improvements in upgrading technology and computer-based control systems have allowed the elimination of manual only systems to a screen-touch system which requires instrumentation staff and fewer operating staff; the Department has oversight from Federal and State agencies external customers, and internal controls, therefore, can neither afford, nor benefit from alleged manipulations in paperwork.)

#### **VOTING ACTION MATTERS:**

#### **BUDGET, FINANCE AND AUDIT STANDING COMMITTEE Mayor's Office**

March 30, 2009

Honorable City Council:

Re: Resolution to authorize re-execution of revised Cooperation Agreement between the City of Detroit and the Detroit Housing Commission ("DHC") re PILOT payments and provision of City services for public housing properties.

HUD requires, as a condition of federal funding of local public housing projects for low-income persons, that local municipalities grant exemption from real estate taxes and provide municipal services equivalent to those furnished without cost or charge to other property owners and residents of the municipality, in exchange for payment by local housing commissions of Payments in Lieu of Taxes calculated, in accordance with and as permitted by state law and city ordinance, as a percentage of net shelter rents. HUD also requires, as a condition of development or redevelopment of public housing sites, that local municipalities and local housing commissions cooperate with respect to the vacation and dedication of public streets and rights-of-way, the construction of public infrastructure, and other matters necessary for public housing development.

The City has, on multiple occasions prior to DHC's separation from the City, executed and entered into Cooperation Agreements with DHC to evidence the City's consent and agreement to comply with all these requirements. Such Agreements are permitted under Michigan's Housing Cooperation Law, Public Acts 1937, No. 293, MCL 125.601, et seq., as amended. Now that title to public housing properties has been transferred to DHC, pursuant to Council's approval, HUD has requested that the City and DHC re-execute a Cooperation Agreement, in form similar to Agreements previously executed by the City, to reaffirm the City's willingness to support federally funded public housing development in the City of Detroit through compliance with federal program requirements.

We therefore request that Council approve the execution by the Mayor on behalf of the City of Detroit of a revised, restated Cooperation Agreement, a copy of which is attached for review, by adopting the following resolution presented for Council's consideration and approval.

Waiver of reconsideration is requested.

Respectfully Submitted,

SAUL GREEN

Deputy Mayor

By Council Member S. Cockrel:

Whereas, The City has previously authorized and entered into Cooperation Agreements with the Detroit Housing Commission to evidence the City's support for federally funded public housing developments in the City of Detroit and the City's willingness to comply with federal public housing program requirements regarding property tax exemption, PILOT payments and provision of City services; and

Whereas, DHC and HUD have requested that the City reaffirm its willingness to support public housing developments within the City with respect to matters addressed in a revised, restated Cooperation Agreement, a copy of which has been provided to Council as an attachment to the foregoing transmittal letter, which summarizes the substance of the Agreement. Now, therefore, be it

Resolved, That the Mayor of the City of Detroit is authorized to execute said Cooperation Agreement on behalf of the City of Detroit to evidence the City's continuing willingness to abide by and comply with federal program requirements applicable to said developments.

**COOPERATION AGREEMENT**

This Agreement, drafted in accordance with the State of Michigan's Housing Cooperation Law, Public Acts 1937, No. 293, MCL 125.601, et seq., as amended, is entered into this \_\_\_ day of \_\_\_\_\_, 2009, by and between the Detroit Housing

Commission operating pursuant to Act 18 of the Public Acts of Michigan, 1933 (Extra Session), MCL 125.651 et seq., as amended, (herein called the "Local Commission") and th City of Detroit (herein called the "Municipality").

In consideration of the mutual covenants in this Agreement, the parties agree as follows:

**Section 1.** Whenever used in this Agreement.

(a) The term "Housing Development" shall mean any low rent housing that receives financial assistance from the United States of America acting through the Secretary of Housing and Urban Development, hereafter called "HUD", currently in the real estate portfolio of the Local Commission or which may be added to the real estate portfolio of the Local Commission in the future units over which HUD may retain an interest because of its past or present assistance and housing units developed in partnership with the Local Commission which are assisted under the Tax Credit, CDBG, HOME or other federally funded Programs. A Housing Development will generally be located on a single site but may be on scattered sites.

(b) The term "Taxing Body" shall mean the State or any political subdivision or taxing unit thereof, including the Municipality, in which a Housing Development is situated and which would have authority to assess or levy real or personal property taxes or to certify such taxes to a taxing body or public officer to be levied for its use and benefit with respect to a Housing Development if it were not exempt from taxation.

(c) The term "Shelter Rent" shall be defined in a manner that is consistent with state law as it currently exists or may be amended in the future. See specifically MCL 125.1451(2)(e), which, as of the date of this Agreement, defines shelter rent to mean the rental or carrying charges established for occupancy in housing projects, exclusive of payments for taxes and charges for heat, light, water, cooking fuel, and other necessary utilities.

**Section 2.** The Municipality agrees that with respect to any Housing Developments, so long as a Housing Development is used for low rent housing purposes, or any contracts between the Local Commission and HUD for loans or annual contributions or other federal assistance in connection with such Housing Development remain in force and effect, or any bonds issued in connection with a Housing Development remain outstanding, whichever period is the longest, the Municipality will not levy or impose any real or personal property taxes or

special assessments upon any Housing Development or upon the Local Commission with respect thereto.

The Local Commission shall, pursuant to MCL Section 125.661a and in accordance with City of Detroit Code Section, 14-5-10.1, make annual payments to the Municipality, hereinafter called "Payments in Lieu of Taxes", in lieu of such taxes and in payment for public services and facilities furnished for or with respect to its Housing Developments. Each annual Payment in Lieu of Taxes shall be made after the end of the fiscal year established for the Housing Developments and shall be in an amount equal to ten percent (10%) of the aggregate Shelter Rent collected by the Local Commission in respect to the Housing Development during such fiscal year, or the amount permitted to be paid by applicable state law in effect on the effective date of this Agreement, whichever amount is the lower. However, upon failure of the Local Commission to make any Payment in Lieu of Taxes, no lien against any Housing Development or assets of the Local Commission shall attach.

The Municipality shall distribute the payments among the Taxing Bodies in accordance with applicable state law; provided, however, that no payment for any year shall be made to any Taxing Body, including the Municipality, in excess of the amount of the real property taxes which would have been paid to such Taxing Body for such year if the Housing Developments were not exempt from taxation.

**Section 3.** During the period commencing with the date of acquisition of any part of the site or sites of any Housing Development and continuing so long as such housing is used for low rent housing purposes, or any contract between the Local Commission and HUD for loans or annual contributions with respect to the Housing Development shall remain in force and effect, or federal assistance such as tax credits, CDBG, HOME, etc., continues or any bonds issued in connection with a Housing Development shall remain outstanding, whichever period is the longest, the Municipality, without cost or charge to the Local Commission or the tenants of such Housing Development, other than the Payments in Lieu of Taxes, shall:

(a) Furnish or cause to be furnished to the Local Commission and the tenants of the Local Commission, public services and facilities, e.g., Police and Fire protection, Public Lighting, Water & Sewerage and Public Works, of the same character and to the same extent as are furnished from time to time without cost or charge to other dwellings and inhabitants in the Municipality.

(b) Vacate such streets, roads, and alleys within the area of such Housing Developments as may be necessary in the development thereof, and, without charge, transfer to the Local Commission jurisdiction of any interest the Municipality may have in such vacated areas, and insofar as it is lawfully able to do so without cost or expense to the Local Commission and/or to the Municipality, cause to be removed from such vacated areas, insofar as it may be necessary, all public or private utility lines and equipment.

(c) In so far as the Municipality may lawfully do so, grant waivers of the building code(s) of the Municipality as reasonable and necessary to promote economy and efficiency in the development and administration of such Housing Developments and make such changes in any zoning of the site and surrounding territory of such Housing Developments as are reasonable and necessary for the development and protection of such Housing Developments and the surrounding territories.

(d) Accept grants of easement necessary for the development of Housing Developments, and

(e) Cooperate with the Local Commission by such other ways as the Municipality and Local Commission may find necessary in connection with the development and administration of the Housing Developments.

**Section 4.** In respect to any Housing Development, the Municipality further agrees that within a reasonable time after receipt of a written request from the Local Commission:

(a) It will accept the dedication of all interior streets, roads, alleys, and adjacent sidewalks within the area of such Housing Developments after the Local Commission, has completed or caused grading or improvement, in accordance with specifications acceptable to the Municipality, and

(b) It will confer with the Local Commission, develop a mutually agreeable funding plan for, and will grade, improve, pave, and provide sidewalks for, all streets bounding the Housing Developments as necessary to provide adequate access to them and the Local Commission shall pay to the Municipality such amount as would be assessed against the Project site for such work if such site were privately owned, and

(c) It will provide, or cause to be provided, water mains, and storm and sanitary sewer mains, leading to the Housing Developments and serving their bounding streets and the Local Commission shall pay to the Municipality such amount as would be assessed against the Project site for such work if such site were privately owned.

**Section 5.** If the Municipality shall, within a reasonable time after written notice from the Local Commission, fail or refuse to furnish or cause to be furnished any of the services or facilities which it is obligated under this Agreement to furnish or cause to be furnished to the Local Commission or to any Housing Development, then the Local Commission, upon obtaining such services or facilities elsewhere, shall deduct the cost therefore from any Payments in Lieu of Taxes due or to become due to the Municipality in respect to any Housing Development or any other low rent housing assisted by HUD and operated by the Local Commission.

**Section 6.** The Municipality and the Local Commission recognize that because the Municipality was the titleholder for the land upon which the Local Commission operates public housing sites, pursuant to Section 13 of Act 18 of the Public Acts of Michigan, 1933 (Extra Session), MCL 125.651, et seq., as amended, the Municipality has been and may continue to be sued for claims as may have arisen prior to the date the Municipality authorized the transfer of title to the Projects from the Municipality to the Local Commission. The Local Commission may dispose of such claims in its discretion, but the cost of investigation, attorneys' fees, all claims that may be allowed, and final judgments obtained from those claims shall not be a general obligation of the Municipality and shall be paid only from the operating revenue of the Project or Projects or from the proceeds of liability insurance.

**Section 7.** This Agreement shall become effective on the date it is signed by the last of the parties. The Municipality agrees that so long as any contract between the Local Commission and HUD for loans, including preliminary loans, or annual contributions, or both, with respect to any Housing Development shall remain in force and effect, or so long as any bonds issued in connection with any Housing Development shall remain outstanding, this Agreement shall not be abrogated, changed, or modified without the consent of HUD. The privileges and obligations of the Municipality under this Agreement shall remain in full force and effect with respect to each Housing Development so long as the beneficial title to the Housing Development is held by the Local Commission or some other public body or governmental agency, including HUD, authorized by law to engage in the development or administration of low rent housing. If at any time the beneficial title to or possession of any Housing Development is held by another public body or governmental agency, including HUD, the provisions of this Agreement shall inure to the benefit of

and may be enforced by, such other public body or governmental agency, including HUD.

**Section 8.** No member of the governing body of the Municipality or any other public official of the Municipality who exercises any responsibilities or functions with respect to any Housing Development during his or her tenure or for one (1) year thereafter shall have any interest, direct or indirect, in any Housing Development or any property included or planned to be included in any Housing Development, or any contracts in connection with the Housing Developments or property of the Local Commission. If any such governing body member or such other public official of the Municipality involuntarily acquires or had acquired prior to the beginning of his or her tenure any such interest, he or she shall immediately disclose such interest to the Local Commission.

**Section 9.** No Cooperation Agreement previously entered into between the Municipality and the Local Commission shall be construed to apply to any Housing Development covered by this Agreement.

**Section 10.** In the event any provision of this Agreement is held invalid, the remainder shall not be affected thereby, it being the intent of this Agreement to cooperate in the development and administration of the Housing Developments to the fullest extent permitted by law.

Honorable City Council:

Re: Application for Neighborhood Enterprise Zone Certificate for the Woodbridge Estates Area.

On October 21, 1992, your Honorable Body established Neighborhood Enterprise Zones. I am in receipt of one (1) application for a Neighborhood Enterprise Zone Certificate. THIS APPLICATION HAS BEEN REVIEWED AND RECOMMENDED FOR APPROVAL BY THE CITY PLANNING COMMISSION, A COPY OF WHICH IS ATTACHED. Therefore, the attached Resolution, if adopted by your Honorable Body, will approve this application.

Respectfully submitted,  
JANICE M. WINFREY  
City Clerk

By Council Member S. Cockrel:

Whereas, Michigan Public Act 147 of 1992 allows the local legislative body to establish Neighborhood Enterprise Zones for the purpose of providing exemption from ad valorem property taxes, and the imposition of specific property tax in lieu of ad valorem taxes; and

Whereas, The Detroit City Council has established a Neighborhood Enterprise Zone for the following area, in the manner required by and pursuant to Public Act 147 of 1992.

Now, Therefore, Be It Resolved, That the City Council approve the following address for receipt of Neighborhood Enterprise Zone Certificate for a fifteen-year period:

Zone	Address	Application No.
Woodbridge Estates	3967 Aretha Ave.	06-76-52

**City Planning Commission**

November 26, 2008

Honorable City Council:

Re: Neighborhood Enterprise Zone (NEZ) Certificate Application for new housing at 3967 Aretha Ave. in the Woodbridge Estates NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office an application from Scripps Park Associates, LLC for a Neighborhood Enterprise Zone (NEZ) certificate at 3967 Aretha Ave. within the Woodbridge Estates NEZ. Your Honorable Body approved the Woodbridge Estates NEZ designation on September 19, 2001. City Planning Commission staff has reviewed the application and recommends approval.

The property involved in confirmed as being within the boundaries of the NEZ and should be eligible for an NEZ certificate under State Act 147 of 1992 as currently written. Scripps Park Associates, LLC has applied for the certificate, prior to the issuance of building permits, on behalf of the future owner who will occupy the property. It is appropriate for them to apply for a certificate at this time, even if a buyer has not yet been identified. The State Tax Commission, however, will not issue a certificate until an owner is identified. When an owner is identified, he/she can then apply for the certificate. At that time, it would not be necessary for City Council to pass another resolution.

The petitioner proposes to build a three-bedroom single-family home. The site has been cleared and construction will begin soon. The developer will need to submit the parcel information to the State Tax Commission together with a map showing the parcel to receive the certificate.

Please let us know if you have any questions.

GREGORY F. MOOTS

**Re: Employee Loan Program.**

In fulfillment of their collective bargaining obligations under the Michigan Public Employees Relations Act ("PERA") MC423.215, the parties agree that a participant Loan Program will be available to bargaining unit members. Its terms will be as follows:

(a) **Established:** Any loans granted or renewed shall conform with the requirements of Section 72(p) of the Internal Revenue Code, 26 U.S.C.1 et seq. Such loan program shall be established in writing by the board of Trustees, and must include, but need not be limited to the following:

1. The identity of the administrator of the participant Loan program;
2. A procedure to apply for loans, the amount of loan that will be approved or denied, and limitations, if any, on the types and amount of loans offered;
3. The procedure under the program for determining a reasonable rate of interest; and
4. The events constituting default and the steps that will be taken to preserve plan assets.

(b) **The Loan Program:** The Loan Program shall be contained in a separate written document copies of which shall be made available in the offices of the City of Detroit General Retirement System for prospective participants in the program. The Board of Trustees is authorized to adopt rules and regulations, from time to time, to govern the administration and the operation of this program. Copies of the rules shall also be made available to prospective participating members of the system in the offices of the General Retirement System.

(c) **Eligibility:** Subject to the rules and procedures established by the General Retirement System Board, loans will be made to bargaining unit members. Former participants, spouses of participants, and beneficiaries are not eligible to receive any loans from the Plan. Subject to rules and procedures established by the Board, a participant who has been in the plan for twelve (12) months or more is eligible to apply for a loan from this plan.

(d) **Amount of Loan:** A participant who has satisfied applicable rules and procedures may borrow from his or her account an amount, which does not exceed fifty percent (50%) of the participant's vested accumulated balance, or ten thousand dollars (\$10,000.00) reduced by the excess, if any, of: 1) the highest outstanding balance of loans from

the trust during the one (1) year period ending on the day before the date on which the loan is made, or 2) the outstanding balance of loans from the trust on the date on which the loan is made, whichever is less. The minimum loan amount shall be one thousand dollars (\$1,000.00).

(e) **Terms and Conditions:** In addition to such rules and procedures that are established by the Board, all loans shall comply with the following terms and conditions:

1. Loan applications shall be in writing;
2. Loan shall be repaid by equal payroll deductions over a period not to exceed five (5) years, or, where the loan is for the purpose of buying a principal residence, a period not to exceed fifteen (15) years. In no case shall the amount of the payroll deduction be less than twenty dollars (\$20.00) for any two-week period;
3. Each loan shall be made against the assignment of the participant's entire right, title, and interest in and to the trust supported by the participant's collateral promissory note for the amount of the loan, including interest payable to the order of the trustee;
4. Each loan shall bear interest at a rate determined by the board. The board shall not discriminate among participants in its determination of interest rates on loans. Loans initiated at different times may bear different interest rates, where, in the opinion of the Board, the difference in rates is supported by a change in market interest rates or a change in the pension system's current assumed rate of return. The loan interest rate shall bear a reasonable relationship to market rates for secured loans of a similar duration and shall bear a reasonable relationship to the costs to the pension trust of administering the trust. The loan interest rate shall be calculated in a manner that will not negatively affect the City's costs to the trust or the return to trust members.

5. Loan repayments shall be suspended under this plan as permitted by Section 414(u)(4) of the Internal Revenue Code, 26 U.S.C. 414(u)(4). A participant who has an outstanding loan balance from the plan who is absent from employment with the employer, and who has satisfied the requirements of 26 USC 414(u) of the Internal Revenue Code shall not be required to make loan repayments to the fund during said periods of absence.

(f) **Renewal of Loan:** Any loans granted or renewed shall be made pursuant to the participant loan program and Section 72(p) of the Internal Revenue Code, 26 U.S.C. 72(p) and the regulations thereunder.

RESOLVED, That the Detroit City Council hereby urges the State of Michigan to increase funding for the provision of community mental health services so that more individuals in need can be reached; and BE IT FINALLY

**PRESIDENT'S REPORT ON STANDING COMMITTEE REFERRALS AND OTHER MATTERS: RESOLUTIONS**

By ALL COUNCIL MEMBERS:

THE FOLLOWING ITEM(S) ARE TO BE REFERRED TO THE NEIGHBORHOOD AND COMMUNITY SERVICES STANDING COMMITTEE:

**CITY COUNCIL RESEARCH AND ANALYSIS DIVISION**

- 1. Submitting report relative to request to locate a qualified person or entity to conduct an Appraisal for Cobo and other

City owned property; the need for the City to have information as to the base value of the real property owned. (City Council Research and Analysis Division revealed that the outstanding question is to ascertain the value of the portfolio of City owned property; that the anticipated cost for an appraisal of Cobo alone would range between \$50,000.00 to \$100,000.00; that while it is important to obtain the value of City owned property the cost to appraise all the property could approximate millions. Therefore, some perspective as to what the appraisal of Cobo or other City property would consist of three approaches or methods utilized by appraisers to evaluate commercial real property(s), e.g. Cost Approach — the value assessed a property based upon the current cost of replacing a property minus the loss in value from accrued depreciation; Sale Comparison Approach — the value assessed a certain property based upon recent sales of comparable properties in the market; Income Capitalization Approach — the value assessed a certain property under a rational understanding that the price one would pay for the property equals the value attributed to the property's earning capacity; all three facets conducted independent of each other; as well, taking into account the purpose of the appraisal, the type of property, and the adequacy and relative reliability of the data process in each three approaches, however the appraiser must first determine the highest and best use of the property e.g. the reasonable probable and legal use of vacant land or an improved property, etc. This department reviewed the appraisal listings for the American Society of Appraisers and the Appraisal Institute to submit three (3) appraisers/appropriated person or entity to undertake appraising Cobo and other City property.

**RESOLUTIONS**

By ALL COUNCIL MEMBERS:

THE FOLLOWING ITEM(S) ARE TO BE REFERRED TO THE PUBLIC HEALTH AND SAFETY STANDING COMMITTEE:

**MISCELLANEOUS**

1. Pastor Juanita Curry complaint relative to dangerous structure next door to 714 W. McNichols, her church.

2. Clementine Jones complaint relative to three (3) dangerous and abandoned structures on block and fear of tree located on city-owned property falling (no address provided).

3. Ruby Riley complaint relative to overgrown grass/weeds and illegal dumping on abandoned property next door and across the street from her home (no contact information provided).

4. Marian Kramer, Debra Eaton and Glenn E. Ross complaint relative to property damage, excessive charges, etc., related to wireless meter installation at Central United Methodist Church (23 E. Adams Avenue, Detroit, MI 48226).

5. Jeff Ford complaint relative to illegal dumping at 15630 W. Seven Mile Road and burnt out vacant structure behind the property.

Nays — None.

**MEMBER REPORTS:**

**Council Member JoAnn Watson** welcomed Council President Cockrel back.

**Council Member Sheila Cockrel** dittoed that sentiment.

**Council Member Barbara-Rose Collins** advised of what she referred to as a "tiff" that has been going on between her and David Whitaker, Director, Research and Analysis Division. The disagreement is over the need for quorums in public hearings or Committee of the Whole meetings in order for Council to hear testimony. Mr. Whitaker had reissued a memorandum to the council members relative to that matter. But, in light of the fact that there is continued confusion, Mr. Whitaker has forwarded a communication containing those questions to Senator Hansen Clarke for submittal to the Attorney General's Office. President Cockrel suggested that they wait to hear from the Attorney General for clarity.

**Council Member Kwame Kenyatta** congratulated his son, Chinyelu Kofi-Akin Kenyatta, for his graduation from Hampton University where he majored in Business Management.

**Council Member Alberta Tinsley-Talabi** expressed concerned with the talk of General Motors moving their headquarters to Warren. She feels that the City Council should lock hands with Mayor Bing and let General Motors know that we want them to stay, that we are partners with them and cannot even entertain the thought of them leaving Detroit. She also mentioned hearing a discussion on the radio regarding House Bill 848 and the fact that Congressman Conyers is sponsoring it. Her concern

is that those Council Members who did support the bill today will be the source of scorn in the morning. Member Tinsley-Talabi would like to thoroughly read the house bill to determine if a compromise can be reached. She vows to do whatever she can to make this a win-win for both sides.

**Council Member Martha Reeves** began by welcoming President Cockrel back. She then thanked Council Member Kenyatta for bringing the House Bill 848 issue to the table. Member Reeves feels that the bill will benefit those individuals who have supplied music to this world. If other countries can do it, so can America. She further advised City Council that the public is asking that when there is an agenda, that Council verbalize the item by referring to it as something other than an item number. Member Watson supported the motion.

**Council Member Brenda Jones** also began by welcoming President Cockrel back. She then offered congratulations to Council Member Kenyatta and his wife on their son's graduation. She feels that behind every successful child are successful parents.

**Irvin Corley, Director, City Council Fiscal Analysis Division** announced a correction in the budget schedule. He had mentioned yesterday that the executive session for the general fund would begin at 3:00 p.m. on May 13th. However, the calendar shows an 11:00 a.m. session tomorrow. He wanted to make sure that the Council was okay with that.

**Council President Kenneth V. Cockrel Jr.** thanked his colleagues for the welcome back, adding that he had mixed feelings about being back and that he had planned to be someplace else. Mr. Cockrel ended by stating the following: (A) at least I've got a job and (B) it is job continuing to serve the citizens of Detroit, and he cannot think of a higher honor or more pleasurable job to have.

### BUDGET DEPARTMENT

3. Submitting report in response to Council Member Sheila Cockrel's questions for the Public Lighting Department. (Department indicates that the limited staff will continue to be a problem for the Department however will continue to make efforts to reduce the current repair back log which is currently 5,400 lights, preparation for activities such as the Winter Blast, Final Four and others has impacted the ability to address street lighting outages; the rationale for charging \$200.00 per call for a "311 Call Center Call Out Fee", is based on the time and labor cost of dispatching a trouble man to the site, if the issue is a PLD issue, no fee will be assessed; the department has submitted all required/requested financial schedules per the guidelines and due dates, are tracking internal financial information and will comply with the Finance Department's Year-End Close procedures for FY 2008-09; last year the department solicited bids to initiate the RFQ. process, and RFQ. #25580; the future operational plans for Mistersky Power Plant is contingent upon receipt of substantial capital funds and/or economic stimulus funds for projects; converting mercury vapor street lights and series circuits is at 25,000 mercury vapor lights that must be converted to high pressure sodium, dependent on availability of capital funds; the solicitation of bids to contract out street light maintenance and re-lamping would not violate the privatization ordinance because PLD employees would be laid off to fund the contract(s).

4. Submitting report in response to Council Member Barbara-Rose Collin's questions for the Fire Department. (Department indicates that the decrease in City Appropriations is due to the reduction in workforce and the pension/fringes associated with those deleted positions and reductions in supply and equipment accounts; Engine 20 is an assigned company with special fire fighting capabilities, with approximately 200 arrivals and departures daily at the Coleman A. Young Municipal Airport, the department believes that having personnel available for this service is appropriate, therefore the allocation of \$1,320,467.00 for Airport Operations-Crash Crew, it is the department's position to maintain the vehicle and its facility at the present location for use when aircraft incidents occur, pursuant to FAA Regulation Part 139 for Index A airports; the administration's rationale for increasing appropriation 240075-Fire Communication-Dispatch is to reduce historical overtime, therefore implementing twelve (12) hour shifts, which requires an additional supervisor

and two (2) dispatchers, the addition of three (3) FTE in Dispatch was done as a reallocation in FY 2008-09 by deleting three (3) Paramedics to add one (1) Fire Dispatcher and (2) Sr. Asst. Fire Dispatcher; finally, the department anticipates a reduction of up to three (3) available medic units per day, implementing the use of staggered shifts to address peak service demand.)

5. Submitting report in response to Council Member Barbara-Rose Collin's questions for the Planning and Development Department. (Department indicates that the drastic variation between the 2008-09 budget and the 2009-10 recommended budget are attributed to the classification of expenses under the various activities, e.g. Administration, Development, Planning and ONCR, a reduction in general fund expenses, the fact that most CDBG project requests were grouped under the Unassigned Projects cost center, Appropriation No. 12945; the Neighborhood Support Services Division provides an annual mandatory workshop for all organizations awarded NOF/CDBG funding, the workshop provides updated information pertaining to the preparation of contracts and the submission of payment reimbursements, along with individual technical assistance to enable submission of accurate payments in a timely manner; this department plans to generate the projected \$9 million revenue from the sale of the targeted list of properties for the 2009-2010 budget year; the Mayor recommends \$3,000,000.00 for Senior Home Repair, which is included in the Unassigned Projects account, Appropriation No. 12945, along with thirteen (13) other activities but does not reflect any proposed allocations for Citizen's District Councils; ONCR is the catalyst for reinvestment and transformation of Detroit's neighborhood commercial districts, with the mission of providing services to Detroit citizens by supporting the growth of small business in clean, safe, and thriving shopping districts; a goal of supporting commercial districts in the City through job creation, expansion and retention; additionally, the 12 ONCR Commercial District's small/individual businesses receive resources which include grant funds for exterior facades; business start-up and expansion loans; reimbursable educational conferences and technical assistance; we provide up to \$15,000.00 matching grant to business owners, etc.)

6. Submitting report in response to Council Member Barbara-Rose Collins' questions for the Public Works Department. (Department indicates that the \$18,265,955.00 decrease is due to the reduction in Solid Waste Fee from \$300.00 to \$240.00 and a flat fee of \$200.00 for Commercial Inspection Fees;

the rationale for increasing the Solid Waste Division's budget is consistent with expenditures required to perform the myriad of services to maintain a clean and sanitary environment, including nine new positions for the implementation of a pilot recycling program; the true total cost of DPW/Solid Waste Division takes into account disposal costs, inspection costs, support costs, container services and yard operations, in addition to recycling and refuse collection costs, etc.)

7. Submitting report in response to Council Member Barbara-Rose Collins' questions for the Zoological Institute. (Zoological Institute indicates that for the current budget, there has been allocated a total of \$100,000.00 for Belle Isle Facilities in Appropriation No. 12727, as to date no funds have been expended.)

(Department indicates that there are currently four budgeted and active Compliance Officer positions with job descriptions attached for reference; department is in the process of reformatting electronic file and will forward a copy of current list of projects along with copies of the Certified Business Register and the Clearance List; also information on how to obtain a HRD/Purchasing EEOV Clearance process is attached for reference.)

9. Submitting report in response to Council Member Brenda Jones' questions for the Public Lighting Department. (Department indicates that PLD currently has an energy services contract with DTE that expires in April, 2010; the decrease in city revenues by \$952,726.00 reflects the impact of Detroit Public School closings; the decrease in budgeted positions represents proposed lay-offs and elimination of vacant positions; the decrease of \$2,077,251.00 represents elimination of Enviro Matrix contract funds (\$104,000.00), diesel fuel (\$1,000,000.00), additional operating supplies, staff reductions and removal of funds for apprentices (\$439,490.00); it is the department's plan to continue current operations of Mistersky Power Plant in a manner that conserves energy usage, review of operations to determine necessary improvements/restructuring that will increase reliability of power plant production and maintain compliance with all Federal, State and Local Safety and reporting requirements, etc.)

10. Submitting report in response to Council Member Alberta Tinsley-Talabi's questions for the Detroit Building Authority. (Detroit Building Authority indicates that advertisement of all projects exclusively in the Michigan Chronicle and the DBA website; use of the City's targeted business list to contact Detroit based and Detroit headquartered businesses

directly has resulted in 94% of the project dollars awarded has been Detroit based businesses; and 87% of the project dollars awarded have gone to minority or women owned businesses; the DBA has not yet realized any cost saving from the Web-based Project Management System, however has realized efficiencies by all staff having the ability to access the system; there are eleven (11) departments that DBA is working with no plan Fiscal Year 2009-2010 capital projects, all city capital projects are funded through the departments who in turn enter into Contracts of Lease with DBA.)

11. Submitting report in response to Council Member Alberta Tinsley-Talabi's questions for the Fire Department. (Department indicates that currently there are 70 vacant firefighter positions less 10 positions taken as turnover savings in the 08-09 budget, which means the department is currently staffing 58-60 companies, with an additional 10 uniformed personnel detailed as administrative support; the 2005 reorganization plan has reduced annual expenditures for new hires, additionally, open internal recruiting efforts was intended to provide alternative employment opportunities for current city employees with good standing and reduce the cost of open competitive testing and examination; the average age of the November, 2008 Fire Fighter Class is 35.5 and the annual attrition rate in the FFD Field Division is approximately 50; the Age Discrimination in Employment Act of 1967 protects applicants and employees 40 years of age or older from discrimination on the basis of age in hiring, promotion, discharge, compensation, terms conditions or privileges of employment; per the "White Book" the salary range for a Battalion Chief is \$53,300.00 to \$79,800.00, with a new hire averaging \$32,613.00; the 2008-09 budget reflects \$1,311,339.00 in overtime for civilian personnel and \$2,493,349.00 for uniform personnel in overtime, 2009-10 budget recommends \$1,808,083 for civilian personnel and \$2,569,947.00 for uniform personnel for overtime, with a projected deficit of \$5,409,000.00 in overtime cost; a total of approximately 693 extrications are performed annually with a recommended fee of \$300.00 and \$850.00 per event for down power lines, etc.)

(Department indicates that submission of economics stimulus grant projects in hopes of receiving some of those funds for infrastructure improvements; the capital funds in the current years budget have been encumbered in the amount of \$5,004,000.00 for use in capital improvements to the SCADA system at Witkowski, repairs of Unit #6 and

#7 at Mistersky, Substation repairs, Street Light Repairs and other projects; the percentage of street light repair backlog that is more than 30 days old is approximately 80-85%, etc.)

13. Submitting report relative to 2009-2010 Fiscal Analysis' questions for the Finance Department. (Department indicates that the current year projected deficit of \$3,003,000.00 is attributable to the Pension division and is offset by Pension's \$3,003,000.00 appropriation surplus, usually due to vacancies, next year's revenue increase is due to an increase in the Pension division's appropriations, with small revenue increases anticipated in the Risk Management and Debt & Disbursement divisions; none of the \$3.3 million deficit is attributable to the Treasury Division; the total uncollected revenue for 2007 was reported at \$291,005,000.00, with 2007-08 statement before final adjustments at \$318,002,000.00 as uncollectible; five (5) vacant revenue collection positions within the Treasury division are being recommended for elimination in the 2009-10 budget, three (3) positions within the Income Tax division recommended for elimination; the City has fallen behind in the production of the annual audited financial statements due to layoffs and lack of specialized accounting expertise; the Government Accounting Standards Board (GASB) has added many more accounting rules and requirements over the past five years which has increased the accounting complexity and workload; etc.)

14. Submitting report relative to 2009-2010 Fiscal Analysis' questions for the Budget Department. (Department indicates that it has determined that the function of telecommunications management is best suited for the Fiscal Department Accounts Payable Section due to the complexity of making monthly payments to the vendors, but will provide some assistance as this function is transitioned over to Accounts Payable, as well as focus on working with ITS to look for ways to reduce expense; the Budget Department/Management Information & System Division is moving toward finalization of the revised Travel Directive estimated to be completed by the second quarter of Fiscal Year 2009-2010, which will conduct implementation meetings with all Travel Coordinators from City Departments including the legislative branch, as well as, receive the updated material and all questions/concerns; currently, there is not an estimated costs for the switching from Budget Reporting and Analysis Support System (BRASS) to Oracle Public Sector Budgeting (PSB); the Geographic Information System (GIS) is a tool for understanding the relationship of city government to its neighborhoods which allows the tracking of locations of city

15. Submitting report relative to 2009-2010 Fiscal Analysis' questions for the Environmental Affairs Department. (Department indicates that Administration is justified in maintaining the department as a separate independent department because the department is charged under the City Charter to address the environmental issues of the City since 1995; resuming its main focus on brownfield redevelopment, environmental and regulatory compliance; this department will: 1) Continue to seek grants for environmental remediation and cleanup activities to offset the cost of services from the City's general fund, 2) Evaluate and assess city owned property for compliance with environmental laws and regulations, 3) Coordinate the reuse and redevelopment of land within the City of Detroit with city planning agencies, 4) Identify all operations of the City of Detroit that require compliance with federal, state or local environmental laws, 5) Provide guidance and increased attention to the regulatory requirements of city agencies in order to control the fines from federal and state regulators and operational inefficiencies of noncompliance, 6) Seek to utilize centralized professional environmental contracting to minimize the costs of redevelopment, clean up and remediation, 7) Enhance access to state and federal environmental policy makers that develop laws and regulations governing city operations, 8) Support the Code Enforcement activities of DPW by providing technical support for field staff when addressing suspected contaminated materials, 9) Provide training opportunities for city employees and 10) Continue liaison activities with federal and state regulators to assure that the needs and requirements of the City of Detroit are heard in the legislative process, etc.)

(Department indicates that there has been no changes in administering the Apprentice Program, the funding was shifted to the individual departments, however the Administrator continues to be responsible for monitoring the training of apprentices as mandated by the Department of Labor; the rationale for the change in the elimination of positions in HRMS is to move to permanent support structure for the system which will be re-

allocated to the Business System Support Specialist classification which is responsible for providing overall functional support to HRMS; such changes will involve the demotion of one employee from a Human Resources Specialist II to a Business System Support Specialist I, a decrease in salary of approximately \$1,700.00; one of the department's stated goal is to continue to reduce the City's unemployment costs by auditing, processing claims timely and ensuring that the City receives appropriate restitution; the anticipated new HRMS payroll system is projected to be completed by the end of Fiscal Year 2009-10; the implementation of the Oracle HR/Payroll System will be implemented in phases, with expectation of two to three additional departments to go live during Fiscal Year 2009-10; etc.)

17. Submitting report in response to 2009-2010 Fiscal Analysis questions for the Public Works Department. (Department indicates that applicants are to request assistance from one of the five sites: 18100 Meyers, 7131 Westfield, 7737 Kercheval, 13303 E. McNichols, and 5031 Grandy; with required documentation to facilitate the application process; approval is based on household income using the Federal Income Poverty Guidelines (income threshold is currently at or below 200%); all completed applications are forwarded to the Weatherization division; DHS notifies eligible applicant of a pre-

There is not a one-to-one relationship between the adjusted gross receipts and the tax revenue collection increase due to the fact that MGM and Motor City casinos began paying the city 1% less because of the permanent casinos opening on October 3 and November 29, 2007, respectively, part of State Public Act 306 of 2004, when the legislature amended Public Act 69 of 1997, etc.)

#### **CIVIC CENTER DEPARTMENT/COBO CONFERENCE-EXHIBITION CENTER**

22. Submitting report in response to 2009-10 Budget Analysis Issues and Questions. (Civic Center Department indicates that the decrease was caused by Ford/UAW Training Facility's request for the rent reduction; due to reduced membership in the UAW a major portion of Veterans Memorial Building is not occupied and requests the rent to reflect such; a paper/bottle/can recycling program was initiated with all offices located in the Civic Center; the janitorial service began using "green" cleaning products and the caterer began using biodegradable containers,

cup, and cutlery in place of plastic, as well as, purchasing local produce in season and use of "Second Harvest" for left-over food product; an Energy Conservation Program is in place, with interior and exterior lighting is on sensors or computer programmed; strategy along with the Detroit Metro Convention and Visitors Bureau in aggressively pursuing trade shows and conventions, i.e. cultural, religious and education, use of upcoming conventions in sectors such as computer, green energy and technology, as a spring-board to introduction those market segment to Detroit; the expected decrease is due to the receipt of less funding from the collections from the Hotel and Liquor Tax; the Budget Department had originally requested that hourly employees be laid off, however, the hourly employees were restored to the budget and their wages were restored to budget.

#### **GREATER DETROIT RESOURCE RECOVERY AUTHORITY**

23. Submitting report in response to questions regarding Budget Analysis for Upcoming 2009-10 Fiscal Year. (Greater Detroit Resource Recovery Authority indicates that the Agreement specifically *mandates* that "the City shall budget, appropriate and requisition City funds for payment of the Tipping Fee...a full faith and credit obligation of the City from the General Fund as a first *budget obligation*; the only way to avoid appropriating the Tipping Fee from the General Fund is if the City is in a default position resulting from bankruptcy, however, as a result of the March, 1996 refinancing the City will save approximately \$184,000,000.00 over the remaining life of the GDRRA bonds; the Tipping Fee is calculated by taking the sum of the operating fee, the authority's administrative expenses, plus debt service, less the authority's revenues; which proposes the 2009-10 Tipping Fee to represent a decrease of 51.5%, a result of operating expenses, the total elimination of debt service estimated revenues decreasing by 55.22%, a decrease in expenses is the use of \$26,000,000.00 of bond reserves as part of the final payment for debt service and a one-time revenue of \$25,000,000.00 designated as DTE Escrow Fund used in the current fiscal year, etc.)

24. Submitting report relative to the City's continuing obligations to the Greater Detroit Resource Recovery Authority and the Detroit Resource Recovery Facility after June 30, 2009. (Greater Detroit Resource Recovery Authority indicates that the City's obligations with respect to the Authority and to the Facility are two separate, though related, matters; the City's service contract with the Authority, the Full Faith and Credit General and Unconditional Obligation Solid Waste Disposal Contract

between GDRRA and Unconditional Obligation Solid Waste Disposal Contract between GDRRA and the City of Detroit, dated December 16, 1985 runs until the later of (i) the date the bonds have been paid in full and (ii) the earlier of October 1, 2021 or the date the Ground Sublease between the Authority and the Owners terminates/the Owners walk away and the City regains full control of the Facility; until such time the City has contractually agreed to deliver all its municipal solid waste to the Authority; the Authority is obligated to manage and dispose of the same, etc.)

#### **OMBUDSMAN'S OFFICE**

25. Submitting report in response to 2009-10 Departmental Budget Questions. (Ombudsman's Office indicates that the difference in responsibilities in grades I and II is that Assistant Ombudsman I is an entry-level position for employees who have little or no post-secondary work experience; as for the function of investigations governing the citizen's complaint, we encourage all members to utilize our services as defined in the City Charter and according to available resources; this department has experienced an increase in citizen complaints exceeding 200% over the previous three years, due in part to budget cuts; i.e. unattended phones, uncut trees, unlit lights, and unanswered emergency calls; with an increase of an additional 5%, this year; the 2009-10 proposed budget calls for one filled position to be eliminated, which would reduce not only ability to properly address the current increase in demand for services, but also ability to address any future increases.)

#### **STATE OF MICHIGAN 36TH DISTRICT COURT**

26. Submitting response to questions relative to 2009-2010 Proposed Budget. (36th District Court states currently being in compliance with the time guidelines outlined in Administrative Order 2003-7, that a reduction in staffing could impede to remain compliant; working in conjunction with Detroit Police Department, this court intends to implement a pilot E-citation trial within the next 90 days, which will reduce costs and improve efficiency; The Michigan Supreme Court's time guidelines are the measuring standard used to determine success, with the number of tickets/new case filings increase so does the production goal, a major hindrance is the restrictive operating budgets which prevents the purchase of new technology and filling vacant positions; the Ticket Amnesty Program was implemented on April 1, 2009; however the court has received payments on only 4% or 11,026 out of 463,000 of the eligible civil infraction cases and collected a total of \$1,527,809.00, the program has been extended to May 29, 2009; the court has 488 employees, in addition to 31

judges, which has saved the city about \$3,000,000.00 per year; between 7,000 and 9,000 citizens visit the court each day, with the high volume of cases, and the restricted guidelines set forth in Administrative Order 2003-7, these guidelines could not be met, etc.)

Honorable City Council:

Re: Abbie Williams vs. City of Detroit.  
Case No.: 08-117776. File No.: A20000.002825 (CB).

On April 20, 2009, a case evaluation panel evaluated the above-captioned lawsuit and awarded Ten Thousand Dollars (\$10,000.00) in favor of Plaintiff. The parties have until May 18, 2009, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the case evaluation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Ten Thousand Dollars (\$10,000.00) payable to Abbie Williams and Zamler, Mellen, & Shiffman, P.C., her attorneys, to be delivered upon mutual acceptance of the case evaluation award by the parties and entry of Judgment for the award amount in Lawsuit No. 08-117776.

Honorable City Council:

Re: Eric Anderson, et al vs. City of Detroit. Wayne County Circuit Court Case No. 05-516242 NO. Law Department File No.: 3038 (JKM).

On July 7, 2008, your Honorable Body approved authority to arbitrate the above captioned matter and allow settlement and payment to Eric Anderson and Tertrice Dallas by her next friend Terri Dallas and their attorneys pursuant to an arbitration award in an amount not to exceed Five Hundred Twenty-Five Thousand Dollars (\$525,000.00) which included a maximum of One Hundred Thousand Dollars (\$100,000.00) for Tertrice Dallas. The arbitrators awarded Tertrice Dallas by her next friend Terri Dallas the total amount of Thirty Thousand Dollars (\$30,000.00). The information regarding the form of payment to the minor plaintiff was incorrect, as it did not include appropriate language regarding a structured settlement.

We, therefore, request that your Honorable Body rescind the original reso-

lution in part as to Tertrice Dallas by her next friend Terri Dallas only, adopt the amended resolution submitted herewith and direct the Finance Director to issue a draft in the amount of Twelve Thousand Seven Hundred Sixty Seven Dollars and Eighty-Three Cents (\$12,767.83) payable to The Thurswell Law Firm attorneys; and a second draft in the amount of Seventeen Thousand Two Hundred Thirty-Two Dollars and Seventeen Cents (\$17,232.17) payable to Allstate Assignment Company, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 05-516242 NO, approved by the Law Department.

Waiver of reconsideration is requested.

Honorable City Council:

Re: Petition Number 2916 — Request for City Council Approval for the Issuance of a New Michigan Liquor Control Commission Dance and Entertainment Permit in Conjunction with the Transfer and Reclassification of a Liquor License at 351 Gratiot Avenue (Detroit Hilton Garden Inn) to DHG Associates, LP.

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, or a combination dance and entertainment permit, a location licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of local legislative body of the municipality within which the premises are located.

Pursuant to this requirement, the MLCC has forwarded to this Body a Local Approval Notice (Request ID Number 479213), which has been designated by the City Clerk as Petition Number 2916. This Local Approval Notice requests approval by City Council of a request for the issuance of a new dance and entertainment permit in conjunction with the transfer of ownership of a liquor license at 351 Gratiot from Hunter House-Detroit, LLC, Jin Lim, Trustee, to DHG Associates, LP, and the change in classification of the liquor license from "Class C" to "Class B Hotel."

City Zoning District Map Number One indicates that 351 Gratiot Avenue is located on land zoned B4 (General Business District). Pursuant to Section 61-9-76 of the 1984 Detroit City Code, the Detroit Zoning Ordinance, cabarets, establishments for the sale of beer or intoxicating liquor for consumption on the premises, and hotels are by-right uses in a B4 zoning district within the Central Business District. Buildings and Safety Engineering Department records indicate that current permitted uses at 351 Gratiot include restaurant with Class "C" license. Therefore, the use of 351 Gratiot Avenue for a cabaret, hotel, and restaurant with a liquor license is permitted subject to compliance with all relevant state codes and City ordinances, including the issuance of the required business licenses to DHG Associates, LP.

Pursuant to Section 5-7-21 of the 1984 Detroit City Code, a Group "A" Cabaret

license is required for any establishment that sells or serves alcoholic beverages with or without food, and either allows dancing with or without live entertainment, or provides three (3) or more live entertainers at one time with or without patron dancing. Accordingly, DHG Associates, LP, has applied for and paid the applicable fees for a Group "A" Cabaret license and a hotel business license for the establishment at 351 Gratiot Avenue. Pursuant to Chapter 30 of the 1984 Detroit City Code, DHG Associates, LP, will have to meet the applicable requirements of the City Code prior to the issuance of the business licenses for the location.

After investigation and review, the Detroit Police Department Liquor License Unit, on behalf of the Chief of Police, has recommended approval of the transfer of the liquor license to DHG Associates, LP, and the issuance of a dance and entertainment permit for 351 Gratiot Avenue.

Upon this Body's approval of the request for the issuance of a dance and entertainment permit, in conjunction with the transfer of the liquor license and the issuance of a Group "A" Cabaret business license to DHG Associates, LP, the location will be approved by the City for patron dancing and entertainment on the premises. Pursuant to Sections 916(1) and (2) of the Liquor Control Code, being MCL 436.1916(6)(1) and (2), the issuance of a dance or entertainment permit does not allow for adult entertainment, such as topless activity, in a license establishment.

Due to the fact that this request for approval of the issuance of a new dance and entertainment permit does not concern an activity permit for a nonconforming use under the Detroit Zoning Ordinance, the consideration of this petition at this time is not affected by the Temporary Moratorium approved and extended by resolution of City Council on January 27, 2009. Therefore, the Law Department recommends that this matter be referred to the appropriate Standing Committee for review and consideration for the approval or disapproval of the request for the issuance of a new dance and entertainment permit in accordance with the MLCC Local Approval Notice. Attached is a proposed resolution approving the issuance of a new dance and entertainment permit to DHG Associates, LP, in conjunction with the transfer and reclassification of the liquor license at 351 Gratiot.

If there are any questions or concerns, please do not hesitate to contact our office.

Respectfully submitted,  
 KRYSTAL A. CRITTENDON  
 Corporation Counsel

**City Planning Commission**

May 7, 2009

Honorable City Council:

Re: University Cultural Center Association (#3188) requesting approval of four easements to construct Phase One of the Midtown Loop Greenway (Recommend Approval).

Submitted herewith is the report and recommendation of the City Planning Commission (PC) staff relative to the request of the University Cultural Center Association (UCCA) to construct Phase One of the Midtown Loop Greenway. UCCA has requested four (4) easements: 1) the Detroit Public Library; 2) the Detroit Science Center; 3) Matrix Human Services (the Barrat House); and 4) Veterans Hospital.

According to UCCA, the Midtown Loop will be a two-mile greenway and the trail will follow existing street patterns. These streets will include Kirby Street to John R. Street, Cass Avenue with Warren Avenue serving as the central connector. The pedestrian trail will connect the campuses of Wayne State University, Detroit Medical Center and the Cultural Center. The trail will eventually link to greenways in the surrounding areas (see attachment).

Phase One of the project will traverse the following areas: Kirby Street between Cass Avenue and John R. Street and John R Street between East Kirby Street and East Canfield Street. Phase One greenway loop will traverse the premises of the following public institutions and high-rise condos, namely Wayne State University, Detroit Historical Museum, Park Shelton Condos and the Detroit Institute of Arts. Other proposed developments on the first phase will include: the College of Creative Studies, the Barrat House, Hudson's Art Park, and the VA Medical Center.

The Michigan Department of Transportation (MDOT) will bid out the project in May with construction getting underway in mid to late June. Vest pocket parks are also anticipated along the greenloop. At this time, only the Veterans Administration Medical Center has committed to a vest pocket park.

The second Phase of the greenway will traverse Cass Avenue between West Kirby Street and West Canfield and Canfield between Cass Avenue and John R Street. John R Street is expected to be narrowed to only one lane. The above referenced portion of John R. Street is busy with activities, and motorists avoid the heavy traffic on Woodward Avenue and travel through John R. Street. Motorists travel via John R. Street because it's faster to get to the Central Business District. The narrowing of John R Street should provide a traffic-calming effect on John R Street.

The Midtown Loop will reclaim right-of-ways by creating a widened walkway and this would improve pedestrian movement (most especially on John R. Street). The greenway loop initiative is expected to be a part of a larger greenway network linking New Center to downtown and the Detroit River. One notable feature of the greenway loop is the planting of perennials, deciduous and ornamental trees and shrubs, etc. — all of these would be native species of Michigan.

#### **Public Art Along the Greenway Loop**

The University Cultural Center Association (UCCA) has completed the Midtown Loop Art Master Plan. According to our information, Susan Wilczak, a public art consultant, and the arts committee, consisting of representatives from arts organizations in greater downtown, have identified twelve different sites located on the Midtown Loop for placement of public art which would complement the greenway loop.

#### **Project Funding**

Construction of the first phase is scheduled for this spring. Funding has been made possible with \$2.3 million in stimulus funds and a \$1.3 million grant from the Community Foundation for Southeast Michigan.

#### **Conclusion and Recommendation**

The CPC staff, the petitioner, and the project architect and an engineer conducted a site visit to the proposed two-mile Midtown Loop Greenway on April 9, 2009. CPC staff was able to see upfront the areas for future improvement and we think that the plan to develop the greenway loop is a positive way of improving the environment, enhancing walk ability, and also controlling the speed of motorists in the area. The greenway loop will also encourage pedestrians to walk through the interconnected public facilities in the area. The proposed lighting will provide additional security. Finally, the greenway loop will improve pedestrian crossings.

We respectfully recommend that the Council approve the proposed two-mile greenway loop project.

If you need additional information on

this matter, please contact Michael Adebayo of our staff.

April 20, 2009

Honorable City Council:

Re: Petition No. 3188 — University Cultural Center Association (UCCA), requesting approval of four easements necessary for UCCA to construct phase one of the Midtown Loop Greenway in the areas of Kirby Street to John R. to Canfield to Cass.

Petition No. 3188 of "University Cultural Center Association (UCCA)" whose address is 4735 Cass Avenue, Detroit, Michigan 48202 requests the Honorable City Council to accept easements over private properties located on Kirby Avenue, 52.78 feet wide, between Cass Avenue, 80 feet wide, and Woodward Avenue, 120 feet wide; John R Avenue, 60 feet wide, Between Frederick Douglass, 60 feet wide, and Warren Avenue, variable width; and John R. Avenue, 60 feet wide, between Hancock Avenue, 70 feet wide, and Canfield Avenue, 60 feet wide. The public easement is required to construct streetscape improvements on said Streets using federal Transportation Enhancement Funds administered by the Michigan Department of Transportation ("M-DOT"). This Enhancement Funding along with matching funds from the UCCA will cover the streetscape improvements along said Street rights-of-way.

The "Street Enhancement Area" will be placed on property owned by the Detroit Library Commission, the Detroit Science Center, Matrix Human Services (Barat House), and the U.S. Department of Veteran's Affairs which has agreed to give the University Cultural Center Association (UCCA) permission to maintain the Street Enhancement areas in perpetuity pursuant to terms and conditions set forth in Streetscape Improvement Project Agreement/Maintenance Agreement with the Department of Public Works.

One of the requirements of the M-DOT Transportation Enhancement Grant is that City Council authorize acceptance of land for public easement rights over the area required for construction of the Street Enhancement Areas.

An appropriate resolution is attached for consideration by your Honorable Body.

Respectfully submitted,  
JESSY JACOB  
City Engineer  
City Engineering Division — DPW

By Council Member Collins:

Whereas, The Department of Public Works ("DPW") previously executed and entered into an Agreement with the UCCA under which the UCCA agreed, among other things, to be responsible for any Project costs deemed ineligible for Transportation Enhancement Grant funding and for maintenance of Project improvements, after completion, "in perpetuity"; and

Whereas, DPW has now approved the plans for Project improvements, but an unfulfilled condition precedent to Transportation Enhancement Grant funding is the grant by the Detroit Library Commission, the Detroit Science Center, Matrix Human Services (Barat House), and the U.S. Department of Veteran's Affairs, as property owner, agreed to give the University Cultural Center Association (UCCA) permission to maintain the public easement rights over and across the parcel proposed for development; and

Whereas, In order to meet the grant requirements, it is necessary that an Street Enhancement Area Easement be authorized by your Honorable Body and determined to be under DPW's control and jurisdiction.

Now Therefore Be It Resolved, That the Detroit Library Commission, the Detroit Science Center, Matrix Human Services (Barat House), and the U.S. Department of Veteran's Affairs, offer to grant of public pedestrian easement rights over the land is hereby accepted and an Street Enhancement Area Easement is hereby authorized and established as being under DPW's control and jurisdiction for the parcel of land more particular described as:

Easement Exhibit "A" Legal Descriptions and Drawings Exhibit "B"

Provided, That the University Cultural Center Association (UCCA) on which the Street Enhancement Area Easement is located, for itself and together with, for and by its successor and assigns, if any, shall be responsible for maintenance of the easement area "in perpetuity," which shall be defined as until such time as City Council, in its sole discretion, by resolution, relinquishes all right, claim and interest in public pedestrian easement rights over and across the subject parcel; and be it further

Provided, That any work to be done in

the public right-of-way is subject to park review by the City Engineering Department, any and all necessary permits are required, and specifically with respect to park improvements constructed on the Street Enhancement Area Easement: (1) the top soil used as the final layer for the site shall be at least 6 inches thick of clean soil, with certification of such supported by laboratory data; and (2) the 6" thick clean soil layer shall be maintained "in perpetuity" for so long as the easement area is available for public access; and be it further

Provided, That the University Cultural Center Association (UCCA) of the public easement rights over and across the Street Enhancement Area Easement, for itself, its successors and assigns, agrees to save harmless and indemnify the City of Detroit (the "City") from any all liabilities, obligations, penalties, costs, charges, losses, damages, or expenses (including but not limited to, fees and expenses of attorneys, expert witnesses and other consultants) which may be imposed upon, incurred by or asserted against the City by reason of any of the following occurring:

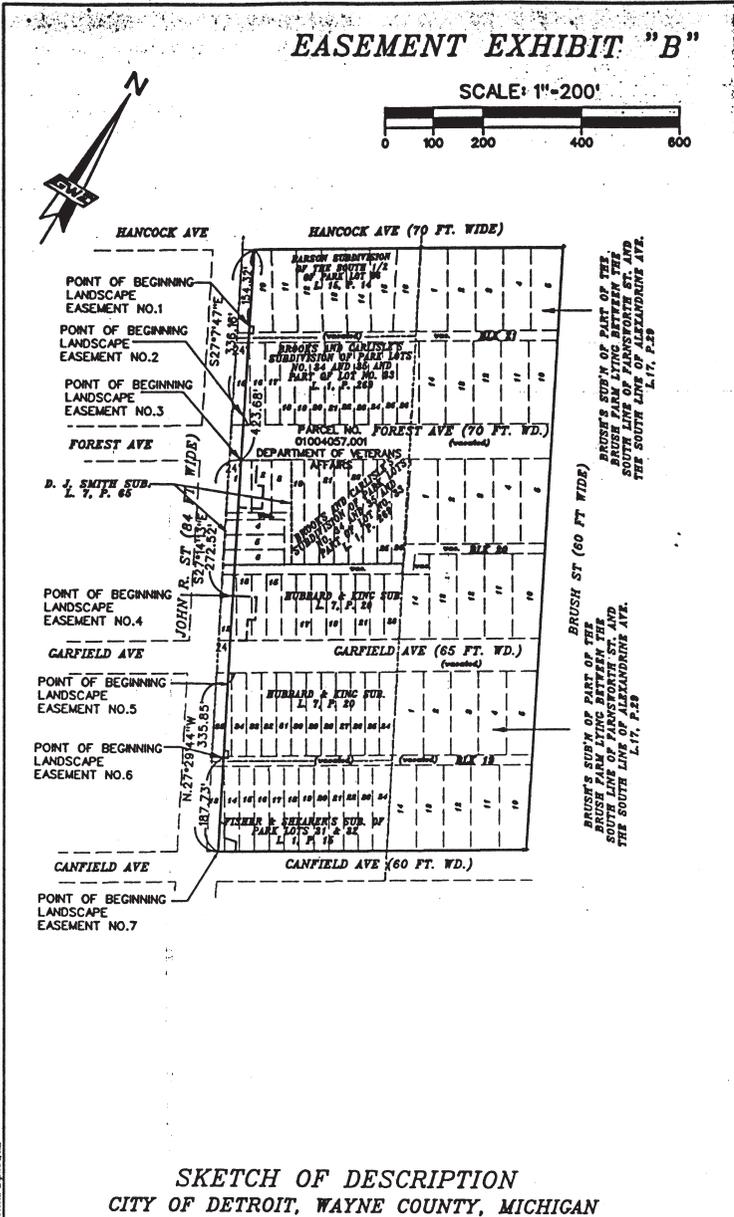

(a) Any intentional, negligent or tortuous acts by Grantor, Grantor's contractors, agents, representatives and employees resulting in personal injury, bodily injury, sickness, disease or death, or injury to or destruction of tangible or real property, including the loss of use therefore, without regard for whether said act or claim arises prior to or subsequent to conveyance of the pedestrian easement to the City; or

(b) Any environmental claim or violation of any environmental law, whether for personal injury, property damage or otherwise, without regard for whether said claim arises prior to or subsequent to conveyance of the pedestrian easement to the City; or

(c) Any and all injury to the person or damage to the property of any person on, about, traversing, playing on or in any way using the pedestrian easement granted to the City, without regard for whether said claim or violation arises prior to or subsequent to conveyance of the pedestrian easement to the City; and further

Provided, That the City Clerk shall within 30 days record a certified copy of this resolution with the Wayne County Register of Deeds.

Re: Address: 15778 Mendota. Name: Printer Hines. Date ordered removed: April 6, 2009 (J.C.C. page ).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on April 13, 2009 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of (Housing Commission).

The proposed use of the property is rehabilitation and sale, rehabilitation and rental.

This is the ( ) deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits

- Certificate of Approval as a result of a Housing Inspection

- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Honorable City Council:

Re: Address: 11833 Wilfred. Name: Lagarte Starke. Date ordered removed: March 16, 2009 (J.C.C. page ).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on April 16, 2009 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of March 27, 2009.

The proposed use of the property is owner's use and occupancy.

This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 18 of the 1984 Detroit City Code is amended by adding Article 16 as follows:

**Article XVI  
Pension System Funding Program  
Division 1  
Findings, Definitions and  
Interpretation**

**Sec. 18-16-1. Legislative Findings —  
Pension System Funding Program**

The Detroit City Council expressly finds and determines that:

(a) Article 9, Section 24 of the 1963 Michigan Constitution of the State of Michigan obligates the City to maintain the actuarial integrity of its General Retirement System (the *GRS*) and its Police and Fire Retirement System (the *PFRS* and together with the *GRS*, the *Pension System*).

(b) Maintaining the actuarial integrity of the Pension System is both a constitutional obligation and an important public purpose of the City, and, to that end, the City undertook the 2005 Transaction and the 2006 Transaction, as hereinafter described in Sections 18-16-2 and 18-16-3, respectively (the *Pension System Funding Program*).

(c) The Pension System Funding Program contributes to the quality of life in the City of Detroit (the *City*, whether referring to the Michigan municipal corporation by that name or the territory within the boundaries thereof) by providing a source of income to the City's public service employees through funding of certain of the City's pension obligations.

(d) The Pension System Funding Program further contributes to the quality of life in the City by reducing the financial requirements of the Pension System and permitting tax receipts to be used for other purposes.

(e) Due to certain events affecting the hereinafter defined Insurers and the City, it is necessary that the City pledge Revenues, as described in Section 18-16-4, as an incident of the Pension Funding Program.

**Sec. 18-16-2. Legislative Findings —  
2005 Transaction**

The Detroit City Council expressly finds and determines that the following actions

constitute the **2005 Transaction**, undertaken by the City as part of its Pension System Funding Program.

(a) By Ordinance No. 03-05 the City provided an alternative funding mechanism for, respectively, the GRS and the PFRS (each, an **Alternative Funding Mechanism**) to provide for unfunded actuarial liability (**UAAL**) of the GRS (**GRS UAAL**) and UAAL of the PFRS (**PFRS UAAL**) and together with the GRS UAAL, **Pension System UAAL**).

(b) By Ordinance No. 05-05 (the **Funding Ordinance**) the City provided for incorporation of two service corporations, the Detroit General Retirement System Service Corporation and the Detroit Police and Fire Retirement System Service Corporation (each, a **Service Corporation** and collectively, the **Service Corporations**) to serve as the means to fund Pension System UAAL.

(c) The Funding Ordinance also provided for the execution by the City of a service contract with each of the Service Corporations (collectively, the **2005 Service Contracts**), and it approved the form of the Contract Administration Agreement and the trust agreement (the **2005 Funding Trust**) which provided for the issuance of the taxable certificates of participation, series 2005 (the **2005 COPs**).

(d) The Service Corporations sold their rights to receive certain payments (**2005 Service Payments**) under the 2005 Service Contracts to the 2005 Funding Trust, and the 2005 COPs represented undivided interests in the 2005 Service Payments.

(e) Because certain of the 2005 COPs had components of the Service Payments based on variable rates (the **Variable Rate 2005 COPs**), the Service Corporations entered into interest rate swap agreements (collectively, the **2005 Hedges**) with UBS AG (**UBS**), SBS Financial Products Company LLC (**SBS**) and an additional counterparty in order to hedge payments due under the 2005 Service Contracts in respect of the Variable Rate 2005 COPs.

(f) Under certain circumstances Merrill Lynch Capital Services Inc. agreed to assume the obligations under the 2005 Hedges to which SBS was a party. Each of UBS, the additional counterparty, SBS and Merrill Lynch Capital Services Inc. are herein called a **2005 Counterparty** and collectively, the **2005 Counterparties**.

(g) The City approved the 2005 Hedges in the Funding Ordinance and acknowledged the risks associated with them, including the risk that "unforeseen events may occur which may have material adverse effects on present expectations."

(h) The City agreed in the 2005

Service Contracts to make payments (**2005 Hedge Payables**) to the Service Corporations sufficient to pay amounts owing by the Service Corporations under the 2005 Hedges.

(i) The obligations of the Service Corporations under certain of the 2005 Service Contracts, including the obligations to pay 2005 Hedge Payables under certain of the 2005 Hedges, were insured by Financial Guaranty Insurance Company (**FGIC**), and the obligations of the Service Corporations under the remaining 2005 Service Contracts were insured by XL Capital Assurance Inc. (now known as Syncora Guarantee Inc., **Syncora**, and together with FGIC, the **Insurers**).

(j) The 2005 Hedges provided that an additional termination event (the **2005 Additional Termination Event**) would occur if two events occurred: (i) the ratings of Insurers were reduced below a certain level by certain of the rating agencies rating the 2005 COP's and (ii) such rating agencies also reduced, although not necessarily contemporaneously, the rating of the 2005 COPs below investment grade (the **2005 Trigger Event**).

(k) The **2005 Additional Termination Event** permitted the 2005 Counterparties to terminate the 2005 Hedges and pay or receive the net termination value determined by the respective value of the Service Corporations' and the 2005 Counterparties' obligations under the 2005 Hedges.

(l) Proceeds of the 2005 COPs were provided to GRS and PFRS for application in accordance with the respective Alternative Funding Mechanism.

### **Sec. 18-16-3. Legislative Findings — 2006 Transaction**

The Detroit City Council expressly finds and determines that the following actions constitute the **2006 Transaction**, undertaken by the City as part of its Pension System Funding Program.

(a) The 2006 Transaction was undertaken in connection with the increase in the amortization period of UAAL by both GRS and PFRS to 30 years and was entered into to reduce the annual funding costs of the Pension System UAAL funded by the 2005 Transaction and thereby advance the purposes of the Pension System Funding Program.

(b) The 2006 Transaction was structured substantially similar to the 2005 Transaction.

(1) By resolution adopted on April 26, 2006 (the **2006 Resolution**), the City provided for the execution by the City of a service contract with each of the Service Corporations (collectively, the **2006 Service Contracts**), and it approved the form of the Contract Administration Agreement and the trust agreement (the **2006 Funding Trust**) which provided for the issuance of the taxable certificates of

participation, series 2006 (the **2006 COPs**) to refund the Variable Rate 2005 COPs.

(2) The Service Corporations sold their rights to receive certain payments (**2006 Service Payments**) under the 2006 Service Contracts to the 2006 Funding Trust, and the 2006 COPs represented undivided interests in the 2006 Service Payments.

(3) Because certain of the 2006 COPs had components of the 2006 Service Payments based on variable rates (the **Variable Rate 2006 COPs**), the Service Corporations entered into interest rate swap agreements (collectively, the **2006 Hedges**) with UBS and SBS in order to hedge payments due under the 2006 Service Contracts in respect of the Variable Rate 2006 COPs.

(4) Under certain circumstances Merrill Lynch Capital Services Inc. agreed to assume the obligations under the 2006 Hedges to which SBS was a party. Each of UBS, SBS and Merrill Lynch Capital Services Inc. are herein called a **2006 Counterparty** and collectively, the **2006 Counterparties**.

(5) The City approved the 2006 Hedges in the 2006 Resolution and acknowledged the risks associated with them, including the risk that "unforeseen events may occur which may have material adverse effects on present expectations."

(6) The City agreed in the 2006 Service Contracts to make payments of the 2006 Hedge Payables (defined below) to the Service Corporations sufficient to pay all amounts owing by the Service Corporations under the 2006 Hedges.

(7) The obligations of the Service Corporations under the 2006 Service Contracts, including the obligations to pay 2006 Hedge Payables were insured by the Insurers.

(8) As in the 2005 Transaction, the 2006 Hedges provided that an additional termination event (the **2006 Additional Termination Event**) would occur if two events occurred: (i) the ratings of Insurers were reduced below a certain level by certain of the rating agencies rating the 2006 COPs and (ii) such rating agencies also reduced, although not necessarily contemporaneously, the rating of the 2006 COPs below investment grade (the **2006 Trigger Event**).

(9) The **2006 Additional Termination Event** permits the 2006 Counterparties to terminate the 2006 Hedges and pay or receive the net termination value determined by the respective value of the Service Corporations' and the 2006 Counterparties' obligations under the 2006 Hedges.

(10) The 2005 Hedges were terminated with termination values in favor of the City, and proceeds of the 2006 COPs

were used to refund the Variable Rate 2005 COPs.

#### **Sec. 18-16-4. Legislative Findings — Pledged Property**

The City Council expressly finds and determines as follows:

(a) In January 2009, the 2006 Counterparties notified the Service Corporation and the City that they believed that the 2006 Trigger Event had occurred and that they were permitted by the terms of the 2006 Hedges to declare a 2006 Additional Termination Event thereunder.

(b) The declaration of the 2006 Additional Termination Event in January 2009 could have resulted in the imposition of an immediate obligation on the City to make a combined payment to the Service Corporations (the **Hedge Termination Payment**) under the 2006 Service Contracts in the range of \$300 million to \$400 million.

(c) The 2006 Counterparties may seek judicial recourse if the City fails to make immediate payment of the Hedge Termination Payment.

(d) Such judicial recourse may result in judgment liability forcing the City to raise taxes without limit as to rate or amount.

(e) Such taxes will be destructive of the quality of life in the City and will place its residents under a severe financial burden.

(f) In lieu of declaring the 2006 Additional Termination Event and in the interest of avoiding fees and expenses of litigation, the City, the Service Corporations and the 2006 Counterparties have agreed in principle to the Terms for Settlement (the **Term Sheet**), which are confidential and non-binding.

(g) The non-binding terms set forth in the Term Sheet are acceptable to the City and the Service Corporations and provide the only feasible alternative available to the City to avoid the declaration of the 2006 Termination Event.

(h) The Term Sheet provides for the pledge of certain revenues and certain other assets, now or hereafter receivable by the City, referred to below as **Pledged Property**, to secure payment of the 2006 Hedge Payables as and when the same become due under the 2006 Service Contracts.

Honorable City Council:

Re: Request to Apply for a Recovery Act: State and Local Law Enforcement Assistance Program: Combating Criminal Narcotics Activity Stemming from the Southern Border of the United States Competitive Grant from the United States Department of Justice's Office of Justice.

The United States Department of Justice's Office of Justice Programs has announced that they are accepting applications for a Recovery Act: State and Local Law Enforcement Assistance Program: Combating Narcotics Activity Stemming from the Southern Border of the United States Competitive Grant. Under this solicitation, the grantor will be

making awards to provide assistance and equipment to local enforcement along the southern border to combat criminal narcotics activity. As an authorized law enforcement applicant for HIDTA (High-Intensity Drug Trafficking Area) and due to the fact that there is criminal narcotics activity in Detroit "stemming" from areas south of the southern geographic land border of the United States (i.e. Mexico, Central and South America), the Detroit Police Department is able to submit a proposal for this grant announcement.

This competitive announcement focuses on four categories: 1) combating criminal narcotics activity; 2) Enhancing southern border jails, community corrections, and detention operations; 3) Facilitating justice information sharing, collaboration and problem-solving and 4) National training and technical assistance.

The application which will be prepared may span multiple categories, but the primary focus of the application will be on category 1. Examples of narcotic drug activities that could be funded include, but are not limited to:

- Hiring sworn law enforcement officers or paying overtime to address narcotics-related activity including drug-related crime and violence.
- Establishing, maintaining, or enhancing multi-jurisdictional drug trafficking task forces.
- Hiring crime analysts and intelligence analysts to support data-driven strategies to combat criminal narcotics activity.
- Supporting law enforcement activities that respond to border-related home invasions and associated violence.
- Establishing, supporting, and enhancing crime lab capacity to assist HIDTA and other state and local law enforcement initiatives to combat narcotics activity.
- Enhancing law enforcement resources for narcotics-related investigations, prosecutions, and intelligence gathering and sharing activities.
- Hiring prosecutors for programs targeting criminal narcotics-related violent crimes, smuggling, storage, transportation, and related issues impacting the region.
- Acquiring, maintaining surveillance and tracking equipment and personnel costs for interdiction support.
- Acquiring equipment and connectivity functions to support intelligence and regional information-sharing programs.

There is **no local match** or cap on the amount of funding that can be requested and the federal funding to be requested is still being determined at this time. This will be a two year grant, expected to run from June 1, 2009 thru May 31, 2011. In the event that approval is granted to apply and the award is received, Sergeant Rodger Johnson, of Narcotics, will serve as the project director. **The deadline for this application is April 17, 2009.**

The Board of Police Commissioners has approved this request. Therefore, I now request approval from your Honorable Body to apply for the grant and adopt the enclosed resolution.

Honorable City Council:

Re: Request to Apply for an Edward Byrne Memorial Competitive Grant Program from The United States Department of Justice's Office of Justice Programs.

The United States Department of Justice's Office of Justice Programs has announced that they are accepting applications for their Edward Byrne Memorial Competitive Grant Program. The purpose of this program is to help communities improve the capacity of state and local justice systems and provide for national support efforts including training and technical assistance programs strategically targeted to address local needs.

This competitive announcement focuses on initiatives in eight areas: 1) preventing and reducing violent crime through community-based data-driven approaches; 2) providing funding for neighborhood-based probation and parole officers; 3) reducing

mortgage fraud and crime related to vacant properties; 4) hiring of civilian support personnel in law enforcement (training staff, analysts, dispatchers, etc.); 5) enhancing forensic and crime scene investigations; 6) improving resources and services for victims of crime; 7) supporting problem-solving courts; and 8) national training and technical assistance partnerships.

The application which will be prepared may span multiple categories, but the primary focus of the application will be on category 4. The intent of category 4 is to provide funding to departments to allow the hiring of additional civilian law enforcement personnel (crime and intelligence analysts, dispatchers, and training staff) to augment their workforce, thus allowing more sworn law enforcement to be on the street in an effort to reduce and prevent crime.

There is **no local match** or cap on the amount of funding that can be requested. The number of civilians to be hired and federal funding to be requested is still being determined at this time. This will be a two year grant, expected to run from August 1, 2009 thru July 31, 2011. In the event that approval is granted to apply and the award is received, Sergeant Michael A. Chambers, of Grants and Contracts, will serve as the project director. **The deadline for this application is April 27, 2009.**

**RESOLUTION URGING**

Whereas, The City of Detroit is facing a budget deficit in the current 2008-2009 fiscal year; and

Whereas, It is prudent of the City of Detroit to govern its affairs to insure that all moneys due to the City are fully collected and accounted for; and

Whereas, Pursuant to Michigan's City Utility Users Tax Act 100 of 1990, MCL 141.141.1151 *et seq.*, as amended (Act), a public utility such as DTE, is required to collect utility users taxes from its customers and to remit the funds to the City; and

Whereas, Pursuant to the Act, Section 141.1152(4), "The revenue generated from this tax shall be placed directly in the budget of the police department of a city described in this act and shall be used exclusively to retain or hire police officers; and

Whereas, The Detroit Police Department, which is facing hiring challenges of police officers largely due to the City's budgetary limitations, could directly benefit from any additional revenue from the city utility uses tax; and

Whereas, Pursuant to the Act, MCL 141.1165(5), the administrator, which in this case is the Finance Director "Or his or her duly authorized agent may examine the books, papers and records of any person, public utility, resale customer, taxpayer or his or her agent or representative, for the purpose of verifying the accuracy and completeness of a return filed...; Now Therefore Be It

Resolved, that the City Council strongly urges the Mayor to arrange to have a forensic audit of DTE's payment of utility taxes to determine if all taxes due to the City were paid by DTE; And Be It Finally

Resolved, That a cop of this resolution be sent to the Mayor's office and finance Department.

Re: Potential reprogramming of unspent Community Development Block Grant (CDBG) funds for City Council priority projects (DEPARTMENTAL REPORT).

City Council requested that unspent CDBG funds be reprogrammed for the purpose of funding City Council priority projects.

The subject City Council priority projects, include but are not limited to the following: the reopening of the Belle Isle Aquarium, the redevelopment of neighborhood near the intersection of St. Aubin and Chene Avenues, the repair and reopening of select closed recreation centers (specifically the Evans and/or Johnson Recreation Centers), the operation of select recreation centers within existing Detroit Public Schools, and the development of the Paradise Valley project.

The City Council is requesting that the Planning and Development Department report on the CDBG activities and the amount of any unspent CDBG funds, including an explanation of why the funds had not been spent within a reasonable time frame.

A resolution reflecting the subject request is attached for your Honorable Body's consideration.

By All Council Members:

Whereas, Over the years at various times the Planning and Development Department (P&DD) reported to and requested from the Detroit City Council the reprogramming of millions of dollars in unspent Community Development Block Grant (CDBG) funds; and

Whereas, It has been several years since P&DD has identified for the Detroit City Council the amount of unspent CDBG funds available for reprogramming; and

Whereas, The Detroit City Council wishes to explore alternative funding sources for priority City projects, including but not limited to the reopening and operation of the Belle Isle Aquarium, the reopening and operation of select closed City recreation centers (such as the Johnson and Evans Recreation Centers), the possible operation of recreation activities in select Detroit Public Schools where traditional recreation centers are lacking, the targeted redevelopment of the blighted areas (such as the neighborhood near the intersection of Chene and St. Aubin Avenues), and the development of the Paradise Valley project; and Now, Therefore Be It

Resolved, That the Detroit City Council requests P&DD to report on the status of all unspent CDBG funds with the hopes of approving a comprehensive reprogramming of unspent CDBG funds as an alternative source of funding for City Council priorities, including the reopening of the Belle Isle Aquarium, the reopening of select closed recreation centers or the development of alternative recreation

Re: 2009-2010 Community Development Block Grant/Neighborhood Opportunity Fund (CDBG/NOF) Appeals Resolution.

As mandated by the Housing and Urban Development (HUD) Department's regional office, the City of Detroit City Council must include an appeals process into the CDBG/NOF funding process. As a result, your Honorable Body held an Appeals Hearing on Wednesday, May 13, 2009 to specifically provide groups that were not recommended for funding an opportunity to state their case.

Attached for your Honorable Body's consideration is a resolution regarding the Appeals made on May 13, 2009 and confirmed on Monday, May 18, 2009 by City Planning Commission staff.

By All Council Members:

Whereas, Prior to 5:00 p.m. on March 20, 2009, community groups submitted project proposals to be considered for funding for the 2009-2010 Community Development Block Grant/Neighborhood Opportunity Fund (CDBG/NOF) funding year; and

Whereas, On behalf of your Honorable Body, the City Planning Commission and the Planning and Development Department received approximately 331 proposals that were reviewed by the staff of each department using the Joint Threshold Criteria and Selection Criteria; and

Whereas, Upon receipt of the funding recommendations submitted to your Honorable Body by the City Planning Commission a public hearing was held on May 12, 2009 to provide a platform for community organizations to state the purpose for the activities and programs that they sought to fund; and

Whereas, An Appeals Hearing was held on Wednesday, May 13, 2009, by your Honorable Body to allow the community organizations that were not recommended for funding an opportunity to state their case for reconsideration for funding; and

Whereas, Approximately 69 organizations participated in the appeals hearing, which represented 92 proposals; and

Whereas, Upon the review, consideration and confirmation of the submitted appeals, approximately 36 proposals were verified as "ineligible" and 56 proposals were "eligible" for funding but were not recommended because they were listed as "not consistent with City Council funding priorities" or they did not meet the selection criteria; and

Whereas, Of the 56 proposals eligible for funding — 36 were listed as "Not being consistent with City Council's funding priorities", 3 proposals were not recommended for funding because the organizations had multiple activities that were previously recommended for funding, 3 proposals were recommended for funding but appealed for an increase in funding, 14 proposals were not funded because they did not fulfill the selection criteria or they had outstanding contract compliance issues;

Whereas, Of the proposals initially deemed as "ineligible" 2 proposals were mistakenly identified as "ineligible" but were actually "eligible" to be considered for funding; and

Whereas, The week of May 18th, 2009 during City Council deliberations approximately 18 of the 32 community organizations listed as "not being consistent with City Council funding priorities" that appealed were reconsidered and recommended for funding; Therefore Be It

Whereas, On Tuesday, May 26, 2009, the Detroit City Council approved the results of the appeals process for the 2009-2010 CDBG/NOF with the denial of 36 proposals verified as "ineligible" and the inclusion of 18 proposals, identified in the attached table that were reconsidered and recommended for funding.

**THE DETROIT CITY COUNCIL  
2009-2010 FINANCIAL AND  
BUDGETARY PRIORITIES,  
PUBLIC POLICY, PLANNING AND  
ACTION RESOLUTION**

By All Council Members:

Whereas, The Detroit City Council has held hearings with City departments followed by its' own deliberations on the 2009-2010 Budget as prepared by the former Mayor; and

Whereas, This budget deliberation process has been somewhat unusual inasmuch as the previous Mayor presented the Executive Budget currently under consideration during the midst of a Special Election for Mayor; and

Whereas, City Council is required by law to complete its budget deliberations and submit them to the Mayor at this time; and

Whereas, The present Mayor has not had an opportunity for his input in this budget, therefore we anticipate future budget amendments that will more closely reflect his budgetary priorities; and

Whereas, In spite of the change in the Administration, on this day, May 26, 2009, the Detroit City Council managed to adopt a program budget that is based on sound budgetary principles for municipalities, well reasoned financial assumptions, past performances, stated goals and projections for City departments, divisions and agencies, and in consideration of the profound fiscal uncertainties of the current economy and the anticipated revenue reductions from federal and state funding sources; and

Whereas, In light of these factors the Detroit City Council, in adopting this budget, has incorporated the fiscal and public policy priorities outlined below in an effort to provide effective government operations and service delivery to the residents, citizens, institutions and businesses of this city; and

Whereas, The overall reduction in revenue projections for the upcoming fiscal year have necessitated budgetary cuts throughout the budget, City Council recognizes that cuts in necessary programs alone cannot meet the needs of the citizens. Therefore, an effort must be made to seek out additional revenue sources to provide the needed services for our citizens; and

Whereas, The Legislative Branch vows to work with the new Bing Administration to develop a unified, strategic argument designed to convince the Federal Government that urban areas, and particularly Detroit, with the collapse of the manufacturing core of its economy are in dire need of massive federal aid designed to lift the city out of the financial crisis it is suffering by direct infusion of money into the General Fund; and

Whereas, The 311 Call Center, one of the mechanisms recently created to improve service delivery, has consistently failed to live up to its promise and serves merely as a complaint center and the source of much citizen frustration. We urge the Mayor to restructure this agency to ensure that citizen complaints are not only received but acted upon by the appropriate agency in a timely manner and to that end the Council requests that the Call Center be required to submit quarterly reports to this body that reflect those actions; and

Whereas, This Council strongly believes that the residents of this city deserve the protection of a robust Fire Department with a strong Emergency

Medical Services (EMS) Division and the Proposed Mayor's Budget further decimates an already weakened department; we authorize that funding be restored to prevent the proposed layoffs within the EMS Division and restore \$300,000 for the partial funding of the Fireboat; and

Whereas, There is a need for additional firefighters, the Detroit City Council requests that an additional firefighter Training Class be scheduled during the 2009-2020 fiscal year. This Council reaffirms its intention to have city resident so desiring to apply for the position of firefighter and to enhance the likelihood of their selection receive 15 domicile points added to their qualifying score as proscribed by ordinance; and

Whereas, There is a need for additional equipment within the Fire Department for both the firefighters and EMS crews, Council urges the Mayor's Administration to seek funding for this equipment from Federal Stimulus dollars slated for Detroit; and

Whereas, In spite of the fact that many people who benefit from the City Emergency Medical Services are insured or eligible for insurance coverage or well may be otherwise collectible, only thirty-four percent (34%) of all charges for EMS services are being collected by Accumed Billing Inc. and the City Finance Department; and

Whereas, The Council has restored 19 positions to the EMS Division of the Fire Department, thus increasing the revenue generated by the Division. Accordingly Council strongly urges the Mayor to direct Accumed Billing Inc., to adjust the method used to collect payment for EMS services rendered and redouble its efforts to collect all monies which are due and owing the division within the first 90 days after service is provided; and

Whereas, The City has not been collecting from insurance companies for extractions performed by the Fire Department that require the use of the Jaws of Life, it is the desire of City Council that the appropriate parties immediately begin recovery action in such instances; and

Whereas, The Treasury Division of the Finance Department is responsible for the collection of EMS billings that are more than 90 days past due, the City Council urges that the Mayor insist their efforts be focused on capturing these revenues which are so desperately needed in this time of deceased revenues from local taxes and state revenue sharing; and

Whereas, The debt service on the bonds for the Greater Detroit Resource Recovery Facility is scheduled to be paid by June 30, 2009; and

Whereas, In 2008 the City Council passed a resolution which urged a change in the way the City's solid waste is handled

that will be more safe for the residents and the environment; and

Whereas, The City Council recognizes that more time and information is needed before the goals and objectives for handling solid waste can be fully implemented; and

Whereas, It is Council's desire to work in cooperation with the Mayor to reopen the issue of "next steps" within the 2009-2010 budget year. The Council requests the Mayor to provide a budget amendment for the purpose of funding the new model of solid waste management after July 1, 2009 or when the original bond indebtedness for the Resource Recovery Facility incinerator will be paid in full; and

Whereas, The City Council strongly recommends that the Mayor include the following in this budget amendment:

- As resolved by the City Council in 2008, a systematic plan that transforms the Resource Recovery Facility (incinerator) to citywide curbside recycling with the supplemental use of landfills.
- Provide for alternative forms of managing Detroit's solid waste, including source reduction, re-use, recycling, composting and land filling.
- All elements of the City's solid waste management system in the future including costs for all aspects of the system as well as the environmental and public health aspects of source reduction, re-use, recycling, composting, land filling and incineration with energy recovery.

Whereas, The City's lighting system is 100 years old and desperately needs to be upgraded from mercury vapor lamps that are no longer being manufactured, the Council implores the Mayor to seek federal assistance, perhaps by requesting \$200 million in Stimulus funds to assist with the complete overhaul of the Public Lighting system that is central to our efforts to provide safe streets for our citizens; and

Whereas, The Department of Administrative Hearings that was created over the past few years to handle citizen complaints regarding blight and for the adjudication and collection of fines from blight violation tickets which was to support the costs of the Department; and

Whereas, This Council has grave concerns regarding the operation of the Department which has been unable to pay for itself and has become a constant source of complaints by citizens resulting from the heavy fines imposed leading this Honorable Body to remove funding for this Department and return the blight hearings to the 36th District Court. The City Council also calls for an ordinance amendment that will lower the fines charged; and

Whereas, The Historical Museum generated \$75,000 from the recent sale of certain real property that it occupied and managed, yet only \$50,000 of revenue from that sale was returned to the

Department from that sale. The City Council directs that the remaining funds be placed in the Department's budget; and

Whereas, In recognition of the fiscal crisis within the City, the Council has accepted the temporary 10% wage reduction and other operational cuts reflected in the Mayor's proposed budget. However, the remaining cuts to operations were implemented without any consideration as to their central role in the legislative process, therefore Council has restored those positions; and

Whereas, Within the Historic Designation Division the White Book presently includes the job title of Historic Designation Administrative Assistant II, but does not include the junior level title of Historic Designation Administrative Assistant I. The Council wishes to have the White Book amended to reflect the addition of the junior level title; and

Whereas, City Council recommendations relating to the Coleman A. Young Municipal Airport for the 2008-2009 fiscal year have been ignored by the Airport Director. The Council recommends that the budget for this department be approved as submitted and requests the Mayor to require the Airport Director to provide quarterly reports to the Council regarding the operation of the Airport and the efforts to expand airport services and attract new airlines; and

Whereas, The City Council has determined that many of the duties performed by contractual workers hired by the Information & Technology Services Department are capable of being performed by city employees at a time when fiscal restraint must be exercised to the highest degree, therefore, the Department's budget will be reduced accordingly to reflect this belief; and

Whereas, The citizens of Detroit have elected that a charter commission be convened to study and revise the current City Charter, the City Council will include funds in the Budget to provide for the necessary supplies and stipends for those elected to the Commission; and

Whereas, Cable companies are not required by law to pay the Public Education and Government Access (PEG) fee, the Council urges the Mayor, the City lobbyists, state legislators and the Governor to work together to pass legislation that requires cable companies to continue to pay this fee to local municipalities; and

Whereas, The regional tax to support the Detroit Zoo was passed by the state legislature and collection was begun during the 2008-2009 fiscal year. The City Council urges the Mayor to move with all deliberate speed to modify the Memorandum of Understanding between the City and the Zoological Society to eliminate the City subsidy to the Zoo for

security and insurance, if there is no financial need based on an analysis of the impact of the tri-county millage; and

Whereas, Many Detroit residents enjoy the game of golf, the City Council recommends the Recreation Department begin a dialogue with the American Golf Company, current manager of City golf courses, regarding the establishment of a discount greens fee program and a report regarding the discussions submitted to Council by July 1, 2009; and

Whereas, The Detroit City Council is strongly opposed to the development of an Airtropolis in Wayne County which will develop land around the Detroit Metropolitan and Willow Run Airports to the detriment of the development of large tracts of land within the City of Detroit and the Coleman A. Young Municipal Airport, the Council wishes to express its displeasure and entreats the Mayor to initiate discussions with the appropriate leaders within Wayne County to more fully include the City of Detroit in the planning.

Now, Therefore Be It

Resolved, That the 2009-2010 Budget of the Detroit City Council include the following legislative budget priorities, policy and planning actions:

1. That the White Book be revised to include the job title of Historic Designation Administrative Assistant I with the pay range corresponding to that of City Planning Commission Administrative Assistant I.
2. That \$105,000 is added to the 2009-2010 Budget for the Office of the Ombudsman to restore one (1) Assistant Ombudsman III position.
3. That the entire funding for the Department of Administrative Hearings be removed.
4. That \$300,000 is added for the partial funding of the Fireboat.
5. That \$209,700 in revenue be added to the budget from Fire Department extraction with the Jaws of Life.
6. That \$200,000 is added to the Health and Wellness Promotion Department's Budget for the restoration of four (4) animal control officer positions.
7. That \$25,000 is added to the budget of the Historical Museum from the sale of museum property.
8. That a subsidy in the amount of \$850,000 is added to the budget of the Museum of African American History.
9. That \$320,000 is added to the Auditor General to restore four (4) auditor positions.
10. That \$500,000 be shifted in the DPW Street Fund — Street Maintenance and be added to the Non-Park Ground Maintenance cost center for tree trimming in the General Services Department.
11. That \$1,500,000 in revenue be added to the Budget from collectible EMS fees.

12. That \$2,066,484 in recovery revenues be added to the Budget. Such fee to include, but not be limited to, items such as monies received from Medicare Part D payments and fiscal stabilization bonds.

13. That \$2,605,000 be added to the Fire Department budget to restore 19 positions in Emergency Medical Services.

14. That \$1,000,000 be reduced from the Information Technology Services (ITS) appropriation for contractual services.

15. That \$250,000 be added to the Non-Departmental appropriation for the Charter Commission.

Be It Further

Be It Finally

Resolved, That the City Clerk is directed to provide a copy of this resolution to the Mayor, the Finance Director, the Budget Director, Wayne County Executive Robert Ficano and all agencies, departments and divisions of the City of Detroit.

Adopted as follows:

Yeas — Council Members S. Cockrel, Collins, Jones, Kenyatta, Reeves, Tinsley-Talabi, Watson, Conyers, and President K. Cockrel, Jr. — 9.

Nays — None.

Council Member S. Cockrel, on behalf of Council President K. Cockrel, Jr., moved for adoption of the following resolution.

**RESOLUTION**

By Council Member S. Cockrel:

Whereas, Buildings are responsible for 40% of the total energy consumption, 30% of total Carbon Dioxide production, 40% of ozone depletion, 35% of municipal solid waste, 30% of wood and raw materials use, 25% of water usage, 50% of natural gas usage, and 70% of electricity generated in the United States; and

Whereas, The Planning, design, construction, and operation of Detroit's buildings, facilities and leaseholds should have a significant positive effect on the City's sustainability. Detroit shall promote resource-efficient design of new City facilities in order to increase their efficiency, save financial resources, and reduce the negative environmental impact of demolition, construction, and operation of buildings; and

Whereas, Detroit's design and building decisions impact the prudent use of the City's energy and water supplies, the cost of remediating hazardous materials conditions, the health and productivity of its employees, transportation choices of City employees and visitors of City facilities, as well as the rate at which the City's landfill capacity is depleted; and

Whereas, Many federal, state, and municipal governmental bodies have recognized the positive role they can play in helping to establish a market for environmentally-preferable design and construction materials by promulgating green building ordinances and guidelines; and

Whereas, Thoughtful planning and design decisions made by the City in the construction and remodeling of its facilities and leaseholds can result in significant cost savings to the City over the life of such facilities and leaseholds; and

Whereas, Buildings with good overall environmental quality, including effective ventilation, good indoor air quality, proper lighting, and appropriate acoustics, can increase worker productivity by six to 16 percent; and

Whereas, The United States Green Building Council (USGBC), a non-profit, nationally recognized association with membership representing all segments of the building industry, including architects, manufacturers, government agencies, and environmentalists, has created LEED, a green building rating system that provides specific principles and practices, some mandatory but the majority discretionary, that may be applied during the design, construction, and operation phases, which enable the building to be awarded points from reaching preset standards of environmental efficiency so that it may achieve LEED certification from the USGBC as a "green" building; and

Whereas, LEED is recognized nationwide by public and private sectors alike as a credible and viable guide for realizing the goal of a sustainable, energy efficient building that achieves significant cost savings over its lifespan; and

Whereas, Many major cities have adopted ordinances that require their government buildings to meet LEED standards for certification; and

Whereas, In adopting the requirements set forth in this legislation, the Detroit City Council recognizes that the substantial long-term economic, health and environmental benefits to the citizens of Detroit realized through the use of green design strategies justifies the possibility of initial increased capital expenditures;

Now, Therefore Be It

Resolved, That Detroit City Council re-establish a City Council Green Task Force to research sustainability principles and practices to establish Detroit as a leader of energy and sustainability through

improved city operations, special programs and events, regulatory tools and incentives, and education and outreach.

Be It Further

Resolved, That the Detroit City Council directs the City Clerk to send a copy of this approved resolution to the Mayor of Detroit, Dave Bing; the Governor of Michigan, Jennifer Granholm; U.S. Senator, Carl Levin; U.S. Senator, Debbie Stabenow; U.S. Representative, John Conyers; U.S. Representative, Carolyn Cheeks Kilpatrick.

Nays — None.

The Research and Analysis Division

(RAD) was requested to submit a resolution regarding the above referenced matter. The proposed resolution is attached for your consideration.

Respectfully submitted,  
DAVID D. WHITAKER

By Council Member Watson:

Whereas, The economic downturn is having a critical impact on everyday Americans who are struggling to maintain or find jobs in an increasingly difficult environment; and

Whereas, Michigan, particularly the City of Detroit, in a dire situation and has been especially sensitive to the ongoing economic downturn. In addition to residential foreclosures in Metro Detroit, Michigan has led the nation in unemployment, contributing to a protracted economic recession in the State; and

Whereas, These same Detroiters that are struggling through the recession are also faced with rising tuition costs and other financial barriers to education; and

Whereas, These societal challenges are threatening the American dream, a phrase coined by historian and author James Truslow Adams in his 1931 book *Epic of America*, as "that dream of a land in which life should be better and richer and fuller for everyone, with opportunity for each according to ability or achievement." The goals of employment, education, and freedom are fundamental to the philosophy on which the United States was founded; and

Whereas, In support of the American dream and reinvestment in our communities a coalition is advancing a platform of: American manufacturing, home ownership, education and job training to renew and revitalize the American way of life; and

Whereas, Supporters and organizers of this effort to restore Michigan's economic vitality and reinvigorate the American dream include the Mayor of Lansing Virg Bernero, Rev. Jesse Jackson of Rainbow PUSH Coalition, C. Alexander Bullock of Greenation, as well as the Council of Baptist Pastors of Detroit and Vicinity, Michigan State Conference NAACP, Rainbow PUSH Detroit, Metropolitan Organizing Strategy Enabling Strength, Greater Marion Chapel Baptist Church, Peoples Missionary Baptist Church, and Greater Mt. Tabor Baptist Church; and

Whereas, The Detroit City Council has a vested interest in preserving and expanding employment, education and homeownership opportunities for residents of the City and doing all things practicable to retain and grow businesses and tax revenues for the City;

Now Therefore Be It

Resolved, That the Detroit City Council supports the "Save the American Dream" Rally being held on June 1, 2009 at 12

noon on the steps of the Michigan State Capital in Lansing, Michigan;

And Be It Further

Resolved, That the Detroit City Council hereby strongly urges willing citizens to rise up in support of the effort to reinvest in America and save the American dream; And Be It Finally

Resolved, That a copy of this resolution be sent to Virg Bernero, the Mayor of Lansing and the City of Detroit Mayor's Office.

Honorable City Council:

Re: AMENDED Correction of Errors to the 2009-2010 Mayor's Budget (Risk Management Fund).

After further review of the 2009-2010 Budget submitted to City Council on April 13, 2009, errors and amendments have been discovered which should be corrected. There are two categories of corrections. First, there are "substantive" errors, which must be corrected as an amendment to the Recommended Budget. Second, there may have been typographic and/or data entry errors, which do not affect appropriation totals or budget balancing. The "substantive" corrections will be identified with (\*), and will be addressed in the attached resolution.

This letter specifically relates to an error with the Risk Management Appropriation and associated changes to balance the budget.

**Non-Departmental (35)\***

- 2007 UASI
  - Grant period is July 1, 2007 to March 31, 2010 however we did not get Grant Agreement from the State until October, 2008

Therefore we respectfully request that your Honorable Body amend FY 2009-10 Mayor's Proposed Budget to reflect this information.

This change will have no impact on the General Fund; however, the Agency's Appropriation and Revenue Total will increase by \$1.0 million.

**THE DETROIT CITY COUNCIL  
2009-2010 FINANCIAL AND BUDGETARY PRIORITIES,  
PUBLIC POLICY, PLANNING AND ACTION RESOLUTION**

By All Council Members:

Whereas, The Detroit City Council has held hearings with City departments followed by its' own deliberations on the 2009-2010 Budget as prepared by the former Mayor; and

Whereas, This budget deliberation process has been somewhat unusual inasmuch as the previous Mayor presented the Executive Budget currently under consideration during the midst of a Special Election for Mayor; and

Whereas, City Council is required by law to complete its budget deliberations and submit them to the Mayor at this time; and

Whereas, The present Mayor has not had an opportunity for his input in this budget, therefore we anticipate future budget amendments that will more closely reflect his budgetary priorities; and

Whereas, In spite of the change in the Administration, on this day, May 26, 2009, the Detroit City Council managed to adopt a program budget that is based on sound budgetary principles for municipalities, well reasoned financial assumptions, past performances, stated goals and projections for City departments, divisions and agencies, and in consideration of the profound fiscal uncertainties of the current economy and the anticipated revenue reductions from federal and state funding sources; and

Whereas, In light of these factors the Detroit City Council, in adopting this budget, has incorporated the fiscal and public policy priorities outlined below in an effort to provide effective government operations and service delivery to the residents, citizens, institutions and businesses of this city; and

Whereas, The overall reduction in revenue projections for the upcoming fiscal year have necessitated budgetary cuts throughout the budget, City Council recognizes that cuts in necessary programs alone cannot meet the needs of the citizens. Therefore, an effort must be made to seek out additional revenue sources to provide the needed services for our citizens; and

Whereas, The Legislative Branch vows to work with the new Bing Administration to develop a unified, strategic argument designed to convince the Federal Government that urban areas, and particularly Detroit, with the collapse of the manufacturing core of its economy are in dire need of massive federal aid designed to lift the city out of the financial crisis it is suffering by direct infusion of money into the General Fund; and

Whereas, The 311 Call Center, one of the mechanisms recently created to improve service delivery, has consistently failed to live up to its promise and serves merely as a complaint center and the source of much citizen frustration. We urge the Mayor to restructure this agency to ensure that citizen complaints are not only received but acted upon by the appropriate agency in a timely manner and to that end the Council requests that the Call Center be required to submit quarterly reports to this body that reflect those actions; and

Whereas, This Council strongly believes that the residents of this city deserve the protection of a robust Fire Department with a strong Emergency Medical Services (EMS) Division and the Proposed Mayor's Budget further decimates an already weakened department; we authorize that funding be restored to prevent the proposed layoffs within the EMS Division and restore \$300,000 for the partial funding of the Fireboat; and

Whereas, There is a need for additional firefighters, the Detroit City Council requests that an additional Firefighter Training Class be scheduled during the 2009-2010 fiscal year. This Council reaffirms its intention to have city residents so desiring to apply for the position of firefighter and to enhance the likelihood of their selection receive 15 domicile points added to their qualifying score as proscribed by ordinance; and

Whereas, There is a need for additional equipment within the Fire Department for both the firefighters and EMS crews, Council urges the Mayor's Administration to seek funding for this equipment from Federal Stimulus dollars slated for Detroit; and

Whereas, In spite of the fact that many people who benefit from the City Emergency Medical Services are insured or eligible for insurance coverage or well may be otherwise collectible, only thirty-four percent (34%) of all charges for EMS services are being collected by Accumed Billing Inc. and the City Finance Department; and

Whereas, The Council has restored 19 positions to the EMS Division of the Fire Department, thus increasing the revenue generated by the Division. Accordingly Council strongly urges the Mayor to direct Accumed Billing Inc., to adjust the method used to collect payment for EMS services rendered and redouble its efforts to collect all monies which are due and owing the division within the first 90 days after service is provided; and

Whereas, The Treasury Division of the Finance Department is responsible for the collection of EMS billings that are more than 90 days past due, the City Council urges that the Mayor insist their efforts be focused on capturing these revenues which are so desperately needed in this time of decreased revenues from local taxes and state revenue sharing; and

Whereas, The City has not been collecting from insurance companies for extractions performed by the Fire Department that require the use of the Jaws of Life, it is the desire of City Council that the appropriate parties immediately begin recovery action in such instances; and

Whereas, The debt service on the bonds for the Greater Detroit Resource Recovery Facility is scheduled to be paid by June 30, 2009; and

Whereas, In 2008 the City Council passed a resolution which urged a change in the way the City's solid waste is handled that will be more safe for the residents and the environment; and

Whereas, The City Council recognizes that more time and information is needed before the goals and objectives for handling solid waste can be fully implemented; and

Whereas, It is Council's desire to work in cooperation the Mayor to reopen the issue of "next steps" within the 2009-2010 budget year. The Council requests the Mayor to provide a budget amendment for the purpose of funding the new model of solid waste management after July 1, 2009 or when the original bond indebtedness for the Resource Recovery Facility incinerator will be paid in full; and

Whereas, The City Council strongly recommends that the Mayor include the following in this budget amendment:

- As resolved by the City Council in 2008, a systematic plan that transforms the Resource Recovery Facility (incinerator) to citywide curbside recycling with the supplemental use of landfills.

- Provide for alternative forms of managing Detroit's solid waste, including source reduction, re-use, recycling, composting and land filling.

- All elements of the City's solid waste management system in the future including costs for all aspects of the system as well as the environmental and public health aspects of source reduction, re-use, recycling, composting, land filling and incineration with energy recovery.

Whereas, GDRRA has stated that they will not announce which bidder(s) will be awarded the contract(s) for solid waste management in 2009-10 until June 17, 2009, and Council is required to vote on the former Mayor's Proposed Budget by no later than May 26, Council strongly urges the Mayor to revise the budget to reflect the actual costs of the services to be provided by the chosen bidder(s), if they are less than the amounts in the former Mayor's proposed Budget; and

Whereas, The City's lighting system is 100 years old and desperately needs to be upgraded from mercury vapor lamps that are no longer being manufactured, the Council implores the Mayor to seek federal assistance, perhaps by requesting \$200 million in Stimulus funds to assist with the complete overhaul of the Public Lighting system that is central to our efforts to provide safe streets for our citizens; and

Whereas, The Department of Administrative Hearings that was created over the past few years to handle citizen complaints regarding blight and for the adjudication and collection of fines from blight violation tickets which was to support the costs of the Department; and

Whereas, This Council has grave concerns regarding the operation of the Department which has been unable to pay for itself and has become a constant source of complaints by citizens resulting from the heavy fines imposed leading this Honorable Body to remove funding for this Department and return the blight hearings to the 36th District Court. The City Council also calls for an ordinance amendment that will lower the fines charged; and

Whereas, The Historical Museum generated \$75,000 from the recent sale of certain real property that it occupied and managed, yet only \$50,000 of revenue from that sale was returned to the Department from that sale. The City Council directs that the remaining funds be placed in the Department's budget; and

Whereas, In recognition of the fiscal crisis within the City, the Council has accepted the temporary 10% wage reduction and other operational cuts reflected in the Mayor's proposed budget. However, the remaining cuts to operations were implemented without any consideration as to their central role in the legislative process, therefore Council has restored those positions; and

Whereas, Within the Historic Designation Division the White Book presently includes the job title of Historic Designation Administrative Assistant II, but does not include the junior level title of Historic Designation Administrative Assistant I. The Council wishes to have the White Book amended to reflect the addition of the junior level title; and

Whereas, City Council recommendations relating to the Coleman A. Young Municipal Airport for the 2008-2009 fiscal year have been ignored by the Airport Director. The Council recommends that the budget for this department be approved as submitted and requests the Mayor to require the Airport Director to provide quarterly reports to the Council regarding the operation of the Airport and the efforts to expand airport services and attract new airlines; and

Whereas, The City Council has determined that many of the duties performed by contractual workers hired by the Information & Technology Services Department are

capable of being performed by city employees at a time when fiscal restraint must be exercised to the highest degree, therefore, the Department's budget will be reduced accordingly to reflect this belief; and

Whereas, The citizens of Detroit have elected that a charter commission be convened to study and revise the current City Charter, the City Council will include funds in the Budget to provide for the necessary supplies and stipends for those elected to the Commission; and

Whereas, Cable companies are not required by law to pay the Public Education and Government Access (PEG) fee, the Council urges the Mayor, the City lobbyists, state legislators and the Governor to work together to pass legislation that requires cable companies to continue to pay this fee to local municipalities; and

Whereas, The regional tax to support the Detroit Zoo was passed by the state legislature and collection was begun during the 2008-2009 fiscal year. The City Council urges the Mayor to move with all deliberate speed to modify the Memorandum of Understanding between the City and the Zoological Society to eliminate the City subsidy to the Zoo for security and insurance, if there is no financial need based on an analysis of the impact of the tri-county millage; and

Whereas, Many Detroit residents enjoy the game of golf, the City Council recommends the Recreation Department begin a dialogue with the American Golf Company, current manager of City golf courses, regarding the establishment of a discount greens fee program and a report regarding the discussions submitted to Council by July 1, 2009; and

Whereas, The Detroit City Council is strongly opposed to the development of an Airtropolis in Wayne County which will develop land around the Detroit Metropolitan and Willow Run Airports to the detriment of the development of large tracts of land within the City of Detroit and the Coleman A. Young Municipal Airport, the Council wishes to express its displeasure and entreats the Mayor to initiate discussions with the appropriate leaders within Wayne County to more fully include the City of Detroit in the planning.

Now, Therefore Be It

Resolved, That the 2009-2010 Budget of the Detroit City Council include the following legislative budget priorities, policy and planning actions:

1. That the City Council adopts Schedule A, City Council changes to the Community Development Block Grant/NOF funds.
2. That the Detroit City Council adopts Schedule B, City Council changes to the 2009-2010 Budget.
3. That the White Book be revised to include the job title of Historic Designation Administrative Assistant I with the pay range corresponding to that of City Planning Commission Administrative Assistant I.

5. That the entire funding for the Department of Administrative Hearings be removed.
6. That \$300,000 is added for the partial funding of the Fireboat.
7. That \$209,700 in revenue be added to the budget from Fire Department extraction with the Jaws of Life.
8. That \$200,000 is added to the Health and Wellness Promotion Department's Budget for the restoration of four (4) animal control officer positions.
9. That \$25,000 is added to the budget of the Historical Museum from the sale of museum property.

11. That \$320,000 is added to the Auditor General to restore four (4) auditor positions.

13. That \$1,500,000 in revenue be added to the Budget from collectible EMS fees.
14. That \$2,066,484 in recovery revenues be added to the Budget. Such fee to include, but not be limited to, items such as monies received from Medicare Part D payments and fiscal stabilization bonds.
15. That \$2,605,000 be added to the Fire Department budget to restore 19 positions in Emergency Medical Services.
16. That \$1,000,000 be reduced from the Information Technology Services (ITS) appropriation for contractual services.
17. That \$250,000 be added to the Non-Departmental appropriation for the Charter Commission.
18. That all Senior Advocacy Programming be moved from the Mayor's Office to the Department of Human Services.

Be It Further

Resolved, That the City Council urges the Mayor to provide funding for a forensic audit of the Buildings, Safety and Engineering Department; and

Be It Further

**RESOLUTION IN SUPPORT OF  
AFSCME COUNCIL 25 LOCALS 1220  
AND 2394**

By COUNCIL MEMBER JONES:

WHEREAS, Since the opening of the City-County Building (now known as the Coleman A. Young Municipal Center or CAYMC) in 1954, the City of Detroit and the Detroit-Wayne Joint Building Authority (DWJBA), as owner of the building, have agreed by resolution that building maintenance services would be provided by unionized personnel from the City's Department of Public Works (DPW); and

WHEREAS, In 2005, the DWJBA first issued a request for proposals for replacement custodial services for CAYMC but later withdrew that RFP following settlement of legal action filed by the union; and

WHEREAS, In 2007, the DWJBA again issued an RFP for custodial services and has since entered into a contract with Metro Detroit, LLC, for services replacing those currently provided by DPW workers, to begin in June, 2009; and

WHEREAS, AFSCME filed an unfair labor practice charge with the Michigan Employment Relations Commission (MERC) as well as a complaint in Wayne County Circuit Court seeking to enjoin the DWJBA from replacing the workers. The legal actions were filed against both the City of Detroit and the DWJBA; and

WHEREAS, In March, 2009, the MERC Administrative Law Judge issued an opinion ruling against the union on all of its claims and finding that the DWJBA owed no duty to the union. As a result, the Circuit Court lifted the injunction and opined that the DWJBA is not obligated to contract with the City for maintenance services — paving the way for replacement of the DPW custodial workers assigned to CAYMC, by employees of Metro Detroit, LLC; and

WHEREAS, The Detroit City Council desires to support, assist, and protect the DPW workers by whatever means are available including consideration of intervening in one or both of the legal proceedings. However, the City is already a party to the proceedings (having been named by the union as an adverse party), and the City Council lacks legal standing in these matters. Further, the Charter of the City of Detroit, section 6-508, designates the labor relations division as the entity with authority to act for the City, under the direction of the Mayor, thus precluding the City Council from intervening in the administration of collective bargaining contracts; and

WHEREAS, The interests of the employees have been ably and aggressively represented by the union's attorneys, and the union's counsel remain the appropriate advocates for the displaced employees; and

WHEREAS, Many of the displaced

DPW workers have been loyal employees at CAYMC and with the City for in excess of ten, twenty, and even thirty years, and it is City Council's desire that they be retained, but at the very least that their jobs be protected; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly urges the DPW, Human Resources, Labor Relations and any other relevant City department or entity to make every possible effort to reassign the affected employees.

**REVISED**

**Introduction**

To the residents of the City of Detroit, Honorable Colleagues, and Mayor Dave Bing:

As President of the Detroit City Council, it is a distinct privilege to deliver the legislative Budget Address on behalf of my colleagues and our individual and division staffs. What makes this privilege particularly distinctive this year is that I was unsure, until a few weeks ago, as to whether I would be delivering it at all. As a consequence of circumstances that none of us could have foreseen, I was required to serve as Interim Mayor for the City of Detroit for a period of nearly eight months. While my tenure in that office was brief, I believe that it will ultimately be beneficial to this esteemed body as well as to the citizens of the City of Detroit because of perspective that I gained and the lessons that I learned about leadership. Just as the experiences, concerns, and chal-

lenges I confronted as a member of this honorable body informed the process by which I formulated parts of this budget as an Executive — for example, recognizing that no real progress could be made in terms of stabilizing our budgetary situation without an accurate estimate of the true budget deficit we confronted — so my Executive experience has enhanced my vision about the discipline and fiscal controls needed to place the City of Detroit back on a sound and firm financial footing.

The budgetary context in which we find ourselves this year is especially challenging, not just for Detroit, but also, for the entire nation. By all accounts our economy has taken a drastic plummet and signs of an economic turnaround are not yet evident. It has been said that when the nation “gets a cold, Detroit gets Pneumonia,” and our present economic situation is on life support. Our automobile industry is on life support and thousands of families supported by auto industry jobs, many of whom are Detroit residents, are in dire straits because the factories and companies that have supported our economy are either closing or moving abroad. These are indeed, desperate times; but desperate times demand intelligent, grounded, and innovative leadership that rejects despair and panic.

Moreover, it is essential at this moment that our actions be grounded in a sobriety that reflects the difficulty of the choices we confront combined with the willful determination to make the sacrifices necessary to ensure our solvency, autonomy, and survival. This is the spirit that this honorable body brought to our deliberations about the budget, and let me express how proud and pleased I was to be able to work with you in that regard. We had to eliminate excess expenditures without sacrificing the services that our citizens expect and deserve. We also needed to make amendments to the recommendations of the Executive in order to maintain vital public services. At times, it was a daunting and difficult task, but through hard and thoughtful work, we have developed a balanced budget that is aimed at restoring fiscal stability and structural balance while maintaining essential public services.

With that being said, this honorable body has largely accepted the fundamental framework of restoring structural fiscal balance put forward by the Executive in April of this year. Moreover, while the City Council has restored a few of the budget reductions proposed by the Executive office, it has sought to remain disciplined in its approach by offsetting these changes with proposed reductions and amendments of its own.

#### **Restoring Fiscal Balance: Reducing Deficit Spending Without Sacrificing Essential Services**

The Executive Budget called for the elimination of 826 budgeted positions, including 334 layoffs and the elimination of 509 positions that were vacant. The Executive Budget also designated that none of these layoffs would come from Police or Fire personnel, although many of the vacant positions in these departments would be eliminated. These staff reductions were projected to save the City of Detroit \$42 million, inclusive of a \$2 million dollar decrease in the Mayor's budget. That decrease in the Mayor's Office budget was ordered by the present Council President during his term as Interim Executive, because he sought to refute the recent history of the Executive Branch asking sacrifices from our workers and residents without demonstrating any willingness to make sacrifices or even exercise restraint in that regard. Real leadership starts demanding first of oneself, the sacrifices that will be requested of others — anything less is a hypocrisy too reminiscent of the corporate greed mentality that has been rejected by the American people and President Barack Obama.

As a means of reducing the impact of layoffs on municipal service levels, the Council President during his tenure as Executive put forward an incentive for employees with 30 years or more of service to the City of Detroit. This retirement incentive allowed those choosing within a 30-day period to receive full retirement benefits with an enhanced sick bank payout. It is not known at this time whether or not the new Mayor will continue with this plan or remove the option. Hence, the City Council must proceed on the assumption that the staff reductions proposed by this Council President during his term as Interim Mayor will remain largely intact and must be maintained in order to assure fiscal balance. As such, the City Council has made only one significant amendment that restores of positions to city government. Specifically, the Detroit City Council has authorized the restoration of all layoffs in the city's Emergency Medical Services (EMS) department. This authorization will amend the Executive's recommendation to add approximately \$2.6 million to the budget. The restoration of these proposed layoffs constitute a 10% increase in the EMS labor force. The City Council has made this recommendation because of concerns about response time for EMS vehicles across the city of Detroit and to maximize public safety for its residents and visitors. It should be noted however, that in the spirit of fiscal discipline, this honorable legislative body did not restore any vacant positions to EMS, eliminating more than \$3.4 million dollars in fiscal year budgetary cost. The City Council is also recommending that the Executive Branch become more aggressive about collections activities. During the years of 2006-2008, \$86 million was billed by EMS, but only \$29.3 million (34% of total billings) was collected by EMS. The cost to run an EMS program is approximately \$25 million dollars per

year, so the City's mismanagement of the collections process is creating a sustainability problem when substantial opportunity exists to enhance the viability of these services.

Concurrent with this desire to maintain and enhance public safety as a primary service to the residents of the City of Detroit, the Detroit City Council has also authorized an amendment to restore \$300,000 of funding for the operation of the Detroit Fire Department's Fireboat and \$200,000 to restore positions for 4 Animal Control Officers. This honorable body believes, with all due respect to the Executive Branch, these services to be essential to welfare and protection of citizens in the City of Detroit. Our city has experienced a serious problem with serious injuries and a reported death during the past year as a result of packs of stray dogs roaming through our neighborhoods and streets. We must ensure the safety of our families and especially, the city's children, so they are not harmed or maimed by dangerous or rabid animals.

Moreover, in an age where terrorism and Homeland Security are purportedly priorities, the need to focus on the maintenance of emergency response capacity among first responders is often overlooked. Detroit is a maritime city whose docks, warehouses and logistics terminals support billions of dollars in imported and exported goods each year as well as thousands of jobs for residents of the city and the region. These Detroit River-based facilities are vital to the survival of our local economy and have been one of the few economic sectors to experience growth over the past ten years. But these facilities might make an inviting target for those who do not respect our way of life or the value of life, period. This honorable body therefore, believes it essential to support fireboat services for the Detroit Fire Department in order to maintain first responder capabilities on our vital economic waterway.

This City Council also believes that the cultural "capital" of the City of Detroit remains an asset worth sustaining and maintaining for future generations. Contrary to the perceptions outside of this region, the City of Detroit contains and support some of the most renowned and impressive cultural institutions in the nation. One of these globally respected assets is the Charles Wright Museum of African American History (MAAH). The MAAH has been transformed from a "cultural startup" into a "destination district" for the residents and visitors from the region and indeed, the global village. While the City of Detroit has been able to enter into governance agreements that created quasi-public entities to manage and help fund certain cultural institutions, the MAAH remains a City governed entity whose survival is dependent in the short-term on municipal funding. While some might think the continued funding of the MAAH is discretionary, the city's majority African American residents whose historical tapestry is inexorably woven within its cultural lineage might disagree, especially since no soundly structured proposals for sustainable funding and governance arrangements have been offered at present.

In keeping with our responsibility to maintain this legacy for the people of Detroit and the historical stewardship of Dr. Charles Wright, this honorable body has authorized an \$850,000 increase in the Executive Branch recommendation for the MAAH. Furthermore, lest this commitment to the cultural legacy be misconstrued as being merely ethnically grounded, this honorable body also has authorized a restoration of the subsidy for the Historical Museum and Society of the City of Detroit. While this restoration is relatively modest in scope (\$25,000), it is reflective of our optimism that just as Detroit's legacy of industrial power, engineering excellence, artistic brilliance, and cultural prominence has been a beacon of hope and prosperity for working people in the past, so it future shall be equally celebrated as what Copeland and Rivera might have characterized as "fanfare for the common man."

This honorable body however, in its recommendations to the Executive Branch has not only made amendments that reflect a desire to maintain or sustain public expenditures, but also to curtail and appropriately restrain them. One of the critical issues identified by City Council is the necessity to focus on core services. As such, the majority of City Council has made the difficult decision to eliminate all funding for the Department of Administrative Hearings, and recommended shifting those code enforcement violations to 36th District Court. One of the most important ideas that this City Council has continually stressed to the Executive Branch is the necessity of disciplining the process of public contracting by city departments. The City of Detroit contracts for hundreds of millions of dollars of services for year, yet, the necessity of ensuring that these contracts serve the best interest of citizens and taxpayers has been lacking in terms of both focus and consistency. During his tenure as Interim Mayor, this Council President created and installed an Executive Policy and Procurement Integration Committee (EPIC) of experts in contracting practice from across the public, private, and non-profit sectors in order to review and re-engineer the City's public contracting processes. The purpose of this re-engineering effort was to ensure that the aforementioned processes are consistent with "best practice" standards as well as the values of transparency, accountability, consistency and fairness in public procurement. I respectfully urge my colleagues to invite this panel to share with you in the near future some of its observations about how the contracting process in the City of Detroit can be improved as well as its preliminary recommendations. As the City of Detroit moves toward increasing its operational efficiency

and the maximization of its tax dollars, it must be recognized that creating savings in its procurement and contracting practices is a critical tool for getting the most out of our public tax dollars.

The other significant recommendation that has been continually offered by Council is the need to eliminate unnecessary private contracts. This honorable Council's wisdom was one of the reasons that I made it a priority to investigate and eliminate \$2 million dollars in financial services contracts that were predicated upon political associations rather than the best interests of our citizens and taxpayers. This City Council intends to continue to send a message that the City of Detroit needs to invest more in building the capacity of its workforce, and less in hiring private contractors to provide services that are non-essential or too often poorly monitored relative to their cost-benefit analysis. As such, this honorable body has authorized a \$1,000,000 reduction in contractual services for the ITS department.

In addition to the aforementioned management deficits in collecting EMS fees, the City of Detroit continues to fail to charge adequate amounts, if at all, for vital emergency services that it provides as a public service. In many respects, this lack of recognition of the value of public services is as troublesome as the lack of oversight that presently governs public contracting. The City's Emergency Medical Service units are often called in situations that are not emergent in nature. While this honorable legislative body does not want to constrain in any way the use of EMS for legitimate emergencies, the value of the "life-saving" services rendered as well as the availability of services would be augmented by an increase in EMS fees. The medical equipment, supplies, facilities and vehicles needed to run an effective EMS service are a considerable and increasing expense to the City of Detroit. Moreover, the accreditation and training expenses required to keep EMS operations consistent with "best practice" standards are equally significant. As such, the City Council recommends to the Executive Branch that EMS fees be increased in the coming budget year by \$1.5 million dollars.

There are also emergency services that the City of Detroit delivers to residents and non-residents alike in the time of greatest need, but for which it receives no compensation at the present time. Many citizens have no doubt heard of our brave first responders extracting injured people from dangerous situations with the "jaws of life," however, the City of Detroit fails to charge insurers for these vital services. This honorable body recommends to the Executive Branch therefore, that the City of Detroit should begin to charge insurance companies for the extraction services, and has introduced a budgeted revenue line item based upon utilization patterns during the prior year of \$207,000.

With regard to prospective revenues from government operations that the City of Detroit is presently collecting, but not budgeting, there is the category of recovery revenue. Recovery revenue is a standard allotment that is rightly utilized as a "buffer" for budget, especially to offset unanticipated expenses or revenue shortfalls. While this venerable body would never seek to utilize all or most of this recovery revenue in its budgetary recommendation for the rationale articulated previously, it would not be irresponsible to utilize a small portion of this revenue to support the restored funding for vital public safety services. The Medicare Part D revenues that are received by the City of Detroit have never been budgeted, but are a constant and fairly stable source of anticipated revenues. In order to bring the City Council's Budget amendments into a disciplined balance, and moreover, support the public safety needs of our residents, we are recommending an increase in Recovery Revenues from this source of \$2.067 million.

#### **Accumulated Deficit: Lack of Clarity About the Process of Resolution**

There is a second component to the City of Detroit's budget challenges, and that is the accumulated deficit left over from the Administration of Mayor Kwame M. Kilpatrick — a deficit that remained largely concealed until this Council President took office as Interim Mayor and hired the former Auditor General Joseph Harris as CFO. CFO Harris calculated the accumulated budget deficit as being approximately \$150 million dollars by the end of June 30, 2008, and amount that has been confirmed by the City Council Fiscal Office. Under the auspices of the Interim Mayor, the Executive Branch proposed that the City's accumulated deficit be addressed by using the securitization of revenue streams from three City assets: (1) the Detroit-Windsor Tunnel; (2) the Municipal Parking Department; and the (3) the Public Lighting Department.

One of the concerns expressed by this Council in prior years was the utilization of gimmicks, "if come when's" to utilize the appropriate vernacular, by the Kilpatrick Administration in order to resolve the city's structural budget deficit. This honorable body was particularly concerned about the utilization of one-time sales of City assets that once completed, could never be repeated. In fundamental budgetary terms, once an asset is sold to fill a structural budget gap, the asset is lost, and its value cannot be possibly be utilized to fill that or any other budget shortfall. It is imprudent therefore, to employ the sale or securitization of monetary assets in order to fill a structural, cyclical budget gap. The securitization of revenue streams does not repeat this budgetary policy error since it is targeted at the accumulated deficit, which is neither cyclical, nor structural in nature.

There was however, a secondary concern about the utilization of asset sales or secu-

ritization as a strategy expressed by City Council in the past, namely, the lack of specificity and documentation with regard to the proposals offered. The securitization proposal to eliminate the accumulated deficit did provide this venerable body with evidence of the effectiveness of this strategy in other major cities to raise revenues, including municipal parking revenue in the City of Chicago. However, the estimates offered by the Executive Branch of raising nearly \$275 million dollars to address a total accumulated budget deficit of \$280 million dollars by the end of fiscal year 2009 appear to be premature at best. The City Council Fiscal Office has described the necessary process steps that are required before a more accurate assessment of the accumulated deficit elimination potential of this strategy is evaluated. These include: (1) hiring consultants to complete financial, legal, and feasibility studies of securitization; (2) issuances of RFP to evaluate the market for such an offering, and finally, (3) selection and implementation of the most financially beneficial proposals to the City of Detroit. In the present financial climate, it is difficult to evaluate whether the response of the marketplace in terms of investment value or the level of capital raised through these securitizations will match expectations. However, it should be noted that since these kind of agreements are accepted as a tool in the financial marketplace, there is a significant potential for raising a significant amount of capital through these deals to payoff the accumulated deficit, and that without such an arrangement, the City of Detroit will likely have to resort to short-term borrowing or fiscal stabilization bonds in order to finance its operations.

One other serious concern is that the incoming Administration of Mayor Bing has given no indication of support for this approach. If Mayor Bing does not believe that this approach is either prudent or fruitful, the Executive Branch will be left with a series of choices that will be unpalatable at best, and intractable at worst. To put it bluntly, eliminating this level of accumulated deficit in the current fiscal year would require the elimination of whole departments and large numbers of city employees with a devastating impact upon quality of life in the City of Detroit. This honorable Council would not view such draconian approaches as being in the interest of the residents of the City of Detroit, its employees, or its future, in absence of the consideration of other more prudent and reasonable alternatives.

#### **Economic Stimulus Package Impact on Budget Deficit Reduction Strategy**

The federal economic stimulus funds from the American Recovery and Reinvestment Act of 2009 (ARRA) will be a welcome addition to the City's operations; but it is not and cannot be a part of our budget deficit elimination strategy. It would be inappropriate for us to rely on stimulus dollars to reduce our deficit this fiscal year or in the future. While we welcome the opportunity to receive Recovery Act dollars, we know that these funds will not solve all of Detroit's economic problems. The funds can only be used to execute a limited number of the shovel ready, capital projects we identified a few months ago while I served as Interim Mayor. During that tenure, more than \$3 billion worth of projects that could create an estimated 300,000 infrastructure jobs for Detroiters were identified. However, as any prudent student of the appropriations process will recognize, the gap in terms of both dollars and projects between appropriations proposals proposed and those funded is usually substantial, and while we are hopeful, we must also be realistic. Any stimulus funding received however, will create employment opportunities for residents of the City of Detroit and wider region, and the income tax collections from these jobs will create a positive, short-term fiscal impact for the City of Detroit. In addition, companies awarded contracts via Recovery Act dollars will have to pay the City business taxes creating an additional temporary revenue stream. These temporary increases in revenues should be treated as temporary, rather than structural in nature, and thus, should not be factored into our attempts to align long-term fiscal year revenues with expenditures.

#### **Potential Impact of Automotive Industry Crisis and Bankruptcies on City Tax Collections**

The ongoing challenges facing our Big Three automakers have had a tremendous effect on our national and local economy. When auto plants close it is not just the worker who is affected but also, those local suppliers, retailers, and "mom and pop" businesses that benefit from the automotive industries purchases and worker's consumption during peak times. Families that were once able to pay a mortgage, no longer have an income to support their households, to buy food, clothes or pay utilities. The end of the road is often home foreclosure, blight, and continued decline in our neighborhoods.

More devastating is the potential for General Motors to leave the Ren Cen and relocate to Warren. **This cannot be allowed to happen.** We must look to our leadership in the Executive Office and demand that they sustain GM as a Detroit headquartered business. We will not be able to attract business if those that have been the nexus of our City's progress are allowed to leave Detroit. We cannot afford to lose those jobs that supply taxes from residents and non-residents alike to the City of Detroit. We cannot afford another family to lose their livelihood and future. We cannot afford to lose our small businesses, and more importantly, we cannot afford Detroiters relocating to other communities because of an absence of jobs.

### **Community Development Block Grants**

The City of Detroit has placed a high priority on the preservation and redevelopment of its neighborhoods. In addition, it has placed a premium on helping those in need, especially our homeless, our seniors, and our youth.

The City's Community Development Block Grant (CDBG)/Neighborhood Opportunity Fund (NOF) program is a key mechanism through which the City can address these issues. The City Council wants to continue to use these funds in order to enhance our neighborhoods, improve the plight of our residents in need, support economic growth and development, and in general, raise the quality of life for our citizenry.

The United States Department of Housing and Urban Development's (HUD) CDBG distribution to Detroit has declined significantly from eight years ago (from \$59.9 million in 2001-02 to \$42.9 million dollars today). In spite of the decline in funding, the City of Detroit continues accomplish great things with these dollars. Thankfully, the 2009-10 amount of \$42.9 million shows a slight increase from the previous fiscal year.

This year, City Council staff held two CDBG/NOF proposal-writing workshops attended by over 1,000 representatives of area nonprofits and community based groups.

This year, 331 proposals for CDBG and NOF were submitted by community-based organizations and public service agencies throughout the City requesting funds for 360 different activities. In summary, 167 activities were allocating funding; these include 76 public service, 47 home repair, 24 homeless public service, 10 development, and 10 public facility rehab. All of these activities provide vital grass-roots community-based programs ranging from putting a new roof on a senior citizens home to serving a meal to a homeless veteran.

HUD has maintained that CDBG dollars should be spent in a way that maximizes their positive impact on Detroit's neighborhoods and we agree. As a result, HUD has challenged the City of Detroit to allocate larger amounts to fewer public service group awardees; this helps the City do a better job of monitoring and helps each group accomplish more. The City Council has met this challenge in part by funding 100 public service and homeless public service groups.

The City Council also used funding priorities, established in February of 2009, to influence the distribution of funds among the various proposals. Homeless/Emergency, Seniors, and Recreation were the top three priority areas determined for public service activities. Economic Development, Demolition, and Home Repair were the top three priorities identified for non-public service activities.

Our annual Appeals process was implemented to provide applicants with an opportunity to protest the findings and recommendations presented to the Council regarding their respective proposals. As a result of the appellate process, 75 appeals were heard and 17 proposals were deemed eligible for continued consideration.

In other areas of the CDBG budget, this honorable body has made significant changes. The City Council took the lead in allocating \$3 million for emergency senior home repair and for the third year in a row, allocated public service dollars to provide summer jobs for our young people. CDBG funding allocations include about \$2.2 million dollars more than the proposed recommendations from the Executive Branch for public services operated by community-based organizations.

Realizing that there continues to be a dire need for home repair for low and moderate income home owners in our city, the Council increased the amount of funding for home repair activities by over \$1.47 million over what the Mayor recommended, providing funds to 47 community organizations, while the Mayor recommended 35 groups. There is a clear and growing need to make the preservation of housing for low-income individuals, families and seniors a priority. This honorable body has continued providing funds for economic development projects by community based groups, funds for public facility rehabilitation, jobs and health services. To that end, we believe that these priorities demand continued support in the future and look forward to supporting them in the coming year to bring revitalization and stability to the City of Detroit.

### **Closing Statement**

Getting Detroit back on track fiscally is going to take time, sacrifice and persistent hard work. We did not get into this situation overnight, so we have to exercise patience and be willing to step outside our comfort zone and try fresh, new and innovative approaches. Sacrifice and pain are inevitable; and must be endured so the City of Detroit remain autonomous and in control of its own destiny. Our ultimate goal must be to keep Detroit fiscally sound and out of receivership. As Council members, we are charged with the privileged obligation to ensure that City funds being allocated are utilized efficiently, appropriately and wisely — and during this budget process, we did just that. We understood and based our actions upon one guiding principle; that it is the residents and the taxpayers who pay our salaries and entrust us to make rational and progressive fiscal decisions.

It has been said that, "what does not kill us makes us stronger;" and the City of Detroit will emerge from this struggle stronger, wiser, and more stable. Despite the overwhelming economic turmoil and fiscal dismay that our City has endured, Detroiters have con-

tinued to stand up and remained steadfast. Over the past few months, many have questioned the fiscal survival of Detroit and whether or not our Great City has the ability to emerge from a devastated economy and financial tsunami, To those disbelievers I say, we will survive, we will overcome and we will remain in control of our city, our destiny, and our future.

God Bless and Thank All of You.

Honorable City Council:

Re: Petition No. 3241 — Oslo Restaurant for Outdoor Café Permit at 1456 Woodward.

The above named petitioner has requested permission for Outdoor Café Service. This service will convene from April 1 through November 30, 2009.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this request contingent upon the petitioners compliance with applicable City Ordinances related to outdoor café activities and the remittance of the annual use-permit fee to the Permit Section of the DPW/CED.

The Department of Health and Wellness Promotion (DHWP) has approved this petition, subject to petitioner's strict adherence to the 1999 Food Code, Food Law of 2000 and the City Ordinance, Chapter 21. No outdoor grilling is permitted without prior approval from DHWP Food Sanitation Section.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in the outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Historic District Commission (HDC) has issued the Certificate of Appropriateness for this location as of April 9, 2009.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies

involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to terms and conditions provided in the attached Resolution.

Respectfully submitted,  
MARJA M. WINTERS  
Deputy Director

Honorable City Council:

Re: Detroit International Bridge Company (DIBC) requesting outright vacation (Petition No. 3178) of various city streets and alleys and the cancellation of vehicular easements granted per approval of Petition No. 3254 (Departmental Report).

In a letter dated February 2, 2009, the DIBC requested the outright vacation of the following streets and alleys as part of the Ambassador Bridge Gateway Project (Gateway Project) referred to as Petition No. 3178:

- The remainder of 22nd Street between W. Lafayette Blvd. and Howard Street;
- The east-west alley west of 22nd Street and north of Fort Street;

- The remainder of the north-south alley between 22nd and 23rd Street, north of W. Lafayette Blvd.;
- The remainder of the north-south alley between 22nd and 23rd Street, south of W. Lafayette Blvd.;
- The remainder of 23rd Street between W. Fort Street and W. Lafayette Blvd.;
- The remainder of Savoy Street between 23rd and 24th Streets; and
- The remainder of W. Lafayette Blvd. between 22nd and 23rd Streets.

The DIBC is also requesting cancellation of the vehicular easement which was granted per the approval of Petition No. 3254.

The attached map shows the City Planning Commission (CPC) staff's understanding of the general location of the subject request (please see Attachment A).

#### **Background**

Your Honorable Body may recall, in July, 2006, the City approved the vacation of numerous alleys and streets in the subject area to accommodate the Gateway Project. This included vacating all of 22nd Street, 24th Street, 25th Street, parts of Savoy Street, and various alleys in the area bounded by I-75, the Ambassador Bridge, West Fort Street, and West Grand Boulevard.

At the time, there were two main properties that the DIBC did not have control over: one located on the east and west sides of 23rd Street owned by Alliance Shippers, and the second located on the south side of W. Lafayette Blvd. between 22nd and 23rd Streets owned by the Commodities Export Company (please see Attachment B for a map of these properties). Because the DIBC did not control all of the properties, the City Council approved a resolution (Petition No. 3254) drafted by the Department of Public Works (DPW) requiring in part that a cul-de-sac connecting W. Lafayette be constructed and that 23rd Street between W. Fort and the northbound I-75 Service Drive remain open at all times for accessing the properties north and west of West Fort Street. Please see Attachment C for a map of the proposed cul-de-sac.

In February, 2008, MDOT and the DIBC began the Gateway Project, which in large part involves reconstructing the I-75/I-96 interchange with new connections to the Ambassador Bridge. A Gateway Plan was agreed to by the State, the City and the DIBC, which went around the Alliance Shippers and Commodities Export Company properties.

In the past year, CPC staff understands that the DIBC acquired all of the property controlled by Alliance Shippers. However, the DIBC has not yet acquired the aforementioned property owned by the Commodities Export Company.

Sometime in late 2008/early 2009, the DIBC removed 23rd Street north of West Fort and completed construction of its new bridge plaza area. This new plaza includes, in part, the construction of a new duty free store, as well as access drives and truck fueling station over a portion of 23rd Street. During the construction, the DIBC provided various routes for vehicles to continue accessing the Commodities Export Company's property on West Lafayette. Today, the access to this subject property is from West Grand Boulevard parallel to the I-75 Service Drive. CPC staff understands neither the City nor the Commodities Export Company has granted the DIBC permission to alter how the property on West Lafayette is accessed. The CPC staff understands the Commodities Export Company has filed a lawsuit regarding these actions.

#### **Analysis**

A recent Michigan Supreme Court ruling and subsequent lower court rulings state that the DIBC is exempt from City regulations (both zoning and building permits) as it relates to the DIBC's purpose of facilitating traffic flow over the bridge. It is CPC staff's understanding that the recent court rulings do not apply to requests from the DIBC to close City streets surrounding the bridge. Such a closure of streets without the City's permission would result in the taking of City land without the City's permission.

A DIBC representative indicates the DIBC is working to comply with City regulations — even though it is not always required. The DIBC maintains that the City bureaucracy has not always been expedient. However, CPC staff is very concerned about the DIBC's removal of 23rd Street without obtaining the City of Detroit's permission or consulting with MDOT as this is also a change to what was previously agreed upon between DIBC and MDOT.

DPW submitted a memorandum dated April 23, 2009 regarding the subject petition No. 3178 (please see Attachment D for a copy of the memo). This report states that DPW's preliminary investigation found that granting the subject request would 1) landlock the Commodities Export Company from any and all public rights-of-way providing access to and from said properties and 2) violate the City Council resolution dated July 28, 2006 requiring, in part, that 23rd Street remain open at all times and that the DIBC notify all impacted property owners before the closing of the streets. DPW Traffic Engineering Division also outlined seven objections in the report, including the DIBC not being the sole owner of all the properties, the DIBC's unilateral decision to construct facilities and alter the City's right-of-way without prior approval

from the City, and the DIBC's plan being in conflict with State and City approved Gateway Project plans. The Traffic Engineering Division concludes that any alteration to the Gateway plans that have been accepted and approved by the City would require the review by all stakeholders, various City agencies, and the State. The DPW recommends denial of Petition No. 3178.

**Conclusion**

Based on our analysis in the above report and the recommendation of DPW, the CPC staff recommends denial of the subject petition. Attached is a brief resolution for Council's consideration affirming DPW's findings and recommendation. Approval of this recommendation will deny the petition.

Honorable City Council:  
 Re: Petition No. 3178 — Detroit International Bridge Company, requesting outright vacation of various city streets and alleys, and the cancellation of vehicular cul-de-sac easement granted on October 9, 2007.

Petition No. 3178 of "Detroit International Bridge Company (DIBC)" whose address is P.O. Box 32666, Detroit, Michigan 48232 requests the outright vacation of 23rd Street, the remaining portions of Savoy Avenue, Lafayette Avenue, 22nd Street, an East-West public alley and the North-South public alley; also the cancellation of the vehicular cul-

de-sac easement granted on October 9, 2007 all in the block bounded by 24th Street, 22nd Street, West Fort Street and Howard Avenue.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

City Engineering Division — DPW reviewed and conducted a preliminary investigation as to whether the street and alley closures are warranted. The findings of the review and preliminary investigation was that if City Engineering Division — DPW process the Petitioner's (DIBC) request the City of Detroit would be land locking Commodities Export Company whose address is 23511 Ford Road, Dearborn, Michigan 48128 with properties located at 3317, 3325 and 3331 West

Lafayette Avenue in the City of Detroit from any and all public rights-of-way accessing to and from said properties. Also, the Detroit City Council resolution dated July 28, 2006 — J.C.C. pgs. 2169-73, which required that as an express condition and/or provision to Petition No. 3254 DIBC granted on July 28, 2006 — J.C.C. pages 2169-73 to close certain streets and grant certain easement, such as, Twenty-Third Street between West Fort and the northbound I-75 service drive shall remain open at all times for accessing the properties north of Fort Street, located within the project limits. The petitioner/DIBC shall notify all impacted property owners before the closing of the streets. In Fact, DIBC already began and substantially completed construction work with in Twenty-Third Street north of Fort Street before obtaining the necessary permits, property owners' consent, and approval from City Council before Petition No. 3178 was filed with the City Clerk's Office. City Engineering Division — DPW consulted with Traffic Engineering Division — DPW (TED) for an opinion and/or reply to the Petitioner's (DIBC) request for the rights-of-way changes. TED reported having objections to the outright vacation of the various city streets, alleys, and cancellation of the vehicular easement granted on October 9, 2007 as outlined;

1. As per the construction plan submitted to the City on February 9, 2009 by the DIBC's consultant CEC, the proposed construction is in conflict with the State/City approved plans and in conflict with the conditions of other approvals such as but not limited to petitions for R.O.W. adjustments.

2. The DIBC took a unilateral decision to construct the facilities and alter the City's R.O.W., such as but not limited to 23rd Street, Lafayette, Savoy, and alleys without prior approval from the City, ignoring the City Permitting Process.

3. As of now, the DIBC is not the sole owner of **all** parcels affected by the DIBC project. As per City's prior approvals, the access to the third party parcel (Bait Shop and/or Commodities Export Company) was provided from Fort Street through 23rd Street, with a Cul-De-Sac for turnaround. However, 23rd Street north of Fort Street is now closed off by DIBC, and DIBC has proposed an alternate access route. The alternate route proposed by DIBC on February 9, 2009 submittal for accessing the Bait Shop is not acceptable to the City.

4. The DIBC had previously accepted the access route through 23rd Street in compliance with the concept plan (copy of concept plan attached, as Exhibit A) that was accepted by the State/City included in the Environmental Document and made part of the DIBC agreement with

the State. Subsequently DIBC submitted a construction plan that includes an overhead bridges over 23rd Street for DIBC ramp structures to carry traffic to the Freeway and to Canada (copy of drawing attached, as Exhibit B). Such plans were reviewed/approved by the State/City. TED can't approve the plans call for closure of 23rd Street and Lafayette (marked as cross hatched on DIBC's drawing #C-100 on the submitted plans dates February 9, 2009 a copy of the cross hatched mark portion is attached, as Exhibit C) unless **all** privately owned parcels (located near the southeast corner of 23rd Street and Lafayette) are acquired by the DIBC and the utilities are relocated or appropriate access rights and easements are acceptable to the utility companies is in place.

5. The February 9th submittal shows notes for Fort Street "No work to occur with MDOT R.O.W. as part of these construction plans", whereas the DIBC's Final Interim Site Traffic Maintenance Plan with SO2 of DIBC (copy attached, as Exhibit D) submitted to the State shows otherwise, indicating a reduction of existing Fort Street R.O.W., providing inconsistent information to the City and the State. The reduction in roadway R.O.W. or modification of roadway R.O.W. is a major concern to TED, because a reduction in R.O.W. on thoroughfares causes spillover to the local streets and raises concerns from the citizens, specifically from surrounding communities. The modification of the roadway R.O.W. causes access hardships to the businesses/residents.

6. It is logical and normal for any project to have the concept plans reviewed and approved/accepted by the stakeholders and then a follow up with construction drawings, keeping the concept in tact. However, the DIBC has deviated from the concept that was approved/accepted by the stakeholders and unilaterally altered the concept and **implemented construction without approval of the changes by stakeholders.**

7. Any alteration to the plans that has been accepted/approved by the City would require review by all stakeholders, various City agencies and the State.

In view of the above statements and conditions, City Engineering Division — DPW and Traffic Engineering Division recommended **Denial** of Petition No. 3178 by Detroit International Bridge Company.

Honorable City Council:

Re: Technical Correction to the 2009-2010 Budget as Amended by City Council (SCHEDULE B).

In the process of reviewing the 2009-2010 City Council Changes to the Budget or "Schedule B" the Budget Department discovered that Schedule B did not transfer the estimated revenue for three Senior Advocacy appropriations to the Human Services Department, but instead it remained with the Mayor's Office. In addition, the three general fund appropriations need new appropriation numbers as they shift to a new department, due to technical financial record keeping.

The revenue is reimbursement from estimated appropriations totaling \$420,737.

The Budget Department agrees that it should be moved to complete the Council's intent and make the new year's budget as accurate as possible.

Attached is a resolution that we would ask the Council to authorize at the next formal session. We will provide copies of this resolution to the City Clerk.

I can respond to any questions relating to this correction you may have.

City Planning Commission

May 28, 2009

Honorable City Council:

Re: Technical Corrections to the 2009-10 CDBG Budget as Amended by City Council.

In the process of summarizing the City Council action on the Community Development Block Grant (CDBG) Budget with the Budget Department and Planning and Development Department, we have discovered the need for some corrections to appropriation numbers in the CDBG budget (Schedule A). These corrections involve 15 Community Based Organizations (CBO) and three Section 108 Loans Repayment.

Twelve (12) CBOs were given a new appropriation number, but they had an existing appropriation number and therefore, did not require the new number listed in the Schedule A. The Planning and Development Department also informed City Planning Commission staff that the other three community-based organizations and three Section 108 Loan Repayment were assigned the wrong appropriation numbers. As a result the 15 CBOs and three Section 108 Loan appropriation numbers have been changed to reflect to correct numbers according to the Planning and Development Department.

The incorrect appropriation numbers for the above organizations were published in the Detroit Legal News. Attached is a resolution containing Technical Corrections to Schedule A. We are requesting Council action on this resolution so that the correct appropriation numbers would be reflected in the Budget Department's Red Book.

These changes in appropriation numbers do not in any way change the amounts allocated to the listed organizations. We apologize for any inconvenience and can respond to any questions you may have relating to these corrections.

area of 2101 Conner Avenue, Detroit, MI, in accordance with Public Act 198 of 1974 as amended (Petition No. 2158).

On March 19, 2008, a discussion in connection with approving an Industrial Facilities Tax Exemption Certificate for the above-captioned property was held before your Honorable Body. The resolution for approval was also adopted.

However, upon receipt and review of the approved resolution, the Michigan State Tax Commission determined that the language reverent to the duration of

the certificate required revision as reflected in the attached revised version.

The Planning and Development Department requests that you approve the revised resolution for the Industrial Facilities Tax Exemption Certificate. Should you have questions or need additional information, please contact Brian Watkins at (313) 224-9973.

A Waiver of Reconsideration is requested.

**MEMBER REPORTS**

**COUNCIL MEMBER JOANN WATSON:**

Received a call Mr. Moore in Detroit who is asking that General Services please take a special look at the Bookins Playfield. The grass is too high and says that it is a dangerous situation for young people in the community. (REFER TO PUBLIC HEALTH & SAFETY STANDING COMMITTEE)

Reported that Mr. Johnson has called the Mayor and General Services already about grass that needs to be cut badly at O'hare Park near Henry Ford High School. URGENT ISSUE.

Reported that Ms. Hughley, 93 year old, lives in the 8600 block of Pembroke, is asking General Services to cut down a tree between the street and the sidewalk.

Requested that City Council Research & Analysis Division urge that the Executive Branch of the city declare the city in a state of emergency and request emergency funding like Emergency Manager Bobb did with the school system and got \$533,000,000.

Urging the Mayor to amend the budget and the city's handling of waste to lower the current budget expenditure from \$24,000,000 with incineration to \$12,000,000 (the cost of landfill), because the council wisely acted in 2008 to provide the requisite years notice to terminate the incinerator agreement. If the incinerator is ramped up after June 30, it will nullify termination of the agreement last year, which will give an automatic renewal for up to 20 years which will not be in the best interested of the next generation.

**COUNCIL MEMBER TINSLEY-TALABI:**

Shared with everyone, two letters that she received from some students at Blackwell Elementary School, 9330 Shoemaker.

**COUNCIL MEMBER MARTHA REEVES:**

Indicated that she will hand deliver Spirit of Detroit Awards to Dionne Warwick, Mary Wilson, Duke Feature and Sam Ward, who are in town working on a Performance Act Bill that Congressman Conyers is heading.

The Purchasing Division of the Finance Department recommends a Contract with the following firm(s) or person(s):

**2795246** — Notification of Emergency Procurement as provided by Ordinance No. 15-00 — Please be Advised of an Emergency Procurement as follows: Description of Procurement: Maintenance

and Air Quality Testing of Air Compressors at Five (5) Locations: 17475 Elliott, 2775 W. Warren, 8700 14th St., 6543 Meyers and 1400 Erskine. The air compressor units fill the tanks that provide firefighters with breathable, clean air that is needed on any hazardous material or fire incident — Basis for the Emergency: If Air Compressors are not repaired and tested the Department would lose some of its capacity to provide its employees with clean, breathable air. This would present a health and safety hazard for employees as well as placing the Department in violation of MIOSHA Act 154, causing potential fines that the City cannot afford — Basis for Selection of Contractor: Air Source One, Inc. is a sole-source vendor for the Department's Mako Compressors. Air Source One, Inc. was performing maintenance on Fire's Mako units and was hired to repair and test five units that were not in compliance with MIOSHA Act 154 — Contractor: Air Source One, Inc., P.O. Re: Rescheduling of the public hearing for proposed ordinance to amend Chapter 25, Article II, of the 1984 Detroit City Code by adding Section 25-2-173 to establish the San Telmo Cigar Company Historic District and to define the elements for the district.

On June 4, 2009, your Honorable Body introduced an ordinance for the proposed San Telmo Cigar Company Historic District and set the public hearing on the same for this Wednesday, June 10th before the Planning and Economic Development Standing Committee. Given that the home going services for Mr. Cleveland will likely result in the cancellation of the committee meeting and thereby the hearing, we respectfully request the passage of a resolution rescheduling the hearing for next Tuesday, June 16th during the formal or before a Committee of the Whole. Following the hearing we also request action on the matter that same day. This will allow the project to stay on course as the designation is needed by the following Wednesday the 17th.

Respectfully submitted,

**City Planning Commission**

May 28, 2009

Honorable City Council:

Re: Request of Mirage Concepts to amend Article XVII, District Map No. 71 of Chapter 61 of the 1984 Detroit City Code, Zoning, to show a PD (Planned Development) zoning classification where an R1 (Single-Family Residential District) zoning classification is presently shown at the 8.43 acre portion of the southwest section of the former Bonnie Brook Golf Course property (Recommend Approval with Conditions).

**REQUEST**

Mirage Concepts is requesting to amend Article XVII, District Map No. 71 of Chapter 61 of the 1984 Detroit City Code, Zoning, to show a PD (Planned Development) zoning classification where an R1 (Single-Family Residential District) zoning classification is presently shown on the 8.43 acre portion of the southwest section of the former Bonnie Brook Golf Course property. The subject property is generally located on the east side of Telegraph Road between a line approximately 1,000 feet south of and parallel to West Eight Mile Road and the northern property line of the Super Kmart Center. The applicant is planning the construction of an approximately 65,400 square foot hotel. Rezoning of the land is being requested because the proposed commercial use is not allowed in the R1 zoning district. The proposed PD designation affords the property flexibility in its development while giving the City a greater say over design and appearance.

**PROPOSED DEVELOPMENT**

Mirage Concepts proposes to construct an approximately 65,400 square foot, four-story hotel with 93 guests along with a parking lot of 102 spaces on 8.43 acres of the former Bonnie Brook Golf Course along Telegraph Road (adjacent to the Super Kmart Center). The hotel would have a variety of suites (studio, 1 bedroom, and 2 bedroom). A guest commons area would include a great room, kitchen, buffet, library, conference room, fitness room, indoor pool and spa, and an outdoor terrace space. The developer is considering a future indoor golf center with simulator swing areas and a practice putting green.

The remainder of the 8 acres of the former golf course would remain open space. The developer indicates that some of the open space may incorporate recreation space for hotel guests in form of a sports court and several short practice golf holes.

The site plan for the project shows that the building would be set back on the southwest portion of the site with the front of the building facing Telegraph Road. The rear of the building would face the remainder of the open space and the Rouge River. The façade of the proposed building would consist of panel brick along the first floor and the recessed portions of the front façade's first two stories including the four stories at the building's entryway. The site plans show a 2,692 square foot future golf center at the north side of the hotel.

Extensive landscaping would be provided throughout the site. A two-foot-high continuous hedge along with 1 tree per 30 feet of linear frontage (a total of 13 trees) would be planted along Telegraph Road to serve as a buffer between the street and the parking area. Trees would be planted within the parking area and along the southern property line. The perimeter of the building would be landscaped with deciduous trees, pine trees, flowers, and ornamental grass.

Vehicular access into the site would be via a driveway on Telegraph Road. The vehicular entryway would have a median landscaped with shrubs and annual flowers. The site plan indicates a total of 102 on-site parking spaces for the proposed development. The Detroit Zoning Ordinance requires 70 parking spaces for hotels with 93 guest rooms. A turnaround lane is proposed to allow for vehicular access to the dumpster and loading areas and for emergency vehicles to maneuver within the parking area.

No signage has been submitted for the proposed development. The developer would need to submit site plans and elevations of any proposed signage for review by the City Planning Commission (CPC) prior to the issuance of a sign permit from the Buildings and Safety Engineering Department.

The proposed development would be constructed adjacent to the Rouge River in a flood zone area. The developer proposes to cut and fill within the 100-year floodplain of the Rouge River for the purpose of constructing the hotel. Approximately 5,202 cubic yards of fill would be placed in .32 acre of wetland. In addition, a detention basin would be constructed. A total of approximately 37,478.2 cubic yards of fill would be placed within the floodplain with a compensating cut totaling 37,524.5 cubic yards of material from within the 100-year floodplain of the Rouge River. The developer has received a permit from the Michigan Department of Environmental Quality (MDEQ) to carry out this process.

**PUBLIC HEARING RESULTS**

At the CPC public hearing on July 7, 2008 relative to the rezoning request of Mirage Concepts, one person from the adjacent residential community spoke.

The speaker did not indicate whether he opposed or favored the request, however, he expressed concerns about the feasibility of the proposed development, impacts on the Rouge River water flow, and other concerns of the Chippewa/Cherokee Block Club.

#### **ANALYSIS**

The proposed development calls for approvals from several state agencies (Michigan Department of Environmental Quality (MDEQ) and Michigan Department of Transportation (MDOT) as well as a report and recommendation from the City of Detroit's Floodplain Management Review Committee. Below is a status update of the various agency reviews.

#### *MDEQ Approval*

On November 26, 2008, MDEQ approved the permit to fill in .32 acre of wetland as well as to construct a detention basin and cut and fill within the 100-year floodplain of the Rouge River (See Attachment A).

#### *MDOT Process*

The proposed development calls for a new driveway entrance along Telegraph Road, which requires MDOT approval. To date, the petitioner has not submitted a request to MDOT but has received preliminary comments from MDOT for the proposed driveway entrance along Telegraph Road (see Attachment B). The developer intends to submit a request for the proposed driveway entrance along Telegraph Road upon approval of the requested rezoning.

#### *Floodplain Management Review Committee Approval*

Since the proposed development is located in a floodplain area, it requires the review and recommendation from the City of Detroit's Floodplain Management Review Committee. In accordance with the Detroit Zoning Ordinance Sec. 61-2-124, which requires the Floodplain Management Review Committee to review and make recommendations regarding the advisability of permitting development within floodplains that are located within the City of Detroit, the Floodplain Management Review Committee submitted a recommendation of approval of the proposed development (see Attachment C).

#### *Chippewa/Cherokee Block Club Meeting*

On August 12, 2008, the developer met with the Chippewa/Cherokee Block Club residents to address their concerns and answer any questions relative to the proposed development. Unfortunately, CPC staff was unable to attend the meeting due to a meeting conflict. However, staff spoke with the president of the block club and confirmed that the residents' concerns have been generally addressed by the developer.

#### **MASTER PLAN**

The subject property is located within the Redford Subsector of the West Sector

of the Detroit Master Plan of Policies. The generalized existing and proposed land use designation in the Master Plan for the site is Permanent Open Space (POS). Since the PD zoning classification requires that the major land use of the Planned Development be consistent with the most general land use category proposed in the Master Plan for the area, the Planning and Development Department (P&DD) submitted a request to amend the Detroit Master Plan of Policies, for the Redford Subsector of the West Sector, to show General Commercial (GC) for the subject property to allow for the proposed development (see Attachment D).

#### **RECOMMENDATION**

On August 7, 2008, the City Planning Commission took action to recommend approval of the rezoning request from R1 to PD and development proposal and to forward that recommendation on to your Honorable Body with the following conditions:

1. That the site plan be revised to show:
  - a. A landscaped median at the vehicular entryway along Telegraph Road;
  - b. A second point of ingress and egress for better vehicular circulation;
  - c. The location and elevations of signage; and
  - d. The location and design of the detention basin.
2. That the final site plan and elevations be submitted to City Planning Commission staff prior to the application for building permits.

The attached is an ordinance, approved as to form by the Law Department, for introduction and the setting of the required public hearing.

Respectfully submitted,

Honorable City Council:

Re: Departmental Recommendation.

Petition No. 3355 — Bistro 24, LLC, d/b/a Spa 19/24 Grille in Westin Book Cadillac Hotel, requesting Outdoor Café Permit at 1114 Michigan Avenue.

Bistro 24, LLC, d/b/a Spa 19/24 Grille, a restaurant operating at 1114 Michigan Avenue, has requested permission for Outdoor Café Service. This service will convene from April 1 through November 30, 2009.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this request contingent upon the petitioners compliance with applicable City Ordinance related to outdoor café activities and the remittance of the annual

use-permit fee to the Permit Section of the DPW/CED.

The Department of Health and Wellness Promotion (DHWP) has approved this petition, provided that no outdoor grilling is permitted without prior approval from DHWP Food Sanitation Section.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is our recommendation that the proposed outdoor café area be granted subject to the terms and conditions provided in the attached Resolution.

Respectfully submitted,

MARJA M. WINTERS

Deputy Director

By Council Member Collins:

Provided, That the café meets the regulations set by the "Outdoor Café Guidelines" as adapted by the City Council and guided by Chapter 58, Section 50-2-8.1 of the City Code; and

Provided, That the petitioner obtains all necessary licenses and permits; and

Provided, That said activities are conducted under the rules and regulations of the Department of Transportation, Department of Public Works and the supervision of the Police Department; and

Provided, That the sale of food and soft drinks is held under the direction and inspection of the Detroit City Health Department; and

Provided, That the "permittee" remit the required annual fee(s) to DPW/CED for issuance of a use-permit and confirm license of the establishment in compliance with the City Code; and

Provided, That the "permittee", prior to obtaining said permit, file an indemnity agreement (attached) in a form approved

by the Law Department, saving and protecting the City of Detroit harmless from any or all claims, damages or expenses that may arise by reason of the issuance of said permit and the faithful performance by the "permittee" of the terms thereof; and in addition, to pay all claims, damages or expenses that may arise out of the maintenance of said encroachments; and

Provided, That filing of said indemnity agreement for this current year shall be construed as acceptance of this Resolution by the "permittee"; and

Provided, That the permit is revocable at the will, whim and caprice of the City Council; and hereby expressly waives any right to claim damages or compensation for removal of encroachment, and further, that "permittee" acquires no implied or other privileges hereunder not expressly stated herein; and

Provided, That the permit shall not be assigned or transferred without a written approval of the City Council; and

Provided, That the petitioner follow the mandated minimum six (6) foot wide clearance on the sidewalk, free of all obstacles such as planters, parking meters, utility poles, transformer boxes, etc., to allow for pedestrian movement; and

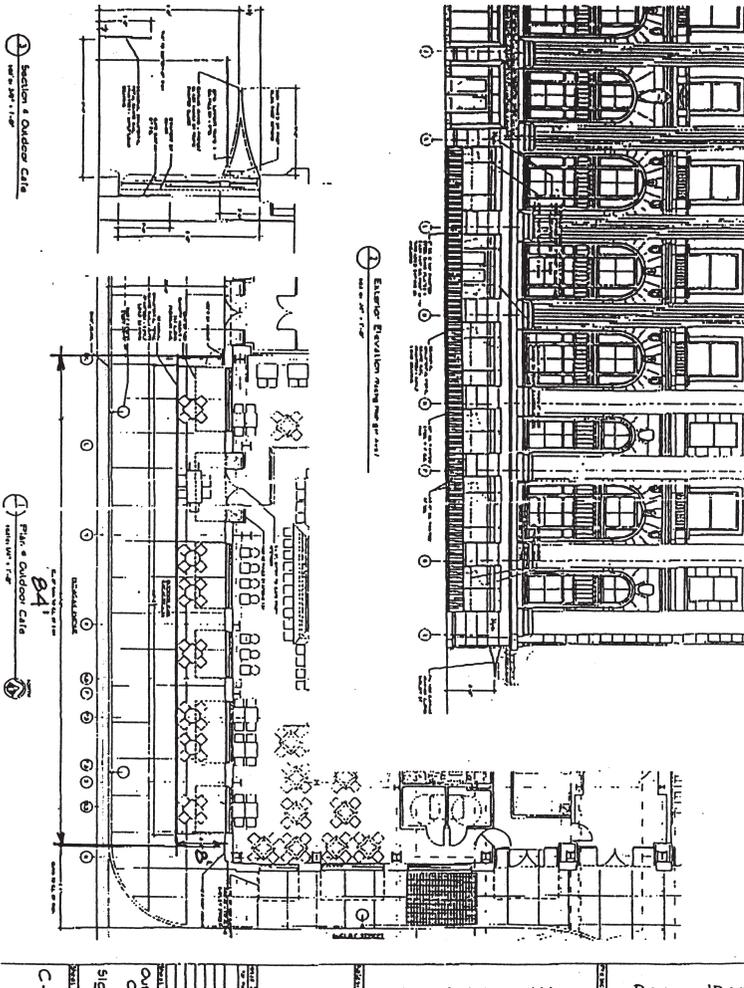

Provided, That the designated outdoor seating area shall be properly identified through the use of railings in order to regulate and control the serving of liquor within the perimeter of the café, and

Provided, That this use permit shall be for a period not to exceed one year after receiving the approval of the City Council and may be renewable on an annual basis; and

Provided, That all railing equipment and fixtures shall be removed from the public right-of-way during the months of non-operation and placed in storage; and

#### **Water and Sewerage Department General Administration**

May 18, 2009

Honorable City Council:

Re: Authorization to Acquire Private Properties to Expand the Project Area for the Oakwood Combined Sewer Overflow Control Facility (CSO) Project (PC-755) and Oakwood Sewer Relief System, (PCS-79).

The Detroit Water and Sewerage Department (DWSD) began construction of the Oakwood CSO basin in 2007. The project is located in the Grand Factory subdivision near what is called the Equilion property area. The construction site is adjacent to owner occupied homes and an apartment building. Due to this proximity, the residents in this subdivision filed formal complaints with the Detroit City Council and the Mayor's office claiming that the ongoing construction has

greatly diminished their quality of life and caused structural damage to many of the homes. City Council and the Mayor's office agreed that residents have suffered through no fault of their own and "should be made whole" by the Department.

DWSD, in response, agreed to compensate the residents by creating a "project area" which would include the property affected not only by the Oakwood CSO Basin construction, but the Oakwood Sewer Relief System Project. Both projects are in the same location and will basically encompass the entire area until 2014, when the Relief project is scheduled for completion.

With the assistance of the Department's property acquisition consultant, The Land Group of Michigan, DWSD has identified approximately sixty-five (65) properties, including vacant lots and City-owned parcels that will be consolidated to create this project area. The residents who live in the area (which is bounded by Liddesdale, Sanders, Pleasant, and the Oakwood Basin site) have been notified of the Department's intentions and have been very receptive to the plan. Currently, DWSD is appraising these properties and preparing purchase offers. This is not a condemnation action; the property owner's participation is strictly voluntary. The Department is following all applicable City Ordinances and the provisions of Federal Public Law 91-646, "Uniformed Assistance Real Property Acquisition Policies of 1970".

The Land Group of Michigan has prepared a cost estimate of Three Million Dollars (\$3,000,000.00) to acquire these properties. That estimate includes property acquisition, relocation assistance, demolition and clean up and restoration of the project area.

At its meeting of April 22, 2009, the Board of Water Commissioners approved acquiring these properties. It is respectfully requested that your Honorable Body adopt the attached resolution approving and authorizing the property acquisitions by the Board of Water Commissioners and authorize the Interim Director to execute all documents related to the completion of the transactions.

Respectfully submitted,

PAMELA TURNER

Honorable City Council:

Re: Address: 8200 Grandville. Name: Anjorel Hammond Jr. Date ordered removed: March 17, 2009 (J.C.C. page 600).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on May 11, 2009 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of May 8, 2009.

The proposed use of the property is owner occupancy.

This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the build-

ing becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Re: Address: 12131 Minock. Name: Alvin Alosachi. Date ordered removed: April 14, 2009 (J.C.C. page ).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on May 2, 2009 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of April 27, 2009.

The proposed use of the property is rehabilitation and sale.

This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four

must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,  
AMRU MEAH  
Director

**RESOLUTION IN SUPPORT OF THE GREATER DETROIT RESOURCE RECOVERY AUTHORITY (GDRRA) AND OTHER PARTIES ADOPTING THE MOST EFFICIENT AND ENVIRONMENTALLY SOUND SOLID WASTE MANAGEMENT SYSTEM FOR THE CITY OF DETROIT, AFTER JUNE 30, 2009**

By COUNCIL MEMBER KENYATTA:

WHEREAS, The Greater Detroit Resource Recovery Authority (GDRRA) has been responsible for disposal of Detroit's municipal solid waste (MSW), through incineration with energy recovery at the Resource Recovery Facility (RRF), pursuant to the sale/leaseback agreements with its owners, its operator, the City of Detroit, and other parties such as waste haulers and energy contractors, since 1991;

WHEREAS, After June 30, 2009, or shortly thereafter, the original bond debt for the existing RRF is expected to be fully paid off, and GDRRA is expected to enter into new agreements for management and disposal of MSW, pursuant to competing bids by the RRF Operator or Landfill Operators, with contract(s) for those services to be awarded on or about June 17, 2009;

WHEREAS, Although the Detroit City Council has been requesting reasonably specific and detailed information from GDRRA, the Department of Public Works (DPW), and the Administration regarding their plans for management and disposal of MSW after June 30, 2009, for over a year, and has resolved that GDRRA, DPW and the Administration should adopt a new business model for managing solid waste in the City of Detroit, with primary reliance on waste reduction, materials, re-use, recycling, composting and supple-

mentary disposal at landfills, no such information has been provided, so that at this relatively late date before the June 30, 2009 deadline for commencing performance on new MSW management and disposal contracts, GDRRA has still not provided City Council with clear and informative answers, or with such a comprehensive plan for delivering these core City government services in the future; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly urges GDRRA, DPW and the Administration to expeditiously adopt, publish and implement the most cost-effective and environmentally sound comprehensive plan and system for managing and disposal of MSW after June 30, 2009, including at a minimum the following elements:

- The lowest overall cost to the City of Detroit;
- The greatest achievable environmental benefits;
- Move toward the development of a long-range, comprehensive solid waste management system that will adequately serve the people of the City of Detroit and their interests, including waste reduction, re-use of materials, recycling, composting and energy recovery;
- Full accounting for all aspects of the system, including ash disposal, if any, energy costs, transportation costs, capital costs and facilities retrofit and maintenance costs, the anticipated costs of carbon emissions regulations, and all other relevant costs;
- Aggressive and effective implementation of curbside collection for recycling, beginning with the two pilot projects scheduled for commencement on July 1, 2009, and expanding to cover the entire City of Detroit as soon as possible;
- Full transparency; and
- A clear and understandable explanation of GDRRA's and the Administration's plans and vision for managing the City of Detroit's MSW after June 30, 2009; AND BE IT FURTHER

RESOLVED, That GDRRA and the Administration is urged to identify the contractor they choose for managing the City of Detroit's MSW after June 30, 2009, and submit the relevant information about the contract, bids, acceptance, and implementation to City Council by no later than June 17, 2009, to ensure that Council has enough time to ask potential questions, analyze the subsequent answers and otherwise complete its due diligence review of the proposed contract; AND BE IT FURTHER

RESOLVED, That any bid submitted by Covanta/Michigan Waste Energy, the current Operator of the RRF, should be evaluated equally, in scope and breadth of services, to the other submitted bids, and should include such costs as disposal of

incinerator ash, impending facility maintenance, and any other factors that are unique to incineration as opposed to bids that have been submitted for the usage of landfills; AND BE IT FINALLY

RESOLVED, That the Detroit City Council hereby declares its intent to support GDRRA, DPW and the Administration in developing and implementing a solid waste management system for the City of Detroit that meets the above criteria and standards.

Yeas — Council Members Collins, Jones, Kenyatta, Tinsley-Talabi, Watson, Conyers, and President K. Cockrel, Jr. — 7.

#### **MEMBER REPORTS:**

##### **COUNCIL MEMBER J. WATSON:**

We give God the praise, God is worthy to be praised. There's a Juneteenth celebration on Friday and we'll cut the ribbon for African Town (Paradise Valley), which will be led by Council Member Collins and I. We're so happy and people of Detroit will come to honor the significant district in the heart of our city. On Saturday, Juneteenth will be celebrated all day at Belle Isle near the band shell with young adults reclaiming Detroit.

##### **COUNCIL MEMBER B. COLLINS:**

We've planned for economic growth in the African American community. There's going to be vendors there and it will be very lively so I hope that all of the City Council Members will take time to attend. The event will be held Friday, June 19, 2009 from 12:00 p.m. to 3:00 p.m. in the old Harmonie Park area. We'll also dedicate a plaque to Ms. Beatrice Buck who was a big promoter of Paradise Valley; she made plays and musicals. Ms. Buck passed a few years ago so we're honoring her by naming that Fountain, Beatrice Buck Paradise Valley Fountain. We're including a lot of Council Members ideas such as former Council Member Lonnie Bates idea to do the Walk of Fame at Ford Field, we're going to do the Walk of Fame at Paradise Valley. As the money comes, we'll expand and this will be a permanent fixture to remind everybody of the black community that was a building block (founder) of the City of Detroit.

##### **COUNCIL MEMBER K. KENYATTA:**

I'd like to thank Council Member Collins for those comments. I'd like to commend a couple of young men who actually incorporated the concept and name of "African Town." They weren't able to continue because "African Town" was supposed to be a private development concept, but they weren't able to get it off the ground until it came to the Council's table. We have to recognize those pioneers, even if we can't remember their names.

Yesterday as I was watching some of the news coverage, the attorney for Mr. Rayford Jackson made a statement saying that "this is just what we do in the City of Detroit," basically saying that everybody is corrupt and you have to pay to play in

order to get things done. Mr. Jackson just felt compel to play the game as it is expected. I don't know about other Council Members but I take offense to that; that's not how my office operates and I don't think that's how a majority of Council Members operates but I think to lay silent on the matter is to say "yes" that's exactly what we do. So, nobody is guilty it's just the way that Council operates, it's the way that corruption go in the City of Detroit. Clearly, there's obvious corruption, you have people that said that they're guilty of doing something and someone that they did it with is guilty as well.

As I heard your comments Mr. President, I concur; I think it should take place immediately. If in fact there's enough evidence, then the Fed's should issue the indictments and let everything fall where it may. If not, it fuels the comments justifiably so that all of them need to go; if you don't know who's guilty then get rid of everyone. Therefore, it does put that on the table and I think it's unfair to the citizens of Detroit to have a primary election and the Fed's not informing the citizens as to whom they think is guilty. I'm concerned about this cloud that hangs over all of our heads until they bring whoever is brought to justice.

##### **COUNCIL MEMBER A. TINSLEY-TALABI:**

On Saturday, June 20th at 2:00 p.m., I'd like to invite the public to a free concert featuring "The Avenue D Boys Choir" at Ebenezer A.M.E. Church located at 5151 W. Chicago.

On Thursday, June 18th from 11:00 a.m. to 3:00 p.m., I'm having a "Senior Appreciation Day" at Greater Grace Temple, 23500 W. Seven Mile Road; we'll have free health screenings, healthy living tips, etc.

In addition, on Thursday, June 18th from 5:00 p.m. to 8:00 p.m., there will be a free local jazz concert at the Northwest Activity Center, located at 18100 Meyers; sponsored by the Senior Citizen's Department.

I'm asking everyone to support our neighborhood farmer's market. There's one a Wayne State, it's called "Seed Wayne". We have markets located at Wayne State, East Warren, Northwest Detroit, Gratiot (Eastern Market) and a new one located at 19916 Livernois (Windmill Market). If people don't come out and support them, they will not grow.

##### **COUNCIL MEMBER M. REEVES:**

I'd like to issue awards to our local citizens.

##### **COUNCIL PRESIDENT K. COCKREL, JR.:**

I had a memorandum circulated to Mayor Bing, City Council, as well as the Clerk requesting a proposed resolution

authorizing \$250,000.00 from the Countrywide Settlement Fund, which was referred to the Budget, Finance and Audit Standing Committee. The Country Wide Settlement Fund dollars were actually dollars that the Attorney General and I announced that the City of Detroit would be receiving back in March when I served as Mayor. However, we're now in a position whereas the state is preparing to disburse those funds to cities; Detroit will get about \$250 thousand.

I had a memorandum circulated to Mayor Bing, City Council, as well as the Clerk requesting a proposed resolution authorizing \$250,000.00 from the Countrywide Settlement, which was referred to the Budget, Finance and Audit Standing Committee. I'D LIKE TO HAVE THIS MEMO REFERRED TO THAT COMMITTEE. The Countrywide Settlement Funds were actually dollars that the Attorney General and I announced that the City of Detroit would be received back in March when I served as Mayor. However, we're now in a position whereas the state is preparing to disburse those funds to cities; Detroit will get about \$250 thousand.

The resolution that was referred to the Budget, Finance and Audit Standing Committee is okay, but I have one concern which is under the language outlined in the settlement agreement; specific plans on how the funds will be used. It has to be prepared in writing and submitted to the Attorney General's office and I don't believe that it has been done. When I served as Mayor, we were in the process of developing recommendations. However, that occurred at the same time as the election so we suspended our plans although we did prepare a set of recommendations that we'd be happy to share with Mayor Bing. The fact of the matter is that we cannot accept these dollars unless there is a specific plan that has been prepared and filed with the state on how those dollars are to be used. If there is one, I don't believe that it has been shared with this Council as of yet. I'M REQUESTING THAT THIS MEMO BE FORWARDED TO THE BUDGET, FINANCE AND AUDIT STANDING COMMITTEE. As they review that resolution, they can work with the Bing Administration to determine what the plan is before we approve the receipt of the money next week.

There was also a lot of discussion about the People Mover station and the elevator. We placed a call to Barbara Hansen to see if she could come over and give us a quick update and I understand that she's here? Ms. Hansen, can you please give us a quick status on the People Mover?

**Barbara Hansen:** It's my understanding that there was some discussion about

the accessibility of the People Mover stations. All of the stations are fully accessible with the exception of Grand Circus Park; that station was originally designed (20) years ago to be fully integrated into the David Whitney building. Unfortunately, that building has gone through a series of owners within the last ten (10) years, we had been working with the developer and their issue currently is to do a market assessment and identify a development for which they can obtain funding in which will be successful in that building. The station there relied upon the elevators in the building and we simply do not have control of the building, the elevators need work and the building also needs to be secured.

One other station that we're currently performing modifications and upgrades to, are actually to the elevators at the Cadillac Station. We have three stations that we've contracted with Otis to perform upgrades to and we're taking them in series; the first one is the Cadillac Station which is currently down for those modifications. Once we complete that one, we'll move to Michigan Avenue Station, then we'll go to Joe Louis; those are three that we've had some problems with during the severally cold weather.

**K. Cockrel, Jr.:** That completes your report?

**Barbara Hansen:** I don't know if there are some specific questions.

**Tinsley-Talabi:** Mr. President, I appreciate your going straight to the source because one would think that the People Mover is totally inaccessible; I know that's not true. There are a total of how many stations?

**Barbara Hansen:** Thirteen (13).

**Tinsley-Talabi:** There are three that require some modifications?

**Barbara Hansen:** Yes. We're making modifications but all are operational for the exception of Cadillac.

**Tinsley-Talabi:** So the other ten (10) are handicap accessible?

**Barbara Hansen:** Yes.

**Tinsley-Talabi:** Can we get a timeline on when those will be completed?

**Barbara Hansen:** It will be two to three weeks for the modifications to each of the stations; actually I have a call in to Otis as we speak and I'm waiting for the final proposal to complete the work at Cadillac. I can provide that to you as soon as I receive it.

**Tinsley-Talabi:** Is it possible for one of your staff members to speak at their next meeting so they can share the reality of what's happening with the People Mover?

**Barbara Hansen:** Certainly.

**K. Cockrel, Jr.:** Are there any additional questions?

**K. Kenyatta:** Are the elevators working at all of the facilities as far as you know?

**Barbara Hansen:** Yes.

**K. Kenyatta:** What about securement (rails for the handicap to hold on to)?

**Barbara Hansen:** All securements are fully functional.

**K. Kenyatta:** Are there individuals that provide the People Mover for this specific purpose of helping the handicap?

**Barbara Hansen:** Our field operations staff, the transit officers as well as the control operators.

**M. Reeves:** One of the speakers suggested today that someone ride along with the disabled. Would that require more staff members?

**Barbara Hansen:** Yes. Typically, the transit officers will notice that we have a special passenger, they'll radio control ahead of time to be sure that when they arrive at that station, they're tended to.

**B. Collins:** Is that station closed at the David Whitney building?

**Barbara Hansen:** The station isn't closed but the accessibility is a problem because the building itself is closed.

**B. Collins:** Do you plan to do anything about that?

**Barbara Hansen:** No. We're currently working with the developer to enhance the station at that building. We do have a proposal but we're unable to move forward until they open the building.

**B. Collins:** That's the accessibility?

**Barbara Hansen:** Yes.

**B. Collins:** Is there anywhere else that station can be placed? The reason I asked is because that's near Ford and Comerica Park; do they have access to that?

**Barbara Hansen:** The Broadway Station is right down the block from Comerica Park.

**B. Collins:** That's good because it's right in the vicinity.

**K. Cockrel, Jr.:** I don't have any questions; I'm just glad you're able to get here in advance notice.

**K. Kenyatta:** Can you give us a phone number in case of emergencies or if the public would like to call?

**Barbara Hansen:** The control center number is 963-0171.

**B. Collins:** VIDEO CREW, WILL YOU PLEASE SCROLL THAT NUMBER.

**Tinsley-Talabi:** Is it possible to have a statement that can be scrolled on channel 10 that says briefly what you've described? You've said that we have thirteen (13) stations and this is the status of these three, so people will know.

**Barbara Hansen:** Yes.

**Tinsley-Talabi:** When can we have that information?

**Barbara Hansen:** Today.

**K. Kenyatta:** An ordinance was suggested.

**K. Cockrel, Jr.:** Frankly, I don't think an ordinance is necessary; this is governed by the Americans with Disabilities Act (ADA) which is a federal law anyway.

29. Submitting report in response to Council Member Kwame Kenyatta's request relative to damaged Courville Container, at 20003 Winthrop. (Department indicates that the first step in obtaining a Courville Container is for residents to contact the 311 Call Center; Public Works will investigate the request and inform the resident if the \$40.00 placement fee is to be paid; however the manufacturer lists the useful operating life of the container at ten (10) years no matter how well preserved; the City of Detroit Code, Chapter 22, Article II, 22-2-46 allows the Public Works Director to establish the placement fee rate in (10) year increments; the fee of \$40.00 per unit, covers the container through 2014 and ensures that whatever mechanical malfunction with the container unit will be addressed within 3-5 days of receiving the complaint.)

#### **MISCELLANEOUS**

30. Council President Cockrel submitting on behalf of the American Federation of State, County and Municipal Employees, AFL-CIO, Local 207 letter of complaint regarding the implementation of a new fee schedule, in particular objections to the turn off and turn on fees.

32. Submitting on behalf of the Detroit People Mover/Detroit Transportation Corporation in response to questions raised on the accessibility of the Detroit People Mover system. (Detroit People Mover/Detroit Transportation Corporation indicates that the system was designed with full accessibility in all thirteen (13) stations and vehicles; the only station not accessible is the Grand Circus Park station which is fully integrated into the David Whitney Building; currently the elevator at the Cadillac Center station is inaccessible as the controls are being upgraded; several escalators have been completely refurbished; heating units were installed for more reliable operation in cold weather, more durable material used in the interior of elevator cabs, and enhanced lighting and security features. Otis elevator have been engaged to improve the vertical conveyance at Cadillac Center, Michigan, and Joe Louis Arena stations. Grand Circus Park station continues to be challenge due to closure of the David Whitney Building; however, DTC will continue to work with owners to identify alternate access plan; the nearest station serving the stadia that is accessible is the Broadway Station.)

Honorable City Council:

Re: Iris J. Hill vs. City of Detroit, Department of Transportation. File #: 13996 (PSB).

On November 6, 2007, your Honorable Body approved a settlement in the amount of Fifty-Two Thousand Five Hundred Dollars (\$52,500.00), payable to Iris J. Hill, the Claimant. However, because of a change in circumstances, the amount has increased to Seventy-Five Thousand Dollars (\$75,000.00), payable to Iris J. Hill and her attorney, Ronald D. Glotta. These circumstances are set forth in a confidential attorney-client privileged memorandum that is being separately hand delivered to each member of your Honorable Body. From this review, it is our considered opinion that a settlement in the amount of Seventy-Five Thousand Dollars (\$75,000.00), is in the best interests of the City of Detroit.

We, therefore, request that you rescind the original resolution, and change the amount of the settlement to Seventy-Five Thousand Dollars (\$75,000.00), and adopt the amended resolution submitted herewith. Waiver of reconsideration is requested.

**City Planning Commission**

June 11, 2009

Honorable City Council:

Re: Request to rezone 100 W.Kirby Avenue from PC (Public Center District) to PCA (Restricted Central Business District) to allow an existing, but

vacant, historic house to be used as an office (Recommend Approval).

A change in zoning from PC (Public Center District) to PCA (Restricted Central Business District) is being requested by Kirby of Detroit, LLC to allow an existing, vacant two-story historic residential structure to be used as an office. The proposed use is permitted conditionally in the PCA district.

**Background**

The proposed rezoning request involves an area of less than half an acre that is situated on the northeast corner of West Kirby and Cass Avenues. The subject property was previously owned by the Detroit Historical Society. The Detroit Historical Society has transferred jurisdiction of the property and any interest it may have to the Planning and Development Department (P&DD). The petitioner has submitted an Offer to Purchase to P&DD. Attached is a letter from P&DD to CPC staff indicating P&DD's authorization for the petitioner to submit this rezoning request on P&DD's behalf. On May 7, 2009, City Council voted to authorize the sale of the subject property to the petitioner. Mayor Cockrel approved the sale on May 11, 2009.

The subject property currently consists of a vacant, historic two-story residential structure of approximately 5,827 square feet. The surrounding land uses are institutional: Wayne State University to the west, the Detroit Public Library's main branch to the south, the Detroit Historical Society's parking lot to the north, and the Detroit Historical Museum to the east of the subject property.

The applicant has requested a rezoning of the subject property in order to permit an office use for a private technological firm (Computech Corporation) in the existing, vacant historic residential structure. The historic structure is known as the Joy House and was added to the National Register of Historic Places in 1986. Henry B. Joy was the president of Packard Motor Car Company.

**Scope and Impact of the Proposal**

The current zoning of PC does not allow private offices. The proposed zoning, PCA, allows business and professional offices by-right (if oriented to pedestrian traffic). Business and professional offices, other than those permitted by right, are allowed on a conditional basis. Like the existing PC District, any proposal in the PCA District must be reviewed by the City Planning Commission and the Planning and Development Department.

In addition to renovating the structure to accommodate the proposed office facility on the subject property, the proposed development would include a 15- to 16-space parking lot. The parking lot will be designed in a manner that allows the retention of as many of the existing trees

as possible. The easternmost portion of the parking area would be on land owned by the Detroit Historical Society. In a letter to Gregory Cheesewright of Computech Corporation, dated April 16, 2009, Robert Bury, Executive Director of the Detroit Historical Society, detailed the agreement granting Computech the use of a narrow strip of land along the east side of Computech's property, subject to certain conditions of appearance and maintenance. A landscaped buffer consisting of hedges and a wrought iron style fence would be placed along eastern portion of the parking lot. A new electronic gate system (to be shared with the Detroit Historical Society/Detroit Historical Museum) would be located at the existing Detroit Historical Museum parking lot entrance along W. Kirby Avenue.

#### **Zoning Ordinance and Master Plan Conformance**

Section 61-3-80 of the Detroit Zoning Ordinance lists eight criteria that must be *considered* in making recommendations and decisions on rezoning requests. The City Planning Commission has found that the proposal generally meets the criteria. A vacant building creates a potential danger and other negative impacts for the public. The proposed rezoning will protect the health, safety, and general welfare of the public by facilitating the occupancy of the existing vacant building by a company that will provide employment, tax revenue, and building and grounds maintenance, while at the same time not significantly changing the character of the property. Given the level of review mandated by the PCA zone, the area will continue to be protected from incompatible uses.

The subject site is located within the Lower Woodward Subsector of the Detroit Master Plan of Policies. The Master Plan's Existing Land Use Map and Recommended Future General Land Use Map both designate the subject area as institutional (INST); it is located in the University Cultural Center. On May 7, 2009, P&DD submitted comments on the consistency of the proposed zoning with the Master Plan. The report noted that while the proposed development does not conform to the future land use designation of . . . Institutional/Civic/Public Use . . ., the proposed rezoning and subsequent use of the subject property would not significantly alter the institutional character of the surrounding area." P&DD determined that, given the insignificant change in character and the small size of the area to be rezoned, a Master Plan amendment is not required.

#### **City Planning Commission Public Hearing**

On May 7, 2009, the City Planning Commission (CPC) held its public hearing at the Coleman A. Young Municipal Center. Two community members spoke

in support of the project, saying that an office is a good fit for the building and would not have a negative impact on the surrounding area. The petitioner had requested that CPC take same-day action on the proposed rezoning. CPC approved allowing same-day action.

#### **Recommendation**

On May 7, 2009 the City Planning Commission voted to recommend APPROVAL of the proposed rezoning of 100 W. Kirby from PC to PCA, Zoning Map No. 5, Article XVII, Chapter 61 of the 1984 Detroit City Code. The Zoning Ordinance map amendment has been approved as to form by the Law Department and is attached.

**City Council  
Division of Research & Analysis**

June 1, 2009

Honorable City Council:

Re: Resolution Supporting the Use of Tax Exemptions for Eligible Nonprofit Housing Property.

The Research and Analysis Division (RAD) was requested by Councilwoman Martha Reeves to submit a resolution regarding the above referenced matter. The proposed resolution is attached for your consideration.

MCL 211.7kk was adopted after non-profit housing entities, such as Habitat for Humanity, advocated for tax relief during construction and rehabilitation of low-income housing. This provision reduces the non-profit organization's overhead during this period and could also reduce the amount of subsidy necessary to make the home available to the target group of homeowners because the non-profit would not have the expense of taxes. This exemption is directed at specific eligible properties that the non-profit identifies for consideration. The identification of specific properties allows for the taxing jurisdictions as well as the local assessor to comment on the fiscal impact at the required hearing. There is no blanket exception for non-profit housing property; qualified organizations apply for the exemption via resolution for specific, eligible parcels of land or structures. A copy of the statute has been attached for reference purposes.

Respectfully submitted,

DAVID D. WHITAKER

Research and Analysis Division Staff  
**RESOLUTION SUPPORTING THE USE OF TAX EXEMPTIONS FOR ELIGIBLE NONPROFIT HOUSING PROPERTY BY COUNCIL MEMBER REEVES:**

WHEREAS, The General Property Tax Act, Public Act 206 of 1893, was amended so that specific nonprofit housing properties, if eligible, could be exempt from taxation for up to two (2) years or until a transfer of ownership or lease agreement is effectuated; and

WHEREAS, The relevant section, MCL 211.7kk, sets forth the procedure to obtain the exemptions for specific properties, which includes: adoption of a resolution by the Detroit City Council, notification to all taxing jurisdictions, as well as a hearing on the proposed exemptions, which must be done upon application of each nonprofit so requesting the exemption; and

WHEREAS, This exemption is available to eligible charitable nonprofit housing organizations defined in the Act as an organization having the primary purpose of constructing or renovating residential housing for conveyance to low-income persons; and

WHEREAS, Eligible properties include

single family dwellings or duplexes owned by an eligible charitable nonprofit housing organization which intends to transfer the dwelling to a low-income individual for use as principal residence; and

WHEREAS, The Detroit City Council has vested interest in preserving and expanding homeownership opportunities for residents of the City and doing all things practicable to assist non-profit developers in their efforts to make housing available to low-income individuals; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly encourages eligible charitable nonprofit housing organizations to apply for the aforementioned tax incentive for qualified housing developments or renovations; and BE IT FINALLY

RESOLVED, That a copy of this resolution be sent to the City of Detroit Mayor's Office, Planning & Development Department, Finance Department and Community Development Advocates of Detroit.

By Council Member Collins:

**AN ORDINANCE to amend Chapter 25, Article II of the 1984 Detroit City Code by adding Section 25-2-171 to establish the B.E. Taylor's Sub-division House Historic District and to define the elements of design for the district.**

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 25, Article II of the 1984 Detroit City Code is amended by adding Section 25-2-171 to read as follows:

**SEC. 25-2-171. B.E. Taylor's Subdivision House Historic District.**

(A) A historic district to be known as the B.E. Taylor's Subdivision House Historic District is hereby established in accordance with the provisions of this article.

(B) This historic district designation is certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the B.E. Taylor's Subdivision House Historic District are as shown on the map on file in the office of the City Clerk, and shall be as follows:

On the north, the centerline of Keeler; on the south, the south line of Lot 534 of B.E. Taylor's Brightmoor-Johns Subdivision as recorded in Liber 45, Page 1 of Plats, Wayne County Records; on the east, the centerline of the alley running north-south between Lamphere and Dacosta Avenues; and, on the west, the centerline of Lamphere Avenue. (Legal Description: Land in the City of Detroit, County of Wayne and State of Michigan, being Lots 534 and 535 of B.E. Taylor's Brightmoor-Johns Subdivision as recorded in Liber 45, Page 1 of Plats, Wayne County Records, commonly known as 15378 and 15384 Lamphere.)

(D) The defined elements of design, as provided for in Section 25-2-2 of this code, are as follows:

(1) *Height.* The B.E. Taylor's Subdivision House is a single story tall.

(2) *Proportion of Building's Front Façade.* The front façade of the B.E. Taylor's Subdivision House is approximately twice as wide as it is tall to its eaves. The front porch occupies the southern two-thirds of the front façade, with the northern one-third a solid wall.

(3) *Proportion of Openings Within the Façade.* The B.E. Taylor's Subdivision House is composed of approximately twenty-five percent (25%) openings in its front façade, all located in the southern two-thirds porch section. The single door opening is flanked on each side by a double-hung sash window that is twice as tall as wide. These openings on the front façade have had security bars installed over them.

(4) *Rhythm of Solids to Voids in the Front Façade.* Due to the small size of the house and the scarcity of openings, the only regular rhythm of solids to voids exists in the front porch section, where the single door opening is flanked by single window openings. Openings on the other elevations are determined by the function of the interior spaces. The rear addition on the southeast corner of the house has a back entrance.

(5) *Rhythm of Spacing of Buildings on Streets.* Not applicable due to single building district. The lot to the house's south, located within the district, is vacant.

(6) *Rhythm of Entrance and/or Porch*

*Projections.* Not applicable due to single building district. The porch of B.E. Taylor's Subdivision House features a slightly sloping shed roof on thin wooden square columns at the two outer corners. A wooden trellis is attached to the south end of the porch. A concrete step leads up to the porch.

(7) *Relationship of Materials.* The wood frame house is clad in wide rectangular asphalt asbestos replacement siding. Window surrounds, sashes, and the porch are wood. Foundation skirting hiding the cedar posts supporting the structure is asphalt rolled roofing. Concrete block foundations support the porch. The roof is now covered with asphalt shingles and the porch roof is covered with rolled roofing.

(8) *Relationship of Textures.* The regular placement of the cladding material provides the major textural effect. Slightly projecting wooden frames around openings on the front façade provide some break in the otherwise flat surface. Asphalt shingle and rolled roofing do not generally contribute to textural interest.

(9) *Relationship of Colors.* The entire house is painted white, with the exception of black window sashes. The deck of the porch is gray, the foundation skirting is black, the asphalt shingled roof is a light greenish gray, and the porch roof is light gray.

(10) *Relationship of Architectural Details.* The B.E. Taylor's Subdivision House is a vernacular Michigan bungalow of a folk-art nature. Its visible roof rafters and modestly raked verge boards at the side gables are elements of the simple bungalow style. Its lack of detail and simple form are expressions of its original function as low-cost housing for workers.

(11) *Relationship of Roof Shapes.* The side-facing gabled roof has a slightly sloped porch roof supported at its front corners by two wood posts projecting from the south side of its front slope. A kitchen addition on the southeast corner of the rear of the building is also covered with a slightly sloped shed roof. A modest, concrete block chimney projects upward from the interior corner of the kitchen.

(12) *Walls of Continuity.* Not applicable due to single building district.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* The house is situated on a flat site with grass turf surrounding it on all four sides. A concrete walk leads up to the front porch from the gate in the chain-link fence that runs around the street perimeters of the house. The vacant lot to the south of the house, also included in the historic district, is fenced in with the house. Several mature trees occupy the front and south yards. A two-car concrete garage fronting on Keeler Avenue is located at the rear of the property at the alley line.

(14) Relationship of Open Space to Structures. Open space is created by the siting of the house on a corner lot and the absence of other houses close to it on its side of the street, permitting ample grass turf and a community garden to the district's south. Small areas of grass turf to the front and north side of the house and a larger back yard between the house and garage exist. Open space outside the district is due to building demolition that has occurred primarily to the south of the property. The public alley between Lamphere and Dacosta Avenues has been closed.

(15) Scale of Façade and Façade Elements. The house is small and unpretentious in size and façade elements.

(16) Directional Expression of Front Elevation. The front elevation of the B.E. Taylor's Subdivision House is horizontal in directional expression.

(17) Rhythm of Building Setbacks. Not applicable due to single building district.

(18) Relationship of Lot Coverages. The footprints of the house and garage occupy a total of approximately twenty percent (20%) of its single lot.

(19) Degree of Complexity Within the Façade. The front façade is straightforward in its massing, fenestration, and lack of detail, and therefore has a very low degree of complexity.

(20) Orientation, Vistas, Overviews. The B.E. Taylor's Subdivision House Historic District is oriented toward Lamphere Avenue, the north-south street running in front of the house. The general overview is of a residential neighborhood with scattered small-scaled houses. Substantial institutional buildings at the corners of Lamphere and Fenkell Avenues anchor its block on its southern end.

(21) Symmetric or Asymmetric Appearance. The appearance of the front façade of B.E. Taylor's Subdivision House is asymmetrical due to the off-center positioning of the porch and entrance section.

(22) General Environmental Character. The B.E. Taylor's Subdivision House Historic District consists of an architecturally characteristic working class residential building situated at the southeast corner of Lamphere and Keeler Avenues in a residential neighborhood from the early 1920s. The neighborhood has been scarred by building vacancies and cleared lots, significantly altering its historic setting as a fully occupied and intact neighborhood it once was. Although the fabric of the community has been compromised by the deterioration and removal of much of the housing stock, the tall trees that were planted concurrently with the development of the area still form canopies over the streets of Brightmoor today.

**Section 2.** All ordinances or parts of ordinances, or resolutions or parts of res-

olutions, in conflict with this ordinance are repealed.

**Section 3.** This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

**Section 4.** If this ordinance is passed by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter; otherwise, it shall become effective in accordance with Section 4-115 of the 1997 Detroit City Charter.

**AN ORDINANCE to amend Chapter 25, Article II of the 1984 Detroit City Code by adding Section 25-2-172 to establish the Nacirema Club Historic District and to define the elements of design for the district.**

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 25, Article II of the 1984 Detroit City Code be amended by adding Section 25-2-172 to read as follows: **Sec. 25-2-172. Nacirema Club Historic District.**

(A) A historic district to be known as the Nacirema Club Historic District (6118 Thirtieth Street) is hereby established in accordance with the provisions of this article.

(B) This historic district designation is certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the Nacirema Club Historic District are as shown on the map on file in the office of the City Clerk, and are as follows:

On the west, the centerline of Thirtieth Street; on the north, the centerline of Milford Street; on the east, the centerline of the north-south alley lying between Milford Street and Cobb Place; and on the south, the south line (extended east and west) of Lot 79 of Butterfield and Howland's Subdivision as recorded in Liber 16, Page 23, Wayne County Records. (Legal Description: Land in the City of Detroit, County of Wayne and State of Michigan, being Lots 78 and 79 of Butterfield and Howland's Subdivision as recorded in Liber 16, Page 23, Wayne County Records, commonly known as 6118 Thirtieth Street).

(D) The defined elements of design, as provided for in Section 25-2-2 of this Code, are as follows:

(1) *Height.* The Nacirema Club is two and one-half stories tall, meaning it has a

full story within the roof. Its addition is a single tall story high.

(2) *Proportion of Building's Front Façade.* The front façade of the Nacirema Club is a boxy form that is approximately as wide as it is tall to its eaves. The projecting front porch originally occupied the breadth of the front façade but now only occupies the south third. Also facing forward but set far back is the western wall of the large addition that contains an entrance.

(3) *Proportion of Openings Within the Façade.* The Nacirema Club is composed of approximately thirty percent (30%) openings in its front façade. Windows containing double-hung sashes are twice as tall as wide, although when grouped together their openings may be wider than tall. The south entrance end of the front façade contains a single entry door and, at second story level, a small rectangular window providing light to the interior stair hall. Window openings on the first floor that would have originally held a pair of double-hung sash windows have been altered to create two large picture windows, and a single door opening between them has been bricked in. On the second floor, two pairs of double-hung sash windows sharing a common sill flank a single double-hung sash window, and their upper panes are further subdivided into three panes by vertical muntins. All windows on the second story of the front elevation are positioned just beneath the frieze. The frontal dormer has a row of five double-hung sash windows. The north elevation of the original house facing Milford Street features small rectangular window openings flanking the chimney on the first floor, and a pair of double-hung sash windows towards the rear at both the first and second story levels. The addition to its east features a set of steel double doors flanked by two rows of glass block facing forward towards Thirtieth Street. Basement windows are filled in.

(4) *Rhythm of Solids to Voids in the Front Façade.* There is a regular rhythm of solids to voids north on the porch section of the front façade, with openings evenly placed one over the other by floor. A rising rhythm of window openings goes up the south elevation along its interior stairwell, and its north elevation features a single small rectangular window flanking the chimney wall on each floor.

(5) *Rhythm of Spacing of Buildings on Streets.* Not applicable due to single building district.

(6) *Rhythm of Entrance and/or Porch Projections.* The porch projects outward from the south third of the front façade of the Nacirema Club. The front of its hip roof is supported on brick piers and seven (7) steps lead up to the porch deck. Originally, its deck and porch walls extended the width of the front façade.

(7) *Relationship of Materials.* The main material of the house is face brick. Windowsills and porch wall caps are cast concrete. Dormer walls, originally clad in wood shingle, are covered with asphalt shingles; all of the roofs are clad in asphalt shingles as well. To the north of the brick porch wall where the original porch would have extended, unfinished brick is exposed. The large concrete block addition is faced with tapestry brick except for its rear elevation facing the alley. Its double-doors are steel and are flanked by a double column of glass block.

(8) *Relationship of Textures.* The tapestry brick, contrasted with the smoother surfaces of the concrete sills, porch caps, and weathered, painted wood, provide the major textural contrasts on the front façade. The asphalt shingles covering the roof and dormers generally do not contribute to textural interest.

(9) *Relationship of Colors.* The multi-colored bricks are within the natural tonal range of orange, red, brown, and black; the masonry sills and capstones are beige; and window frames, sashes, mullions, muntins, roof rafters, and the underside of the porch roof are painted white. Metallic elements, such as visible vents, the fire escape, and fence posts, are painted green. The asphalt shingles of the roof and dormers are a pinkish-gray.

(10) *Relationship of Architectural Details.* The Nacirema Club is a four-square vernacular Prairie-style residential building with no applied detail. Its architectural characteristics are simplified and expressed in its boxy form, its overhanging eaves and rafters of the main roof, dormers, and porch, and its horizontal groupings of windows, especially in the front dormer. The front dormer has battered walls, as does the chimney on the face of the north elevation.

(11) *Relationship of Roof Shapes.* The hipped roof of the Nacirema Club has a dormer projecting from each of its slopes, each with hipped roofs except for the rear (east) dormer, which has a gable roof. The roof over the porch is also hipped. The large addition extending back to the rear alley has a flat roof not visible from the street.

(12) *Walls of Continuity.* Not applicable due to single building district.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* The building is situated on a slightly graded front yard approached up two concrete steps from the public sidewalk. Grass turf surrounds it on three side façades. A metal three-foot post and chain fence divides the property from the lot on its south side.

(14) *Relationship of Open Space to Structures.* Open space is created by the setback of the building from the front and side lot lines and its location on the corner

lot, but it has been significantly reduced by an addition built in 1949 that occupies the entire rear of the lot.

(15) *Scale of Façade and Façade Elements.* The house is of moderate size. It is unpretentious in size and façade elements, and is void of any applied architectural detail.

(16) *Directional Expression of Front Elevation.* The front elevation of the Nacirema Club is slightly horizontal in directional expression due to its relatively shallow roofs, overhanging eaves, and grouped windows.

(17) *Rhythm of Building Setbacks.* Not applicable due to single building district. The lot to the south of the Nacirema Club is occupied by a residential building situated at the rear of its property.

(18) *Relationship of Lot Coverages.* The footprint of the house and its addition occupy a total of approximately seventy-five percent (75%) of its parcel. The house by itself originally occupied approximately thirty percent (30%) of its parcel, before the addition was built.

(19) *Degree of Complexity Within the Façade.* The front façade is straightforward in its massing, fenestration, and scarcity of detail, and therefore has a very low degree of complexity.

(20) *Orientation, Vistas, Overviews.* The Nacirema Club is oriented toward Thirtieth Street, the north-south street running in front of the house. The building sits at the southeast corner of Thirtieth Street and Milford Street in a residential neighborhood that has been scarred by building vacancies and cleared lots, altering its historic setting. It is the most prominent building on its block, as other houses are wood-clad.

(21) *Symmetric or Asymmetric Appearance.* The appearance of the front façade of the Nacirema Club is asymmetrical due to the placement of the entrance and porch on its south end.

(22) *General Environmental Character.* The Nacirema Club Historic District consists of a single four-square, vernacular prairie style residential building located on a corner lot in a residential neighborhood. Although it is a modest structure, it stands out as the only brick structure and the largest on its block face. Located in the "circle of churches" area amongst significant African-American congregations, the Nacirema Club has served as the anchor in the Old Westside community in which it is located.

**Section 2.** All ordinances or parts of ordinances, or resolutions or parts of resolutions, in conflict with this ordinance are repealed.

**Section 3.** This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

**Section 4.** If this ordinance is passed

by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter; otherwise, it shall become effective in accordance with Section 4-115 of the 1997 Detroit City Charter.

Honorable City Council:

Re: Formal Request for the City of Detroit, Planning & Development Department (P&DD) to be Granted Authorization to Apply for Department of Housing and Urban Development (HUD), Lead Hazard Demonstration Grant and Accept Award in the Amount of \$4 Million.

This correspondence serves as a formal request, in response to the City of Detroit's proposed application submission under the 2009 "Notice of Funding Availability (NOFA) entitled "**Lead Hazard Reduction Demonstration Grant**", through the Department of Housing and Urban Development (HUD). This funding is administered through HUD's Office of Healthy Homes and Lead Hazard Control. **The grant application is for \$4 Million**, which is to be submitted for funding consideration, through HUD's competitive, selection process. This is a three-year grant; effective date of the grant award is October 1, 2009.

The purpose of the grant award is to assist the City of Detroit, Planning and Development Department (P&DD), in its continued efforts of providing grant funding assistance, resources, and services to families and children "at risk" for lead-based paint poisoning. The following essential services will continue to be provided through this anticipated grant award: Referral coordination through the Department of Health and Wellness Promotion for high-risk priority cases, educational outreach and awareness campaigns, collaboration with various lead service providers, community partners and stakeholders, enhanced lead hazard reduction and control measures in single-family, owner-occupied housing and rental properties (1 to 4 units), during the three (3) year grant period.

We are hereby requesting authorization; to apply for and accept this grant award.

Sincerely,

MARJA M. WINTERS

Deputy Director

By Council Member Collins:

**RESOLUTION**

**Seeking Authorization and Approval for the City of Detroit, through the Planning and Development Department (P&DD), to Respond to the May 19, 2009 HUD "Notice of Funding Availability" (NOFA), and the Authorization to Submit an Application for Grant Funding Award, Prior to the July 20, 2009 Deadline, also Granting the Planning and Development Department, the Authority to Receive Funds to Administer the Program and Any Grant Related Activities.**

Whereas, The Department of Housing and Urban Development (HUD) published

on May 19, 2009, the formal 2009 "Notice of Funding Availability", NOFA: Lead-Based Paint and Lead Hazard Reduction Demonstration Program. Approximately **\$69 million** is available for Lead-Based Paint Hazard Control, and **\$48 million** is available for the Lead Hazard Reduction Demonstration Grant funding, through a **competitive** selection and award process.

Whereas, The City of Detroit is challenged by a rate, three to four times higher than any city in the State of Michigan, ranking Detroit as seventh nationally for childhood lead-based poisoning, noting that even more glaring is the troubling statistics which documents that in some areas of the City, one in every five (5) children has contracted or is 'at risk' for lead poisoning, according to the Center for Disease Control (CDC).

Whereas, The City of Detroit, through its Planning and Development Department (P&DD) was selected in **2004** to receive a **\$4 Million**, 42-month Grant Award, successfully completed, and again in **2006** to receive a 36-month **\$4 Million** Lead Hazard Reduction Demonstration Grant Award, presently underway, scheduled to end December 31, 2009, both critically important in providing much needed funding, equipment and resources, targeted at our "at risk" population of families and children.

Whereas, HUD requires, as a condition of federal funding assistance, that both Lead Hazard Reduction Demonstration grant awards be subject to stringent performance benchmark accomplishments and quarterly reporting requirements, the Planning and Development Department personnel have consistently averaged a 90% quarterly performance rating on both grant awards, recognizing their hard work efforts and dedication, well-positioning the Department to be eligible to compete for the 2009 NOFA, with high expectations of being selected for funding award.

Whereas, The City will continue to work very closely in collaboration with our many partners and stakeholders, including the Detroit City Council, the Detroit Lead Partnership, CLEARCorps/LEAP Detroit, the Department of Health and Wellness Promotion, The Department of Buildings and Safety Engineering, City Connect, Wayne County Prosecutor's Office, the Department of Environmental Affairs, various neighborhood community organizations, the State of Michigan, and the Lead Ordinance Task Force in an ongoing effort to launch public education and awareness campaigns, share information, coordinate activities, recommend public policy initiatives and to leverage scarce resources.

Whereas, The City of Detroit Planning and Development (P&DD) respectfully request permission from this Honorable City Body to submit an application for grant funding assistance, for **\$4 Million**,

under the current HUD published Notice of Funding Availability (NOFA): Lead-Based Paint Hazard Reduction Demonstration Grant Award, prior to the **June 20, 2009** deadline.

Whereas, If awarded grant funding by HUD, under this competitive selection process, the Planning and Development Department, requests permission to receive grant funding in the amount of **\$4 million** dollars to continue the critically important activities, well underway, needed to address the ongoing health challenges associated with lead-based paint poisoning through providing lead remediation and hazard control, in coordination with the City's overall strategic planning efforts to eliminate childhood lead poisoning by 2010. Now, therefore be it

Resolved, That the Detroit City Council, hereby grant the Planning and Development Department the authorization to submit an application, formally applying for the HUD Lead-Based Paint Hazard Reduction Demonstration Grant for fiscal year 2009, enabling the Department to continue to provide support for the various programs, initiatives and efforts underway, acknowledging the Department's focused program efforts, targeted at combating and reducing lead hazards in Detroit' housing stock through providing preventive strategies, aimed at enhancing the quality of life for "at risk" Detroit's families, property owners and rental tenants.

Honorable City Council:

Re: Departmental Report and Recommendation. Petition No. 3416 — 1701 Executive Cigar Bar, Inc., request for seasonal outdoor patio in front of 140 Cadillac Square.

The above named petitioner has requested permission for seasonal outdoor patio. This outdoor patio will convene from April 1 through November 30, 2009.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this request contingent upon the petitioners compliance with applicable City Ordinances related to outdoor café activities and the remittance of the annual use-permit fee to the Permit Section of the DPW/CED.

Mr. Antoine Kassab, owner/petitioner, for the 1701 Executive Cigar Bar is currently waiting for the approval of a license that will include liquor sale for this establishment. There will be no grilling or other food services offered in this location.

Approval from the Detroit Police

Department Liquor License Bureau is contingent upon the final action given by the City Council towards above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in the outdoor patio until the Detroit Police Department Liquor License Bureau has given approval.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to terms and conditions provided in the attached Resolution.

Respectfully submitted,

MARJA M. WINTERS

May 28, 2009

Honorable City Council:

Re: Request of the Planning and Development Department to amend the Detroit Master Plan of Policies for the West Sector, Redford Subsector, in the area generally bounded by a line approximately 1,000 feet south of West Eight Mile Road, the Rouge River, the northern property line of the adjacent Super Kmart Center, and Telegraph Road (RECOMMEND APPROVAL).

**Recommendation**

The City Planning Commission (CPC) has reviewed the proposed Master Plan amendment request by the Planning and Development Department and recommends approval.

**Nature of Request**

The Planning and Development Department (P&DD) has requested to amend the Detroit Master Plan of Policies, Redford Subsector of the West Sector, in the area generally bounded by a line approximately 1,000 feet south of West Eight Mile Road, the Rouge River, the northern property line of the adjacent Super Kmart Center, and Telegraph Road (see attached P&DD report).

The generalized existing and proposed land use map designation for this area is "POS" (Permanent Open Space). The proposed "Generalized Existing Land Use and Proposed Land Use" map designation for this area is "GC" (General Commercial) to allow the development of a new hotel on an 8.43 acre portion of the former Bonnie Brook golf course along Telegraph Road.

**Proposed Development**

The site is currently vacant. The proposed development calls for an approximately 65,400 square foot, four-story hotel with 92 guest rooms.

**Response to Notification**

Notice of and request for comments on the proposed Master Plan amendment was sent to adjacent municipalities, Wayne County and other entities as required by the Municipal Planning Act. No other comments were received.

**Public Hearing Results**

At the July 7, 2008 CPC public hearing on this matter, one person from the adjacent residential community spoke. The speaker did not indicate whether he opposed or favored the request, however, he expressed concerns about the feasibility of the proposed development. Additionally, the City of Oak Park submitted its review of the proposed change and had no objections.

**Analysis**

The subject area consists of vacant land and is adjacent of a Super Kmart Center. Allowing commercial use on the subject property would appear not to negatively impact the area. The proposed

development provides commerce along Telegraph Road with extensive landscaping in harmony with the surrounding open space at the former golf course site.

In summary, the proposed Master Plan change appears to be appropriate.

July 19, 2007

Honorable City Council:

Re: Master Plan of Policies Review of a proposed hotel on a portion of the former Bonnie Brook Golf Course site.

Pursuant to the City of Detroit's City Charter (Sections 6-202 and 6-204), the Planning and Development Department's (P&DD) Planning Division submits the following review of the proposed rezoning.

The petitioner, Mirage Concepts, has requested to rezone the subject site from an R1 (Single-Family Residential District) zoning classification to a PD (Planned Development District) zoning classification. The petitioner has requested this rezoning to accommodate the construction of an approximately 65,400 square foot, four-story Staybridge Suites Hotel on a section of existing open space along Telegraph Road.

**Location****Telegraph Road 1/4 mile south of West Eight Mile Road.**

The subject area is located in the West Sector, Redford Subsector of the Master Plan of Policies. The site is immediately north of the Super Kmart center on the east side of Telegraph Road south of West Eight Mile Road.

**Existing Site Information**

**Future general land use:** "POS", Permanent Open Space

**Existing land and/or building use:** Open green space (previously part of the former Bonnie Brook Golf Course)

**Existing zoning:** R1 (Single-Family Residential District)

**Size (acreage):** 8.43 acres

**Surrounding Site Information****Future general land use:**

**North and East:** "POS", Permanent Open Space

**South:** "GC" General Commercial

**West:** "POS", Permanent Open Space north of the easement north of Woodbine

**Existing land and/or building use:**

**North and East:** Open green space

**South:** Super Kmart Center

**West:** Open green space north of the easement north of Woodbine

**Existing zoning:**

**North, East, and West:** R1 (Single-Family Residential)

**South:** PD (Planned Development)

**Project Proposal**

**Future general land use:**

"GC" General Commercial

**Proposed land and/or building use:**

The petitioner has requested the rezoning to accommodate the construction of a 65,400 square foot, four-story Staybridge Suites Hotel on the southwestern portion of the former Bonnie Brook Golf Course. The proposed development site, immediately north of a Super Kmart center on Telegraph Road, will include 102 parking spaces.

**Proposed zoning:**

PD: (Planned Development)

**Interpretation**

Impact on Surrounding Land Use

The proposed development will bring a more productive use to a neglected open space area. The proposed hotel will bring more commerce to this section of Telegraph Road and may also lead to better maintenance of the surrounding open space areas. The subject site is located on an existing floodplain, so proper attention must be made to ensure that the proposed development does not create flooding issues for nearby property owners.

Impact on Transportation

Telegraph Road (U.S. 24) is a busy

highway, so deceleration lanes may have to be constructed to allow traffic to flow smoothly into and out of the proposed hotel site, just as was done for the Super Kmart center immediately south. DDOT has a bus route servicing the area along W. Eight Mile Road. SMART has a route along Telegraph north of W. Eight Mile and on W. Eight Mile west of Telegraph.

**Master Plan Amendment**

The proposed development does not conform to the future land use designation of "POS", Permanent Open Space for the subject site and does not conform to the intent of the Master Plan of Policies. The Master Plan of Policies will have to be amended before the project can proceed. The Planning and Development Department will determine the feasibility of amending the Master Plan and will notify the City Planning Commission of its decision.
